Refugee - Alan Gratz

2017-07-25

A tour de force from acclaimed author Alan Gratz (Prisoner B-3087), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades,

shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

Defenders of Freedom -

Vincent N. Parrillo 2015-09-01

Based on actual events, this historical novel tells of people fighting for minority rights against oppressors. Although briefly about soldiers in the First World War, this is mainly the story of advocates on behalf of immigrants, of activists for women's right to vote, and of one man who, as the Ellis Island Commissioner, defied his bosses in Washington and even Congress to ensure that helpless victims of patriotic hysteria would have due process of law.

Myth and National Identity in Nineteenth-Century

Britain - Stephanie Barczewski
2000-03-02

Scholars have become increasingly interested in how modern national consciousness comes into being through fictional narratives. Literature is of particular importance to this process, for it is responsible for tracing the nations evolution through

glorious tales of its history. In nineteenth-century Britain, the legends of King Arthur and Robin Hood played an important role in construction of contemporary national identity. These two legends provide excellent windows through which to view British culture, because they provide very different perspectives. King Arthur and Robin Hood have traditionally been diametrically opposed in terms of their ideological orientation. The former is a king, a man at the pinnacle of the social and political hierarchy, whereas the latter is an outlaw, and is therefore completely outside conventional hierarchical structures. The fact that two such different figures could simultaneously function as British national heroes suggests that nineteenth-century British nationalism did not represent a single set of values and ideas, but rather that it was forced to assimilate a variety of competing points of view.

Life of Pi - Yann Martel

After a cargo ship sinks in the middle of the vast Pacific Ocean, there are five survivors stranded on a lifeboat - a hyena, a zebra, an orangutan, a Royal Bengal tiger, and a sixteen year-old boy named Pi. Time is against them, nature is harsh, who will survive? Based on one of the most extraordinary and best-loved works of fiction - winner of the Man Booker Prize, selling over fifteen million copies worldwide - and featuring breath-taking puppetry and state-of-the-art visuals, *Life of Pi* is a universally acclaimed, smash hit adaptation of an epic journey of endurance and hope. Folk Devils and Moral Panics -

Stanley Cohen 2011

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is

essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Racial Formation in the United States - Michael Omi

2014-06-20

Twenty years since the publication of the Second Edition and more than thirty years since the publication of the original book, Racial Formation in the United States now arrives with each chapter radically revised and rewritten by authors Michael Omi and Howard Winant, but the overall purpose and vision of this classic remains the same: Omi and Winant provide an account of how concepts of race are created and transformed, how they become the focus of political conflict, and how they come to shape and permeate both identities and institutions. The steady journey of the U.S. toward a majority nonwhite population, the ongoing evisceration of the political legacy of the early post-World War II civil rights movement, the initiation of the 'war on terror' with its attendant Islamophobia, the rise of a mass immigrants rights movement, the formulation of race/class/gender

'intersectionality' theories, and the election and reelection of a black President of the United States are some of the many new racial conditions Racial Formation now covers.

Make Your Home Among Strangers - Jennine Capó Crucet 2015-08-04

Lizet, a daughter of Cuban immigrants and the first in her family to graduate from high school, secretly applies and is accepted to an ultra-elite college. Her parents are furious at her decision to leave Miami, and amid a painful divorce, her father sells her childhood home, leaving Lizet, her mother, and older sister, a newly single mom--without a steady income and scrambling for a place to live. Amidst this turmoil, Lizet begins college,

but the privileged world of the campus feels utterly foreign to her, as does her new awareness of herself as a minority. Struggling both socially and academically, she returns home for a Thanksgiving visit, only to be overshadowed by the arrival of Ariel Hernandez, a young boy whose mother died fleeing with him from Cuba on a raft. The ensuing immigration battle puts Miami in a glaring spotlight, captivating the nation and entangling Lizet's entire family. Pulled between life at college and the needs of those she loves, Lizet is faced with hard decisions that will change her life forever. Her urgent, mordantly funny voice leaps off the page to tell this moving story of a young woman torn between generational, cultural, and political forces; it's the new story of what it means to be American today.

The Count of Monte Cristo - Alexander Dumas 2019-06-27

The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most

popular works, along with *The Three Musketeers*. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815–1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown

throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."

Critique of Black Reason - Achille Mbembe 2017-02-17
In Critique of Black Reason

eminent critic Achille Mbembe offers a capacious genealogy of the category of

Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of exclusion. With *Critique of Black Reason*, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first

glimpses of a more just future.

The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts;

an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Losing the Dead - Lisa Appignanesi 2013-11-07

She had shunned her parents' stories of war-time Poland, but now she set out to find the truth. In her quest she flew to Warsaw - imagining and revisiting a past she never knew. This is the moving story of the Jews who survived outside the camps, but it is also the author's own voyage of self-discovery - a family memoir of the rites of passage of emigration,

childhood, and growing up an outsider in a closed community
Around the World in 80 days - Jules Verne 1881

Around the World in Eighty Days, an adventure novel first published in 1873, was written by the French writer Jules Verne. Phileas Fogg is a rich Englishman living in London, whose life moves strictly by the clock. He employs a new servant, Passepartout, after his previous servant makes the silly mistake of serving shaving water two degrees cold. Later that day, Phileas goes to the Reform Club as usual, where he gets into an argument with his whist partners who debate whether one can travel all around the world in eighty days. He bets a fortune to prove that he can accomplish the feat, being unaware that a look-alike has recently robbed a bank.

The Birthday Party, and The Room - Harold Pinter 1961

The Cultural Cold War - Frances Stonor Saunders

2013-11-05

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In The Cultural Cold War, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold

War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Public Opinion - Walter Lippmann 1922

The Social Construction of Race and Ethnicity in the United States - Joan Ferrante-Wallace 2001

This groundbreaking collection of classic and cutting edge sociological research gives special attention to the social construction of race and ethnicity in the United States. It offers an in-depth and eye-opening analysis of (a) the power of racial classification to shape our understanding of race and race relations, (b) the way in which the system came into being and remains, and (c) the real consequences this system has on life chances. The readings deal with five major

themes: the personal experience of classification schemes; classifying people by race; ethnic classification; the persistence, functions, and consequences of social classification; and a new paradigm: transcending categories. For individuals who want to gain a fuller understanding of the impact the ideas of race has on a society that is consumed by it. *The Nature and Properties of Soils* - Nyle C Brady 2013-07-29
