Global Business Management - Abel Adekola 2016-04-22

This book interweaves the concepts of the guidance on globalization, international management, and the intricacies of international business that many books on the market treat independently. It clarifies and explains culture, cultural misunderstandings, and cross-cultural interactions. Adekola and Sergi's text is unique in that it offers both the management perspective and the cultural perspective. It is for managers seeking to thrive in the global economy. This book focuses on managing global organizations, providing a basis for understanding the influence of culture on international management, and the key roles that international managers play. It clearly shows how to develop the cross-cultural expertise essential to succeed in a world of rapid and profound economic, political and cultural changes.

Surfeuses Paradise - Pierre Grundmann 2005-02-02

Un fait divers australien. Deux lycéennes sans histoires détournent un chèque de 40 000 dollars puis disparaissent. Danielle et Nina sont joyeuses et jolies. Elles s'ennuient dans les suburbs tranquilles de Melbourne. Elles pourraient s'anéantir à la vodka, à l'X, s'éclater avec Big Brovaz, P. Diddy. Elles le font. Mais ce sont des filles bien. Elles veulent sauver le monde, les chiens, les pythons et leur copain Pete qui va les suivre à Surfers Paradise, sur la côte Pacifique. Mais, au bout de la route, le paradis a la couleur de l'enfer. Très cinématographique. Admirablement cadré, efficacement monté, dialogues menés tambour battant. Il fait chaud, il fait nuit. On a très peu de temps pour réfléchir. On dort peu. On baigne dans une fascination onirique proche de Virgin Suicides.

Copak jsem Bůh? - Roman Cílek 2019-01-01

Takhle, přesně takhle se vyjádřila hotelová manažerka Naděžda Jeremiášová, když se dozvěděla, jak nesnadný úkol jí její zemřelý otec, slovtuný právník, svěřil ve své závěti. Ale tak jako tak věděla, že se k cíli musí prodrat. Táta, se kterým nikdy příliš nevycházela, si to přece přál, a bylo to poprvé, co od ní něco takhle naléhavě žádal. Již tento náznak děje svědčí o tom, že prostor pro šedivou nudu v této knize nebude.

Marketing In India, Cases And Readings - S.Neelamegham

This book provides a comprehensive overview of the current marketing environment in India. It examines the changing dynamics of marketing management against the backdrop of globalization and liberalization, analysing how both marketers and consumers are adapting to radical changes. Insightful perspectives on key issues including market segmentation, brand strategy, product planning, advertising, pricing and distribution strategies as well as challenges of rural marketing are given. This Fourth Edition boasts of incisive coverage of all contemporary concepts and formats of marketing, including retailing, Internet marketing and telemarketing. It is further enriched by varied case studies that are drawn from the Indian experience and will go a long way to inculcate skills of analysis, logical thinking and decision making in students. Valuable not only to students and teachers of marketing management, the book is a must-have for practising managers who want to stay abreast with the latest developments in their field.

Token: A Journal of English Linguistics (Volume 1) - Sylwester Łodej 2012-12-03

Token focuses on English linguistics in a broad sense, taking in both diachronic and synchronic work, grammatical as well as lexical studies. That being said, the journal favors empirical research. All submissions are double-blind peer reviewed. Token is the original medium of publication for all articles that the journal prints. ISSN 2299-5900

Crisis and Restructuring in East Asia - S. Jeong 2004-07-20

This book criticizes the widespread view that the 1997 Asian crisis was due to 'crony capitalism' and puts the blame instead on misguided liberalization. It analyzes the case of Korea's business conglomerates, the chaebol, with particular attention to the car industry, to show how liberalization contributed to the crisis even at the level of the firm. It shows how those firms that had developed innovative capabilities survived the crisis much better than those that had merely expanded into markets opened up by liberalization.

Automobil a spalovací motor - Remek Branko 2012-02-09

Jedinečná publikace přináší neotřelý pohled do dějin automobilismu - klade důraz na historické a technické mezníky vývoje spalovacího motoru i automobilu, který popisuje na pozadí a v kontextu politicko-ekonomického vývoje světa, především však Evropy. V bohatě ilustrované knize sleduje autor chronologický vývoj technických řešení i osudy nových objevů (třeba kotoučová brzda byla vynalezena už před 90 lety, používá se však teprve od 60. let 20. století) a poskytne tak nový pohled na automobily jak technikům, tak zájemcům o historii techniky vůbec. Seznámení s historickým vývojem zároveň umožňuje odhad vývoje v nejbližší budoucnosti, kterému se věnuje poslední kapitola. Studium historie techniky totiž poskytuje potřebnou orientaci v problematice a pomáhá při rozhodování o volbě nových koncepcí, které často mohou znamenat i návrat k dávno známým konstrukčním řešením, jež jen kdysi předstihla svou dobu.

The Big Book of Tiny Cars - Russell Hayes 2021-11-23

Richly illustrated and entertainingly written, The Big Book of Tiny Cars presents lively profiles of the automotive world's most famous—and infamous—microcars and subcompacts from 1901 to today. From tiny homes to little lending libraries and even tiny food, people everywhere are resetting the premium they put on size. Fact is, the automotive industry has a "tiny" history going back to the car's earliest days.

Beginning with the Curved Dash Oldsmobile and continuing through prewar classics such as the Austin Seven and Hanomag Kommissbrot, *The Big Book of Tiny Cars* is truly international in scope. Witness diminutive cars like the Bond Minicar and the BMWIsetta introduced to fuel-deprived postwar Europe, and continue through the classic 1950s microcars and '70s subcompacts, right up to today's tiny cars and electric vehicles (EVs) from the likes of Smart and Fiat. In addition to iconic curiosities like the frog-like Goggomobil Dart, the futuristic Sebring Vanguard Citicar, and the three-wheeled Reliant Robin, you'll read about more familiar classics like the VW Beetle, MiniCooper, and Crosley Super Sport. Other manufacturers represented include Honda, Datsun, Mitsubishi, Trabant, Heinkel, Renault, and Messerschmitt, to name a few. Each car is profiled with an entertaining and informative history and a fact box. Imagery includes archival photos, period ads, and modern photography. In all, more than 100 cars are included, from the weird to the sublime. Gas, diesel, or electric...tiny cars have a rich and curious heritage reflective of motorists' concerns for their pocketbook, the environment, or both. *The Big Book of Tiny Cars* is your ultimate collection of microcars, minicars, bubble cars, kei cars, subcompacts, and compacts that have been built, sold, and driven all over the globe for 120 years.

Intellectual Property in the Managerial Portfolio - Thomas S. O'Connor 2012-12-04

Intellectual property rights have, in fact, been a part of the American pantheon of types of property rights since the very beginning of the nation, but using that term to describe them is a new phenomenon dating to the second half of the last century. The recognition of the importance of protection of intellectual property rights became extremely important and distinctly more difficult as new technologies made it possible for unscrupulous "intellectual property pirates" to purloin, steal, or otherwise make off with the intellectual property of the unaware. This book introduces you to the underlying logic of intellectual property rights—how to acquire them, why they exist, the benefits derived from their ownership, and how they can be protected from the unscrupulous. Inside, you'll learn legal and commonsense alternatives that provide the keys to protection which are outlined with detailed instructions. The availability of intellectual property rights protection, both domestic and international, is outlined and discussed, as are the history of and current trends relevant to the legal rights of the intellectual property owner and the limits of protection provided by the law and by extralegal alternatives of providing protection.

On a Global Mission: The Automobiles of General Motors International Volume 3 - Louis F. Fourie 2016-12-29

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

American Wheels, Chinese Roads - Michael J. Dunne 2011-07-20

How could one company—General Motors—meet disaster on one continent and achieve explosive growth on another at the very same

time? While General Motors was hurtling towards bankruptcy in 2009, GM's subsidiary in China was setting new sales and profit records. This book reveals how extraordinary people, remarkable decisions and surprising breaks made triumph in China possible for General Motors. It also shows just how vulnerable that winning track record remains. No small part of GM's success in China springs from its management of shifting business and political relationships. In China, the government makes the rules for—and competes in—the auto industry. GM's business partner, the City of Shanghai, is both an ally and a competitor. How does such an unnatural relationship work on a day-to-day basis? Where will it go on the future? General Motors also engages in constant battles with other global and Chinese car makers for the hearts of demanding Chinese consumers. Dunne gives us rare glimpses into the mindsets and behavior of this new moneyed set, the world's newest class of wealthy consumers. China is already the number one car market in the world. During the next ten years, China will export millions of cars and trucks globally, including to the United States. *American Wheels, Chinese Roads* presents readers with fascinating illustrations of what to expect when Chinese cars, companies, and business people arrive on our shores.

China's Next Strategic Advantage - George S. Yip 2017-09-15

A book for everyone who does business with China or in China. The history-making development of the Chinese economy has entered a new phase. China is moving aggressively from a strategy of imitation to one of innovation. Driven both by domestic needs and by global ambition, China is establishing itself at the forefront of technological innovation. Western businesses need to prepare for a tidal wave of innovation from China that is about to hit Western markets, and Chinese businesses need to understand the critical importance of innovation in their future. Experts George Yip and Bruce McKern explain this epic transformation and propose strategies for both Western and Chinese companies. This book is for everyone who does business with China or in China, or is interested in the development of the world's fastest-growing economy. Western CEOs can learn from Chinese companies and can create an effective innovation process in China, for China and the world. Chinese CEOs can benefit from understanding the strategies of their peers as they strive to enter foreign markets. And all Western businesses should prepare for disruption from their new competitors. Yip and McKern provide case studies of successful firms, outline ten ways in which the managerial and innovative capabilities of these firms differ from those of Western firms, and describe how multinationals doing business in China can become part of the Chinese ecosystem of new knowledge and technology. Yip and McKern argue that these innovation capabilities will be the basis for creating world-class products and services to meet the challenges of a new era of global competition.

Consumer Behaviour And Branding: Concepts, Readings And Cases-The Indian Context - S. Ramesh Kumar 2009-09

India is one of the emerging markets that pose a unique set of challenges to marketers. The importance of the context and the usefulness of concepts in the Indian context is the core proposition of the book. The diversity of a mix of factors such as cultural aspects, lifestyles, demographics and unbranded offerings make consumer behaviour a fascinating study. This book focuses on the behavioural principles of marketing and its application to branding in the Indian context. * Consumer behaviour concepts associated with branding * A combination of recent and traditional examples reflecting the application of behavioural concepts * Touch of reality boxes to indicate context-based examples * Caselets and cases drawn from real-life situations * Research findings associated with the Indian context * Topical issues in consumer behaviour like cultural aspects, digital marketing and experiential

Sedm let temnoty - Čong Judžong

Jak daleko jsou lidé schopni zajít, aby se mohli pomstít? Když je v přehradě Serjong kousek od zapadlé korejské vesnice nalezena mrtvá mladá dívka, policie okamžitě zahájí vyšetřování. Současně s tím se tři

muži ocitají uprostřed důmyslné hry na kočku a myš. Dívčin otec Jongdže a dva zaměstnanci ostrahy z vodohospodářské správy mají ohledně oné noci každý co skrývat. Všichni se snaží vypátrat, co se dívce stalo, aniž by prozradili svá pečlivě strážena tajemství. Otevřená konfrontace na přehradě vyústí v obrovskou tragédii, jeden z mužů je obviněn z vraždy a poslán do vězení. Sedm let žije Sowon, syn odsouzeného, ve stínu otcova šokujícího, nevysvětlitelného zločinu. Kamkoli přijde a cokoli udělá, všude ho vnímají stejně: je synem masového vraha. Jakmile Sowon obdrží balíček slibující vysvětlení toho, co se tenkrát u přehradě Serjong stalo, musí čelit nebezpečí, o němž dosud neměl ani ponětí. --- Sedm let temnoty je úžasně působivý román — popis nočního potápění zatopenou vesnicí je opravdu mistrovský. A s ústředními tématy domácího násilí, alkoholismu a nesplněných snů autorka nakládá citlivě a zároveň nekompromisně. — The Guardian Mistrovsky promyšlený román Sedm let temnoty představuje dva skvělé příběhy zručně propletené dohromady — thriller v thrilleru. Čong Judžong tohoto postupu využívá k úvahám o dlouhodobých dopadech traumatu a pomíjivosti pravdy. — Shelf Awareness Ztracené a mrtvé dívky jsou jednou ze stálic kriminálních příběhů, ovšem vyobrazení Serjong, mladého děvčete neodpustitelně zrazeného právě těmi, kdo se měli starat o její bezpečí, ji z této masy vyčleňuje. [...] Působivý a mnohovrstevnatý psychologický thriller. — Kirkus Reviews

"See Ya Later Shit Lords!" - Edward Blackwell 2017-03-28

This is a collection of the blogs that were written every day whilst undertaking the Mongol Rally, with my school friend Mikey, in the summer of 2016. These blogs are a frank and truthful account of what it is like to spend five weeks on the road in a tiny red car, travelling over 10,000 miles, across a third of the world's surface, through 20 countries. The Mongol Rally is one of the toughest adventures in the world and this book gets you to the highs and lows as if you were in the passenger seat. The rally wasn't just about travelling the world. The pair managed to raise over £2000 for three charities: Cool Earth, The Back Up Trust and The Max Levene Trust. This Was helped by many sponsors, who took pride of place on the exterior of the little red car. Fletcher's Solicitors were the main contributors, more sponsors are given in the book.
