Jsl Vol 17-N4 - JOURNAL OF SCHOOL LEADERSHIP 2008-04-15

The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a wide variety of theoretical perspectives and methodological orientations. The editorial team is particularly interested in working with international authors, authors from traditionally marginalized populations, and in work that is relevant to practitioners around the world. Growing numbers of educators and professors look to the six bimonthly issues to: deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement.

Gravel Roads - Ken Skorseth 2000

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Quantity Surveying N4 Student's Book - Sparrow Consulting (Firm) 2021-02-21

The Public Administration Theory Primer - H. George Frederickson
2015-07-07

The Public Administration Theory Primer explores how the science and art of public administration is definable, describable, replicable, and cumulative. The authors survey a broad range of theories and analytical approaches—from public institutional theory to theories of governance—and consider which are the most promising, influential, and important for the field. This book paints a full picture of how these theories contribute to, and explain, what we know about public administration today. The third edition is fully revised and updated to reflect the latest developments and research in the field including more coverage of governments and governance, feminist theory, emotional labor theory, and grounded research methodology. Expanded chapter conclusions, additional real-world application examples throughout, and a brand-new online supplement with sample comprehensive exam questions and summary tables make this an even more valuable resource for all public administration students.

IJER Vol 1-N4 - International Journal of Educational Reform 1992-10-01

Research Anthology on Citizen Engagement and Activism for Social Change - Management Association, Information Resources 2021-11-26

Activism and the role everyday people play in making a change in society are increasingly popular topics in the world right now, especially as younger generations begin to speak out. From traditional protests to activities on college campuses, to the use of social media, more individuals are finding accessible platforms with which to share their views and become more actively involved in politics and social welfare. With the emergence of new technologies and a spotlight on important social issues, people are able to become more involved in society than ever before as they fight for what they believe. It is essential to consider the recent trends, technologies, and movements in order to understand where society is headed in the future. The Research Anthology on Citizen Engagement and Activism for Social Change examines a plethora of innovative research surrounding social change and the various ways citizens are involved in shaping society. Covering topics such as accountability, social media, voter turnout, and leadership, it is an ideal work for activists, sociologists, social workers, politicians, public administrators, sociologists, journalists, policymakers, social media analysts, government administrators, academicians, researchers, practitioners, and students.
