PRACTICAL MONEY ADVICE FOR YOUNG MEN 2.0 - Malik McCotter-Jordan 2021-12-25

This isn't much of a sales pitch at this point. I'm just going to keep it real with you. I wrote a lot of books in my day. I barely put much effort into some of the books I wrote and published, but this one is different. I actually tried this one. I don't care what anyone says. This book is better than most of the mainstream personal finance books out there. I put so much valuable advice that will help you save money and increase your net worth and income that you would look like a hater if you gave this book below a 4 out of 5 star review. That's how confident I am with the content in this book. I literally show you how to LEGALLY pay less in taxes, how to realistically get ahead in the United States, what kind of investments you should make, how to improve your credit score, and how to use debt to increase your income/net worth. I'm saving you money and making you thousands of dollars at the same time in this book, and all you have to do is put in the work. This is not a get-rich-quick scheme. No, I'm not suggesting that you fire your boss i.e. quit your job. In fact, I advise you to keep your job in this book. I have a job, besides writing and selling books, by the way. That's called having more than one stream of income and I talk about that in this book. I swear to God you will learn something that can change the course of your life and all you would have to do is work at it. It's not easy, but this stuff is simple. More

importantly, some of this material are things you're going to have to do later on in life anyway, so why not just do it now? This is definitely not a BS Tony Robbins personal finance book with over 680 pages about compound interest, him shamelessly promoting financial firms that he has an ownership stake in, and saving 10% to 20% of your income. This is a raw and real book written by a guy who is only a few steps ahead of you. That's it. I'm not a guru. This is not a scam. I put my heart and soul into making this. I wrote this book as if it was for the 18 year old me. Anyone who leaves a review saying that this book lacks realistic actionable advice is a straight up hater. There's no way in hell you're going to say this book that has over 20 chapters did not teach you anything that can result in you changing your life financially. I even provide screenshots to back up my legitimacy as an expert on finance. I even did what most of these personal finance authors don't have the guts to do. I talk about my personal life and the mistakes I made that cost me thousands of dollars. That's why this genre is called personal finance, right? I get real personal. Some might say it's too personal. Anyway, if you're a man that is tired of being broke, living paycheck to paycheck, not owning any assets, being clueless about taxes, and not being able to get ahead in the United States then this is the book for you. I started off as a poor black boy in a small town in Alabama. I currently have a 6-figure net worth. If I can do it, you can too. Buy this book today.

There is one essential piece of clothing that everyone has in their closet no matter who they are. Whether a multimillionaire, a psychiatrist or a mechanic. If, however, the 500 T-shirt sales goal is not reached, then the T-shirts are

not printed or made thereby not costing the printing company or the user any money. The profit to be made from the sales and creation of the T-shirts comes from the percentage above cost, meaning that the user decides how much to charge for a T-shirt (the cost of creation will be calculated by the website) and anything after the cost of making the T-shirt is the profit for the user. Rules for Rebels - Max Abrahms 2018-09-13

Ever wonder why militant groups behave as they do? For instance, why did Al Qaeda attack the World Trade Center whereas the African National Congress tried to avoid civilian bloodshed? Why does Islamic

State brag over social media about its gory attacks, while Hezbollah denies responsibility or even apologizes for its carnage? This book shows that militant group behaviour depends on the tactical intelligence of the leaders. The author has extensively studied the political plights of hundreds of militant groups throughout world history and reveals that successful militant leaders have followed three rules. These rules are based on original insights from the fields of political science, psychology, criminology, economics, management, marketing, communication, and sociology. It turns out thereâs a science to victory in militant history. But even rebels must follow rules.

How I earned \$7339 and so can you. - Isaac Medina 2019-11-16

In one day I earned \$880 dollars. While watching Netflix I earned \$45 dollars. Doing four hours of work, thirty days later I earned \$1,239 dollars. All I am saying is - you can too. Want to make money? Stop trying to reinvent the wheel. It has already been proven that you can make money online and there are several large online companies that want you to partner with them to make money. They want to help you make money online because they make money when you make money. Take for instance the multi-billion dollar company Amazon. They offer you several different ways to partner with them. Why do they do that? The answer is simple, they want you to make money and if you make money - they make money. I have partnered with several online companies and each company has done most of the work for me, I just make money. Yes, it sounds far fetched but that is what I do. I create products and I let Amazon, Google, and other companies online sell my products. They do most of the work, Amazon doesn't even charge me a fee to store, promote and sell my products. I am not saying it is easy. What I am saying is that according to reports I have read, more than 7 million people are working (their own business) online and are making a full

time living doing so. The question is, do you want to do the same?

From Homeless to Entrepreneur - Robert Rodgers PhD 2014-06-02

Are you concerned about the troubling dilemma of homelessness throughout the world including the United States? Do you want to help homeless people but do not know where to start? Are you frustrated because the help you have to offer is not enough to make a dent in the problem? As more and more people become homeless there will be fewer and fewer shelters and food kitchens which offer free assistance to the homeless. No pleading or prodding of elected officials will change citizen resistance to offer more subsidies and a greater availability of food for homeless people. The only assistance in the long run that will make a difference must come from the homeless themselves. The most helpful gift anyone can offer to the homeless is to help shift their attitude from helplessness to hopefulness. I believe this is possible by shifting attitudes from "poor me" to "look at me." This is Not an easy shift to make given the dire Circumstances many homeless confront. It is possible for anyone who is homeless today to shift their current habit of begging to a fresh approach as they ascend to becoming a successful entrepreneur. This book offers business strategies that can be launched today by the homeless which require no upfront money, no office, no business loans, no business plan and no profit and loss statements. Any one of these new

businesses offer the promise of tripling the current income stream of homeless who currently rely on begging to keep themselves and their families alive. Obviously, people who are homeless cannot purchase this book. You can. Instead of giving a beggar a handout, why not give them a copy of my book? Better yet, why not request that your library acquire it so that the homeless who hang out in your public library can read it. Some people who are homeless are so sick that they do not have the energy to become an entrepreneur. Some do. Help them. They will in turn help others. This book is not about promoting soup kitchens or arguing for more shelters. This book is not about creating a public policy that promises to solve the problem of homelessness. From Homeless to Entrepreneur is all about empowering people who currently find themselves with no money and no home to create a new life for themselves that offers promise of a better life. The book contains the following sections: Begging as a Business Standard Practices in the Begging Business Why People Refuse to Give to Beggars Begging Yields Poor Returns Why Not Become an Entrepreneur? Don't Entrepreneurs Need Money and Resources to Start Their Business? What is Stopping You from Becoming an Entrepreneur Today? Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms.[1][2][3] For households and individuals, "income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period

of time." [4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and is usually the basis to calculate how much income tax is owed.

1. EARNED (ACTIVE) INCOME Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively working. You work and you are paid for your work. Examples: Salary; wages; bonuses; contract work. Tax implications: Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators. Characteristics: It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way—it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business (this is what I did by starting a blog, which is now my full time business).

2. PORTFOLIO INCOME Definition: Portfolio income is money you receive from selling an investment for more than what you paid for it (portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications: Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really

understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post - 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small amount and contribute to your investments over time, but it requires you to have the capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited.

3. **PASSIVE INCOME** Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart

Passive Income podcast used to be on repeat!). It's one of the best things I ever did! A FINAL NOTE! Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So, ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to master your mindset post here). Based on what you choose to believe, you could end up financial independent and retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).
