### **Memorizing Pharmacology Mnemonics: Pharmacology Flashcards and Fill-ins for the Future Nurse, Doctor, Physician Assistant, and Pharmacist** - Tony Guerra 2018-05-25

Have pharmacology test anxiety or a feeling of overwhelm? This fast and easy pharmacology review through pharmacology flash card mnemonics and fill-ins recognizes that many future nurses, doctors, physician assistants, and pharmacists (chemists) have families, jobs, and other responsibilities. Do you have time enough time to make 100% sure you

will pass in the classroom or on the board exam? For most students taking the NCLEX, NAPLEX, USMLE Step-1, PANCE, GPHC, or KAPS exam, the answer is no. I wrote this mnemonic guide as an audiobook first to help you remember pharmacology drug names and principles quickly. While in the classroom you professors might say memorization doesn't matter, but you can't bring outside material to the board exam, so for this test, you do need to work on memory training. You already know the consequences of failing a class or board exam, so let's make sure that doesn't happen by getting pharmacology organized in your head once and for all.

### **Clinical Pharmacology Made Ridiculously Simple** - James M. Olson 1992

**Heckman's Nursing Pharmacology Simplified** - David Heckman 2018-09-26 Pharmacology is a notoriously difficult subject, particularly in nursing school where students must speed through the entire subject in just one semester. Despite the lack of time spent on the subject, the importance of pharmacology cannot be overstated. As we all know, medication errors can kill. What makes pharmacology such a difficult subject? The sheer volume of information and lack of readily apparent connections. Shortly after initial exposure to pharmacology, students enter survival mode

which means they do their best to ascertain what will be on the exam and then focus all of their time and energy on memorizing that information. This is a mediocre short-term strategy and a horrible long-term strategy. Heckman's Nursing Pharmacology Simplified is here to help. Rather than overwhelm you with seemingly random lists of facts and acronyms, we carefully select key information and present it in a way that is logical and easy to digest. We emphasize core themes and focus on helping you make lasting connections. To ensure brevity and clarity, we tackle pharmacology one drug class at a time and limit the information to one page per drug class. The result is an extraordinarily high-impact pharmacology review. Written by a pharmacist to help nurses. It's nursing pharmacology SIMPLIFIED.
