[Adult Health Nursing - E-Book](#) - Barbara Lauritsen Christensen 2014-04-11

Part of the popular LPN Threads series, this comprehensive text includes all of the vital medical-surgical and anatomy and physiology content you need to know. From an introduction to A&P to discussions of disorders by body system and beyond, Adult Health Nursing, 6th Edition, is an indispensable reference. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. Chapters begin with an overview of anatomy and physiology, providing a clear, basic understanding of A&P that LPN/LVNs need to know. The consistent, logical framework of the nursing process connects specific disorders to patient care. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. Skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

Lewis's Medical-Surgical Nursing E-Book - Mariann M. Harding 2022-07-02

Gain the knowledge and skills you need to succeed in medical-surgical nursing with this leading textbook! Lewis's Medical-Surgical Nursing, 12th Edition uses a conversational writing style, a focus on nursing concepts and clinical trends, evidence-based content, and basic pathophysiology review to provide the solid foundation needed in a rapidly changing healthcare environment. Comprehensive chapters cover topics including nursing management and collaboration, health promotion, acute interventions, and ambulatory care. Summary tables and boxes make it easy to find essential information, and a building-block approach makes even the most complex concepts simple to grasp. In addition to three new chapters, this edition includes a stronger focus on the nursing process, clinical judgment, and preparation for the Next-Generation NCLEX® Examination. Content written and reviewed by leading experts in the field ensures that information is comprehensive, current, and clinically accurate. Interprofessional care is addressed in special Interprofessional Care sections and Interprofessional Care tables. Bridge to the NCLEX® Examination review questions reinforce key content and include both standard and alternate item format questions to help you prepare for the NCLEX exam. Coverage of cultural and ethnic health disparities highlights important issues such as risk factors, economic aspects, and access to health care. Coverage of gerontology and chronic illness is addressed in a separate chapter and highlighted in special gerontologic tables. Pathophysiology maps use flowcharts to outline complex concepts related to diseases, making them easier to understand. Focused Assessment boxes provide brief checklists for a practical "assessment on the run" or bedside approach to assessment, and can be used to evaluate the status of previously identified health problems and monitor for signs of new problems. Safety Alert boxes highlight patient safety issues and focus on the National Patient Safety Goals. Nutritional Therapy tables summarize nutritional interventions and strategies for promoting healthy lifestyles. Promoting Population Health boxes summarize health care goals as they relate to specific disorders such as cancer and diabetes, and identify strategies for health promotion. Drug Therapy tables and Drug Alerts highlight important safety considerations for key drugs. Check Your Practice boxes challenge you to think critically, analyze patient assessment data, and implement appropriate interventions. Coverage of genetics includes a separate chapter on genetics, Genetics in Clinical Practice boxes covering disorders and genetic testing, risk alerts, and links to disorders. Focus on patient and caregiver teaching shows how you can help patients and caregivers learn to manage chronic illnesses and conditions. Ethical / Legal Dilemmas boxes introduce key topics such as informed consent, advance directives, and confidentiality.

Medical-Surgical Nursing - E-Book - Holly Stromberg 2016-02-26

Providing a solid foundation in medical-surgical nursing, Susan deWit's Medical-Surgical Nursing: Concepts and Practice, 3rd Edition ensures you have the information you need to pass the NCLEX-PN® Examination and succeed in practice. Part of the popular LPN/LVN Threads series, this uniquely understandable, concise text builds on the fundamentals of nursing, covering roles, settings, and health care trends; all body systems and their disorders; emergency and disaster management; and mental health nursing. With updated content, chapter objectives, and review questions, this new edition relates national LPN/LVN standards to practice with its integration of QSEN competencies, hypertension, diabetes, and hypoglycemia. Concept Maps in the disorders chapters help you visualize difficult material, and illustrate

how a disorder's multiple symptoms, treatments, and side effects relate to each other. Get Ready for the NCLEX® Examination! section includes Key Points that summarize chapter objectives, additional resources for further study, review questions for the NCLEX® Examination, and critical thinking questions. Nursing Care Plans with critical thinking questions provide a clinical scenario and demonstrate application of the nursing process with updated NANDA-I nursing diagnoses to individual patient problems. Anatomy and physiology content in each body system overview chapter provides basic information for understanding the body system and its disorders, and appears along with Focused Assessment boxes highlighting the key tasks of data collection for each body system. Assignment Considerations, discussed in Chapter 1 and highlighted in feature boxes, address situations in which the RN delegates tasks to the LPN/LVN, or the LPN/LVN assigns tasks to nurse assistants, per the individual state nurse practice act. Gerontologic nursing presented throughout in the context of specific disorders with Elder Care Points boxes that address the unique medical-surgical care issues that affect older adults. Safety Alert boxes call out specific dangers to patients and teach you to identify and implement safe clinical care. Evidence-based Practice icons highlight current references to research in nursing and medical practice. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care — and prepare you to educate patients on their health condition and recovery. Health Promotion boxes address wellness and disease prevention strategies that you can provide in patient teaching.

Pharmacology and the Nursing Process - Linda Lane Lilley 2011
