Shinichi Suzuki: The Man and His Philosophy (Revised) - Evelyn Hermann 1999-11-27

Shinichi Suzuki has been described as a humanitarian as well as an educator and musician. While a young man, he observed that children absorbed their spoken language based on their environment. This led him to adapt his teaching of music to the same method, that which is called the Mother Tongue Approach. Through listening to the sound of music, very young children soon imitate the tones they hear. Suzuki believes that talent is not inherited, but is a product of environment, and that every child can perform music just as he has learned to speak, if the proper teaching approach is used. Revised in 1995, *The Man and His Philosophy* contains many new photos, some of them depicting the many "firsts" in the Suzuki world, such as Dr. Suzuki with his first students, plus much more. This is a complete history of the Suzuki movement, in words and pictures, from its beginnings to the present day.

Tonalization - Dr. Shinichi Suzuki 1985

Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.
