The FBI War on Tupac Shakur - John Potash 2021-10-12

Since the first day after the tragedy was announced, controversy has surrounded the death of rap and cultural icon Tupac Shakur. In this work, preeminent researcher on the topic, John Potash, puts forward his own theories of the events leading up to and following the murder in this meticulously researched and exhaustive account of the story. Never before has there been such a detailed and shocking analysis of the untimely death of one of the greatest musicians of the modern era. The **FBI War on Tupac Shakur** contains a wealth of names, dates, and events detailing the use of unscrupulous tactics by the Federal Bureau of Investigation against a generation of leftist political leaders and musicians. Based on twelve years of research and including extensive footnotes, sources include over 100 interviews, FOIA-released CIA and FBI documents, court transcripts, and mainstream media outlets. Beginning with the birth of the Civil Rights Movement in America, Potash illustrates the ways in which the FBI and the United States government conspired to take down and dismantle the various burgeoning activist and revolutionary groups forming at the time. From Martin Luther King Jr. to Malcolm X to Fred Hampton, the methods used to thwart their progress can be seen repeated again and again in the 80s and 90s against later revolutionary groups, musicians, and, most notably, Tupac Shakur. Buckle up for this winding, shocking, and unbelievable tale as John Potash reveals the dark underbelly of our government and their treatment of some of our most beloved Black icons.

Dark Alliance: Movie Tie-In Edition - Gary Webb 2014-09-30

Major Motion Picture based on **Dark Alliance** and starring Jeremy Renner, "Kill the Messenger," to be released in Fall 2014 In August 1996, Pulitzer Prize-winning journalist Gary Webb stunned the world with a series of articles in the San Jose Mercury News reporting the results of his year-long investigation into the roots of the crack cocaine epidemic in America, specifically in Los Angeles. The series, titled "Dark Alliance," revealed that for the better part of a decade, a Bay Area drug ring sold tons of cocaine to Los Angeles street gangs and funneled millions in drug profits to the CIA-backed Nicaraguan Contras. Gary Webb pushed his investigation even further in his book, **Dark Alliance: The CIA, The Contras, and the Crack Cocaine Explosion**. Drawing from then newly declassified documents, undercover DEA audio and videotapes that had never been publicly released, federal court testimony, and interviews, Webb demonstrates how our government knowingly allowed massive amounts of drugs and money to change hands at the expense of our communities. Webb's own stranger-than-fiction experience is also woven into the book. His excoriation by the media—not because of any wrongdoing on his part, but by an insidious process of innuendo and suggestion that in effect blamed Webb for the implications of the story—had been all but predicted. Webb was warned off doing a CIA expose by a former Associated Press journalist who lost his job when, years before, he had stumbled onto the germ of the "Dark Alliance" story. And though Internal investigations by both the CIA and the Justice Department eventually vindicated Webb, he had by then been pushed out of the Mercury News and gone to work for the California State Legislature Task Force on Government Oversight. He died in 2004.

Ghost Wars - Steve Coll 2005-03-03

The news-breaking book that has sent schokwaves through the White House, **Ghost Wars** is the most accurate and revealing account yet of the CIA's secret involvement in al-Qaeada's evolution. Prize-winning journalist Steve Coll has spent years reporting from the Middle East, accessed previously classified government files and interviewed senior US officials and foreign spymasters. Here he gives the full inside story of the CIA's covert funding of an Islamic jihad against Soviet forces in Afghanistan, explores how this sowed the seeds of bn Laden's rise, traces how he built his global network and brings to life the dramatic battles within the US government over national security. Above all, he lays bare American intelligence's continual failure to grasp the rising threat of terrorism in the years leading to 9/11 - and its devastating consequences.

The Unexpected Spy - Tracy Walder 2020-02-25

A highly entertaining account of a young woman who went straight from her college sorority to the CIA, where she hunted terrorists and WMDs "Reads like the show bible for Homeland only her story is real." —Alison Stewart, WNYC "A thrilling tale...Walder's fast-paced and intense narrative opens a window into life in two of America's major intelligence agencies" —Publishers Weekly (starred review) When Tracy Walder enrolled at the University of Southern California, she never thought that one day she would offer her pink beanbag chair in the Delta Gamma house to a CIA recruiter, or that she'd fly to the Middle East under an alias identity. **The Unexpected Spy** is the riveting story of Walder's tenure in the CIA and, later, the FBI. In high-security, steel-walled rooms in Virginia, Walder watched al-Qaeda members with drones as President Bush looked over her shoulder and CIA Director George Tenet brought her donuts. She tracked chemical terrorists and searched the world for Weapons of Mass Destruction. She created a chemical terror chart that someone in the White House altered to convey information she did not have or believe, leading to the Iraq invasion. Driven to stop terrorism, Walder debriefed terrorists—men who swore they'd never speak to a woman—until they gave her leads. She followed trails through North Africa, Europe, and the Middle East, shutting down multiple chemical attacks. Then Walder moved to the FBI, where she worked in counterintelligence. In a single year, she helped take down one of the most notorious foreign spies ever caught on American soil. Catching the bad guys wasn't a problem in the FBI, but rampant sexism was. Walder left the FBI to teach young women, encouraging them to find a place in the FBI, CIA, State Department or the Senate—and thus change the world.

Poisoner in Chief - Stephen Kinzer 2019-09-10

The bestselling author of **All the Shah's Men** and **The Brothers** tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at

the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.

The Quiet Americans - Scott Anderson 2020-09-01

From the bestselling author of *Lawrence in Arabia*—the gripping story of four CIA agents during the early days of the Cold War—and how the United States, at the very pinnacle of its power, managed to permanently damage its moral standing in the world. “Enthralling ... captivating reading.” —The New York Times Book Review At the end of World War II, the United States was considered the victor over tyranny and a champion of freedom. But it was clear—to some—that the Soviet Union was already seeking to expand and foment revolution around the world, and the American government’s strategy in response relied on the secret efforts of a newly formed CIA. Chronicling the fascinating lives of four agents, Scott Anderson follows the exploits of four spies: Michael Burke, who organized parachute commandos from an Italian villa; Frank Wisner, an ingenious spymaster who directed actions around the world; Peter Sichel, a German Jew who outwitted the ruthless KGB in Berlin; and Edward Lansdale, a mastermind of psychological warfare in the Far East. But despite their lofty ambitions, time and again their efforts went awry, thwarted by a combination of ham-fisted politicking and ideological rigidity at the highest levels of the government.

The Big White Lie - Michael Levine 2012-10-01

In *The Big White Lie*, Michael Levine, former DEA agent and bestselling author of *Deep Cover*, leads the reader through a decade of undercover work. Levine’s prose is fast-moving, highly readable, and hard-hitting. He tells how the beautiful South American “Queen of Cocaine” seduced the CIA into protecting her from prosecution as she sold drugs to Americans; how CIA-sponsored paramilitary ousted, tortured, and killed members of a pro-DEA Bolivian ruling party; and how the CIA created La Corporacion, the “General Motors of cocaine,” which led directly to the current cocaine/crack epidemic. As a 25-year veteran agent for the DEA, Michael Levine worked deep-cover cases from Bangkok to Buenos Aires, and witnessed firsthand scandalous violations of drug laws by U.S. officials.

In Deep: The FBI, the CIA, and the Truth about America's "Deep State" - David Rohde 2020-04-21

Revised and updated “One of today’s most respected journalists, David Rohde takes on one of the country’s most toxic conspiracy theories,” presenting a “scrupulously reported and even-handed” account of how power and intelligence are exploited in Washington that “goes deep indeed inside America’s security state, telling a story that will surprise readers of all political persuasions” (Jane Mayer, author of *Dark Money*). Donald Trump blamed his 2020 defeat on Democrats and the “deep state”—a supposed secret cabal of Washington insiders that relentlessly encroaches on the individual rights of Americans—for stealing the election and undermining his presidency. Most Americans who supported him agreed. Americans on the left increasingly fear the “military-industrial complex,” a faction of generals and defense contractors who they believe routinely push the country into endless wars. But does the American “deep state” really exist? This question is fundamental to preserving the legitimacy of American democracy, as frustration with and distrust for the government continue to grow. In *Deep* seeks to dispel these pernicious myths through an examination of the FBI, CIA, and Justice Department scandals of the past fifty years from the Church Committee’s exposure of Cold War abuses to the claims and counterclaims of the Trump era and the relentless spread of conspiracy theories online and on air. It exposes the misconduct of Attorney General William Barr; how distrust of the “deep state” undermined the US government response to the COVID-19 pandemic; and the growing discord sowed by the explosion of false information online. It investigates Trump’s quest to discredit government experts, the legislative and judicial branches, and the results of the 2020 election and assume

authoritarian power for himself. “The idea of the deep state, Rohde writes, is inextricably linked to a particular view of presidential power” (Dina Temple-Raston, *Washington Post*). Based on dozens of interviews with career CIA operatives and FBI agents, “*In Deep* is a wholly satisfying read and a necessary one for anyone wanting to understand the forces at play in our government today” (Andrea Bernstein, Peabody Award-winning cohost of the *Trump, Inc.* podcast and author of *American Oligarchs*).

Stuff They Don't Want You to Know - Ben Bowlin 2022-10-11

“Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence.”—Booklist “A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world.”—Kirkus Reviews The co-hosts of the hit podcast *Stuff They Don’t Want You to Know*, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there’s a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, *Stuff They Don’t Want You To Know*. They are experts at exploring, explaining, and interrogating today’s emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, *Stuff They Don’t Want You to Know* is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

The Politics of Heroin in Southeast Asia - Alfred W. McCoy 1973

The Manchurian Candidate - Richard Condon 2013-11-25

The classic thriller about a hostile foreign power infiltrating American politics: “Brilliant . . . wild and exhilarating.” —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors’ signal. Now he’s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (*San Francisco Chronicle*). “Crammed with suspense.” —Chicago Tribune “Condon is wickedly skillful.” —Time *Inside the CIA's Secret War in Jamaica* - Casey Gane-McCalla 2016-01-26 *Inside The CIA's Secret War In Jamaica* tells the story of the campaign from the United States to destabilize the Michael Manley government in 1976 due to his ties to Fidel Castro. The book covers the rise of violence between the PNP (People's National Party) and the JLP (Jamaica Labor Party), the assassination attempt of Bob Marley, and the rise of the Jamaica Shower Posse and its ties to the CIA. Gane-McCalla also takes an in-depth look into the events leading up to 1976 for both the CIA and the country of Jamaica including Jamaica's history of pirates and slave rebellions, and its road to independence. To understand the nature and history of the CIA, the book gets to the bottom of the John F. Kennedy assassination, Watergate, CIA heroin smuggling in Laos during the Vietnam War, and cocaine trafficking during Iran-Contra, which involved the same players who were involved in destabilizing Jamaica.

Black Ops - Ric Prado 2022-03-01

The Explosive National Bestseller A memoir by the highest-ranking covert warrior to lift the veil of secrecy and offer a glimpse into the shadow wars that America has fought since the Vietnam Era. Enrique Prado found himself in his first firefight at age seven. The son of a middle-class Cuban family caught in the midst of the Castro Revolution, his family fled their war-torn home for the hope of a better life in America. Fifty years later, the Cuban refugee retired from the Central Intelligence Agency as the CIA equivalent of a two-star general. *Black Ops* is the story of Ric's legendary career that spanned two eras, the Cold War and the Age of Terrorism. Operating in the shadows, Ric and his fellow CIA officers fought a little-seen and virtually unknown war to keep USA safe from those who would do it harm. After duty stations in Central, South America, and the Philippines, *Black Ops* follows Ric into the highest echelons of the CIA's headquarters at Langley, Virginia. In late 1995, he became Deputy Chief of Station and co-founding member of the Bin Laden Task Force. Three years later, after serving as head of Korean Operations, Ric took on one of the most dangerous missions of his career: to re-establish a once-abandoned CIA station inside a hostile nation long since considered a front line of the fight against Islamic terrorism. He and his team carried out covert operations and developed assets that proved pivotal in the coming War on Terror. A harrowing memoir of life in the shadowy world of assassins, terrorists, spies and revolutionaries, *Black Ops* is a testament to the courage, creativity and dedication of the Agency's Special Activities Group and its elite shadow warriors.

Acid Dreams - Martin A. Lee 1992

Provides a social history of how the CIA used the psychedelic drug LSD as a tool of espionage during the early 1950s and tested it on U.S. citizens before it spread into popular culture, in particular the counterculture as represented by Timothy Leary, Allen Ginsberg, Ken Kesey, and others who helped spawn political and social upheaval.

Crossing the Rubicon - Michael C. Ruppert 2004-09-15

The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. *Crossing the Rubicon* examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkably draconian measures of repression, warfare and population control. *Crossing the Rubicon* is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

In the Shadows of the American Century - Alfred W. McCoy 2017-09-12

The award-winning historian delivers a "brilliant and deeply informed" analysis of American power from the Spanish-American War to the Trump Administration (New York Journal of Books). In this sweeping and incisive history of US foreign relations, historian Alfred McCoy explores America's rise as a world power from the 1890s through the Cold War, and its bid to extend its hegemony deep into the twenty-first century. Since American dominance reached its apex at the close of the Cold War, the nation has met new challenges that it is increasingly unequipped to handle. From the disastrous invasion of Iraq to the failure of the Trans-Pacific Partnership, fracturing military alliances, and the blundering nationalism of Donald Trump, McCoy traces US decline in the face of rising powers such as China. He also offers a critique of America's attempt to maintain its position through cyberwar, covert intervention,

client elites, psychological torture, and worldwide surveillance.

Defrauding America - Rodney Stich 1998-01-01

A moving book by a man of integrity deeply affected by the injustice, criminality, & suffering he has seen & personally experienced over the past two decades." DICK GREGORY: "*DEFRAUDING AMERICA* should be on top of every bible."

The lords of a dying planet send Piyat, a terrified "volunteer," on a voyage across the universe. The reluctant alien crashes in the fear-washed landscape of Cold War America. Captured by the Army and stolen by the CIA, she falls into the hands of a guilt-ridden ex-operative, a psychiatrist with a lust for pharmacology, and an Agency golden boy gone wrong. Weaponizing Anthropology - David H. Price 2011-08-16

The ongoing battle for hearts and minds in Iraq and Afghanistan is a military strategy inspired originally by efforts at domestic social control and counterinsurgency in the United States. *Weaponizing Anthropology* documents how anthropological knowledge and ethnographic methods are harnessed by military and intelligence agencies in post-9/11 America to placate hostile foreign populations. David H. Price outlines the ethical implications of appropriating this traditional academic discourse for use by embedded, militarized research teams. Price's inquiry into past relationships between anthropologists and the CIA, FBI, and Pentagon provides the historical base for this expose of the current abuses of anthropology by military and intelligence agencies. *Weaponizing Anthropology* explores the ways that recent shifts in funding sources for university students threaten academic freedom, as new secretive CIA-linked fellowship programs rapidly infiltrate American university campuses. Price examines the specific uses of anthropological knowledge in military doctrine that have appeared in a new generation of counterinsurgency manuals and paramilitary social science units like the Human Terrain Teams. David H. Price is the author of *Threatening Anthropology: McCarthyism and the FBI's Surveillance of Activist Anthropologists* and *Anthropological Intelligence: The Deployment and Neglect of American Anthropology in the Second World War*. He is a member of the Network of Concerned Anthropologists and teaches at St. Martin's College in Lacey, Washington.

The CIA as Organized Crime - Douglas Valentine 2016-11-28

This book provides insight into the paradigmatic approaches evolved by CIA decades ago in Vietnam which remain operational practices today in Afghanistan, El Salvador, Iraq, Syria, Yemen and elsewhere. Valentine's research into CIA activities began when CIA Director William Colby gave him free access to interview CIA officials who had been involved in various aspects of the Phoenix program in South Vietnam. The CIA would rescind it, making every effort to impede publication of *The Phoenix*

Program, which documented the CIA's elaborate system of population surveillance, control, entrapment, imprisonment, torture and assassination in Vietnam. While researching Phoenix, Valentine learned that the CIA allowed opium and heroin to flow from its secret bases in Laos, to generals and politicians on its payroll in South Vietnam. His investigations into this illegal activity focused on the CIA's relationship with the federal drugs agencies mandated by Congress to stop illegal drugs from entering the United States. Based on interviews with senior officials, Valentine wrote two subsequent books, *The Strength of the Wolf* and *The Strength of the Pack*, showing how the CIA infiltrated federal drug law enforcement agencies and commandeered their executive management, intelligence and foreign operations staffs in order to ensure that the flow of drugs continues unimpeded to traffickers and foreign officials in its employ. Ultimately, portions of his research materials would be archived at the National Security Archive, Texas Tech University's Vietnam Center, and John Jay College. This book includes excerpts from the above titles along with updated articles and transcripts of interviews on a range of current topics, with a view to shedding light on the systemic dimensions of the CIA's ongoing illegal and extra-legal activities. These terrorism and drug law enforcement articles and interviews illustrate how the CIA's activities impact social and political movements abroad and in the United States. A common theme is the CIA's ability to deceive and propagandize the American public through its impenetrable government-sanctioned shield of official secrecy and plausible deniability. Though investigated by the Church Committee in 1975, CIA praxis then continues to inform CIA praxis now. Valentine tracks its steady infiltration into practices targeting the last population to be subjected to the exigencies of the American empire: the American people.

Drugs As Weapons Against Us - John L. Potash 2015-05-01

Drugs as Weapons Against Us meticulously details how a group of opium-trafficking families came to form an American oligarchy and eventually achieved global dominance. This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency. CIA operations such as MK-Ultra pushed LSD and other drugs on leftist leaders and left-leaning populations at home and abroad. Evidence supports that this oligarchy further led the United States into its longest-running wars in the ideal areas for opium crops, while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a "war on drugs" that is actually the use of drugs as a war on us. Drugs as Weapons Against Us tells how scores of undercover U.S. Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers, Young Lords, Latin Kings, and the Occupy Movement. It also tells how they particularly targeted leftist musicians, including John Lennon, Jimi Hendrix, Kurt Cobain, and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism. The book further uncovers the evidence that Intelligence agents dosed Paul Robeson with LSD, gave Mick Jagger his first hit of acid, hooked Janis Joplin on amphetamines, as well as manipulating Elvis Presley, Eminem, the Wu Tang Clan, and others.

Life Undercover - Amaryllis Fox 2019-10-15

INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism

center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover—the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. *Life Undercover* is exhilarating, intimate, fiercely intelligent—an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.

The Secret Team - L. Fletcher Prouty 2011-04-01

With a new foreword by Jesse Ventura: A government insider's shocking exposé of crimes committed by America's intelligence agencies during the Cold War. L. Fletcher Prouty—decorated Air Force officer, former chief of special operations for the Joint Chiefs of Staff under President John F. Kennedy, and the inspiration for "Mr. X" in Oliver Stone's Academy Award-winning film JFK—first published *The Secret Team* in the 1970s. But virtually all copies of the book disappeared upon distribution, purchased en masse by shady private buyers. Certainly Prouty's amazing allegations—that the U-2 Crisis of 1960 was fixed to sabotage Eisenhower-Khrushchev talks, and that President Kennedy was assassinated to keep the United States, and its defense budget, in Vietnam—cannot have pleased the CIA. Though suppressed (until now), *The Secret Team* was an important influence for countless works on US government conspiracies, and it raises the same crucial question today that it did on its first appearance: who, in fact, is in control of the United States and the world?

War at Home - Brian Glick 1989

This is a must handbook for private study and group discussion by all progressive and radical activists. Today's defense depends on our knowledge of yesterday's repression. The message: the political police haven't forgotten us—we can't afford to forget them and their methods.-- Philip Agee, former CIA agent

Whiteout - Alexander Cockburn 2015-01-01

The explosive truth behind the CIA and its dirtiest secrets. On March 16, 1998, the CIA's Inspector General, Fred Hitz, finally let the cat out of the bag in an aside at a Congressional Hearing. Hitz told the US Reps that the CIA had maintained relationships with companies and individuals the Agency knew to be involved in the drug business. Even more astonishingly, Hitz revealed that back in 1982 the CIA had requested and received from Reagan's Justice Department clearance not to report any knowledge it might have of drug-dealing by CIA assets. With these two admissions, Hitz definitively sank decades of CIA denials, many of them under oath to Congress. Hitz's admissions also made fools of some of the most prominent names in US journalism, and vindicated investigators and critics of the Agency, ranging from Al McCoy to Senator John Kerry. The involvement of the CIA with drug traffickers is a story that has slouched into the limelight every decade or so since the creation of the Agency. Most recently, in 1996, the San Jose Mercury News published a sensational series on the topic, "Dark Alliance", and then helped destroy its own reporter, Gary Webb. In *Whiteout*, Alexander Cockburn and

Jeffrey St. Clair finally put the whole story together from the earliest days, when the CIA's institutional ancestors, the OSS and the Office of Naval Intelligence, cut a deal with America's premier gangster and drug trafficker, Lucky Luciano.

The Bluegrass Conspiracy - Sally Denton 2001

The story of Thornton and “The Company” he served, and the lone heroic fight of State Policeman Ralph Ross against an international web of corruption is one of the most portentous tales of the 20th century.

Powderburns - Celerino Castillo 1994

The truth about the remaining dark secret of the Iran-Contra scandal- the United States government's collaboration with drug smugglers.

Powderburns is the story of Celerino Castillo III who spent 12 years in the Drug Enforcement Administration. During that time, he built cases against organized drug rings in Manhattan, raided jungle cocaine labs in the Amazon, conducted aerial eradication operations in Guatemala, and assembled and trained anti-narcotics units in several countries. The eerie climax of Agent Castillo's career with the DEA took place in El Salvador. One day, he received a cable from a fellow agent. He was told to investigate possible drug smuggling by Nicaraguan Contras operating from the Ilpango air force base. Castillo quickly discovered that Contra pilots were, indeed, smuggling narcotics back into the United States - using the same pilots, planes, and hangars that the Central Intelligence Agency and the National Security Council, under the Direction of Lt. Col. Oliver North, used to maintain their covert supply operation to the Contras.

Cocaine Politics - Peter Dale Scott 1998-04-10

"Tells the sordid story of how elements of our own government went to work with narcotics traffickers, and then fought to suppress the truth about what they had done."—Jonathan Winer, Counsel, Kerry Subcommittee on Terrorism and Narcotics
