**Approaches to Teaching the Works of Edwidge Danticat** - Celucien L. Joseph  
2019-09-20

Providing an intellectual interpretation to the work of Edwidge Danticat, this new edited collection provides a pedagogical approach to

teach and interpret her body of work in undergraduate and graduate classrooms. Approaches to Teaching the Works of Edwidge Danticat starts out by exploring diasporic categories and postcolonial themes such as gender constructs, cultural nationalism, cultural and communal identity, and moves to investigate Danticat's human rights activism, the immigrant experience, the relationship between the particular and the universal, and the violence of hegemony and imperialism in relationship with society, family, and community. The Editors of the collection have carefully compiled works that show how Danticat's writings may help in building more compassionate and relational human communities that are grounded on the imperative of human dignity, respect, inclusion, and peace.

*Christosis* - Blackwell 2016

Amid increasing interaction between Eastern and Western theologians, several recent biblical interpreters have characterized Paul's

soteriology as theosis, or deification, harking back to patristic interpretations of Paul. In this book Ben C. Blackwell critically evaluates that interpretation as he explores the anthropological dimension of Paul's soteriology. Blackwell first examines two major Greek patristic interpreters of Paul -- Irenaeus and Cyril of Alexandria -- to clarify what deification entails and to determine which Pauline texts they used to support their soteriological constructions. The book then focuses on Paul's soteriology expressed in Romans 8 and 2 Corinthians 3-5 (with excursions on other passages) and explores how believers embody Christ's death and life, his suffering and glory, through the Spirit. Blackwell concludes by comparing the patristic view of deification with Paul's soteriology arising from the biblical texts, noting both substantial overlap and key differences.

[Reading Mark in Context](#) - Zondervan,  
2018-08-21

Over the last several decades, the Jewishness of

Jesus has been at the forefront of scholarship and students of the New Testament are more than ever aware of the importance of understanding Jesus and the Gospels in their Jewish context. Reading Mark in Context helps students see the contour and texture of Jesus' engagement with his Jewish environment. It brings together a series of accessible essays that compare and contrast viewpoints, theologies, and hermeneutical practices of Mark and his various Jewish contemporaries. Going beyond an introduction that merely surveys historical events and theological themes, this textbook examines individual passages in Second Temple Jewish literature in order to illuminate the context of Mark's theology and the nuances of his thinking. Following the narrative progression of Mark's Gospel, each chapter in this textbook (1) pairs a major unit of the Gospel with one or more sections of a thematically-related Jewish text, (2) introduces and explores the historical and theological nuances of the comparative text,

and (3) shows how the ideas in the comparative text illuminate those expressed in Mark.

**Writing Research Papers** - James D. Lester  
2014-01-26

The definitive research paper guide, Writing Research Papers combines a traditional and practical approach to the research process with the latest information on electronic research and presentation. This market-leading text provides students with step-by-step guidance through the research writing process, from selecting and narrowing a topic to formatting the finished document. Writing Research Papers backs up its instruction with the most complete array of samples of any writing guide of this nature. The text continues its extremely thorough and accurate coverage of citation styles for a wide variety of disciplines. The fourteenth edition maintains Lester's successful approach while bringing new writing and documentation updates to assist the student researcher in keeping pace with electronic sources.

*Quality Research Papers* - Nancy Jean Vyhmeister 2020-05-19

This will be the fourth edition of a time-tested resource for students writing papers in the fields of religion and theology. It provides essential guidance for writing assignments typical in graduate programs in religion and has served as a standard textbook for seminary research courses. The fourth edition is updated to include information on Turabian 9th edition, SBL Handbook 2nd edition, new resource lists, and additional help with online resources and formatting issues. Most importantly, this new edition is revised from the perspective of information abundance rather than information scarcity. Today's research mindset has shifted from "find anything" and "be satisfied with anything" to "choose intentionally" reliable and credible sources. *Quality Research Papers* will guide students through an overabundance of online and library resources and help them craft excellent essays.

**Writing and Research** - Kevin Gary Smith 2016-09-30

Written in a simple yet engaging style, Dr Kevin Smith applies his years of experience and expertise in scholarly writing and research in this one-volume guide. Perfect as an introduction for new and continuing undergraduate or postgraduate students, this publication provides helpful guidelines and illustrations on all the elements that go into producing an academic work.

**Writing Research Papers** - James D. Lester 2003-06

The definitive research paper guide, Lester combines a traditional and practical approach to the research process with the latest information on researching and writing online. Comprehensive, but not overwhelming, Lester provides students with step-by-step guidance through the research writing process from selecting and narrowing a topic, to formatting the finished document. And it backs up the

instruction with the most complete array of samples of any research writing guide on the market. Another of the text's ongoing strengths is its extremely thorough and accurate coverage of citation styles for a wide variety of disciplines. This edition maintains Lester's successful approach while detailing the uses of new computer technologies that are changing the face of research. In addition, an all-new Interactive Edition CD-ROM offers the entire text in an electronic format for easy reference while writing and researching on a computer. Numerous multimedia features include: interactive research activities, weblinks, and resources. The CD is FREE when bundled with the text. Available at an unbelievably low price in two formats perfect and spiral-bound with tabs Lester's text is one that students will keep throughout their college careers.

**Journal of Biblical and Theological Studies** -  
Daniel S. Diffey 2016-10-12

The Journal of Biblical and Theological Studies (JBTS) is an academic journal focused on the fields of Bible and Theology from an inter-denominational point of view. The journal is comprised of an editorial board of scholars that represent several academic institutions

throughout the world. JBTS is concerned with presenting high-level original scholarship in an approachable way. Academic journals are often written by scholars for other scholars. They are technical in nature, assuming a robust knowledge of the field. There are fewer journals that seek to introduce biblical and theological scholarship that is also accessible to students. JBTS seeks to provide high-level scholarship and research to both scholars and students, which results in original scholarship that is readable and accessible. As an inter-denominational journal JBTS is broadly evangelical. We accept contributions in all theological disciplines from any evangelical perspective. In particular, we encourage articles and book reviews within the fields of Old Testament, New Testament, Biblical Theology, Church History, Systematic Theology, Practical Theology, Philosophical Theology, Philosophy, and Ethics.

*The Professor Is In* - Karen Kelsky 2015-08-04  
The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job

Downloaded from [titlecapitalization.com](http://titlecapitalization.com)  
on by guest

Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches,

she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: - When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more. *Nonfiction Book Proposals Anybody Can Write* - Elizabeth Lyon 2002-12-03 Sign the contract...then write the book. **Pediatric Disorders of Regulation in Affect and Behavior** - Georgia A. DeGangi 2017-01-12  
Pediatric Disorders of Regulation in Affect and Behavior, second edition is a skills-based book for mental health professionals working with children experiencing disorders of self-

regulation. These children are highly sensitive to stimulation from the environment, emotionally reactive, and have difficulty maintaining an organized and calm state of being. Children with these struggles often have difficulty adapting to changing demands at home and school. The child may additionally struggle with bipolar or mood disorder, anxiety, depression, obsessive-compulsive disorder, Asperger's syndrome, eating or sleep disorders, and/or attention-deficit disorder. This book will help professionals integrate treatment strategies that address the individual's regulatory, sensory integration, and mental health problems. The book is organized with each chapter discussing a different form of dysregulation in eating, sleep, mood regulation, anxiety, attention, and behavioral control. Chapters begin with developmental and neurobiological underpinnings of the problem, include clinical observations, and close with diagnosis and treatment strategies. Recommended treatments

integrate aspects of dialectical behavioral therapy, mind-body therapies and sensory integration techniques, and interpersonal therapy. Checklists for diagnosis and treatment planning are included at the conclusion of each chapter with an appendix of 20 skill sheets for use in treatment. Practical skill-based treatment book for mental health and occupational therapists Addresses eating, sleep, mood, attention, and behavioral control Presents integrated treatment using sensory integration, DBT, interpersonal therapy, and more Includes checklists and skill sheets for use in treatment

**Writing Theology Well 2nd Edition** - Lucretia B. Yaghjian 2015-09-24

A working guide for students conducting theological writing and research on theology and biblical studies courses, this book integrates the disciplines of writing, rhetoric, and theology, to provide a standard text for the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it also

encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

*From Dissertation to Book, Second Edition* - William Germano 2014-02-27

When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something!" I would say if it could hear me. "Now tell it to us in language we can understand!" Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors

get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years

of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add “author” to their curriculum vitae.

*Reading Romans in Context* - Zondervan, 2015-07-28

Readers of Paul today are more than ever aware of the importance of interpreting Paul's letters in their Jewish context. In *Reading Romans in Context* a team of Pauline scholars go beyond a general introduction that surveys historical events and theological themes and explore Paul's letter to the Romans in light of Second Temple Jewish literature. In this non-technical collection of short essays, beginning and intermediate students are given a chance to see firsthand what makes Paul a distinctive thinker in relation to his Jewish contemporaries.

Following the narrative progression of Romans, each chapter pairs a major unit of the letter with one or more thematically related Jewish text, introduces and explores the theological nuances of the comparative text, and shows how these ideas illuminate our understanding of the book of Romans.

**Predestination: A Guide for the Perplexed** - Jesse Couenhoven 2018-08-23

The concept of predestination has been an essential topic in theology and philosophy since at least the time of St. Augustine, and is notoriously among the most contentious of religious doctrines. Many people of faith have found the belief that God destines them for eternal joy a source of great comfort, but many others have found it deeply troubling. Above all, those who reject predestination have been motivated by concerns about the doctrine's implications for human free will and divine responsibility for evil. Couenhoven addresses these issues by taking up two important

questions: "What does predestination actually imply?†", and "How have great theologians defended their doctrines of predestination?†? He answers these queries by analyzing why Augustine, Anselm, Aquinas, Luther, Calvin, and Barth found the doctrine attractive, and explaining the different ways in which they combined belief in predestination, freedom, and God's goodness. The book concludes with a constructive chapter in which Couenhoven defends predestination as a doctrine of hope.

*The Religion and Theology Student Writer's Manual and Reader's Guide* - Joel Hopko  
2017-11-02

The Religion Student Writer's Manual and Reader's Guide, is a set of instructions and exercises that sequentially develop citizenship, academic, and professional skills while providing students with knowledge about a wide range of religious concepts, phenomena, and information sources. Part 1 begins by teaching students about reading and writing in introductory

religion. It focuses on the crafts of writing and scholarship by providing the basics of grammar, style, formats and source citation, and then introduces students to a variety of rich information resources including the religious journals and the Library of Congress. Part 2 prepares students to research, read, write, review, and critique religious scholarship. Finally, Part 3 provides for the practice of religious scholarship in advanced courses such as the history of religion and contemporary approaches to the study of religion.

Debated Issues in Sovereign Predestination -  
Joel R. Beeke 2017-03-13

Joel R. Beeke's work is an academic monograph of historical theology that examines three flashpoints of controversy in Reformation and

Post-Reformation theology. As the subtitle, *Early Lutheran Predestination, Calvinian Reprobation, and Variations in Genevan Lapsarianism* implies, the work addresses, first, the development of the Lutheran doctrine of predestination from Martin Luther (1483-1546) and Philip Melanchthon (1497-1560) to the Formula of Concord (1577); second, the development of John Calvin's (1509-1564) doctrine of reprobation as traced through his writings; and third, the doctrine of predestination in Geneva with a particular emphasis on lapsarianism from Theodore Beza (1519-1605) in the sixteenth century to Jean-Alphonse Turretin (1671-1737) and Jacob Vernet (1698-1789) in the eighteenth century. The fruit of three decades of study by a professor of systematic theology who specializes in Reformation and Post-Reformation theology, this book offers a harvest of insights into questions that stood at the center of Reformation debates. Dr. Donald Sinnema, a leading scholar in predestinarian theology and the Synod of Dort,

writes: "Beeke addresses these difficult matters with sensitivity to historical context and development, with systematic acuity, and a broad grasp of secondary scholarly literature with which he dialogues. The result is a balanced analysis of these issues that should bring greater clarity to scholarly understanding of the doctrine of predestination in the early modern era."

*Readings in Writing Courses* - Richard C. Raymond 2010-12-01

As the title suggests, this six-chapter book responds to a question which, in Western culture, goes back to Plato, Aristotle, Cicero, and Quintilian, namely, What should rhetoric teachers ask their students to read? Primarily historical, the first two chapters trace conflicting answers to the question above, focusing on two constructive results of the debate: the re-invention of rhetoric and writing as a discipline, a coherent and growing body of knowledge; and, as a result, the emergence of independent

departments of writing, free from departments of English, free, therefore, to develop their own curriculum and to manage their own budgets. Additionally, the second chapter examines two destructive consequences of this debate: the ban of literature from writing courses, where students might profitably study both; and, as a result, the often painful departmental splits, which not only separate former colleagues but also cramp the pedagogy of those trained to teach both writing and literature. More than a survey of key publications, this chapter encourages readers to honor the discipline of rhetoric but to make a place for literature on their composition syllabi. The next four chapters provide pedagogical support for these chief claims: that literature can and should be taught in writing courses, and that such readings need not distract students from the primary text, their own writing. On the contrary, these readings motivate serious writing when students feel invited into a conversation on issues that touch

their lives. These pedagogical chapters, then, move entering professionals from the theoretical debate to the application of theory; therefore, the book would serve well professors of courses in composition theory, particularly those who enjoy 'teaching the conflicts' and preparing their graduate students to design assignments and courses that apply theories of learning, reading, and composing.

**Advancing Research Methods with New Technologies** - Natalie Sappleton 2013

"This book examines the applicability and usefulness of new technologies, as well as the pitfalls of these methods in academic research practices, serving as a practical guide for designing and conducting research projects"-- Provided by publisher.

**Paul Between Damascus and Antioch** - Martin Hengel 1997-01-01

This important new book covers the time between Paul's conversion in Damascus and his arrival in Antioch, set against a detailed

background of the early Christian world, the church in Damascus to which Paul was introduced on his conversion, the methods of the first Christian mission, the situation in Arabia during Paul's first mission, the mission territory in Tarsus and Cilicia to which he then moved, and the nature of the church in Antioch. Martin Hengel once more challenges the overly skeptical assessments of the New Testament record and provides powerful support for his position on Paul.

Paul and the Apocalyptic Imagination - Ben C. Blackwell 2016-06-03

Since the mid-twentieth century, apocalyptic thought has been championed as a central category for understanding the New Testament writings and the letters of Paul above all. But “apocalyptic” has meant different things to different scholars. Even the assertion of an “apocalyptic Paul” has been contested: does it mean the invasive power of God that breaks with the present age (Ernst Käsemann), or the

broader scope of revealed heavenly mysteries, including the working out of a “many-staged plan of salvation” (N. T. Wright), or something else altogether? *Paul and the Apocalyptic Imagination* brings together eminent Pauline scholars from diverse perspectives, along with experts of Second Temple Judaism, Hellenistic philosophy, patristics, and modern theology, to explore the contours of the current debate. Contributors discuss the history of what apocalypticism, and an “apocalyptic Paul,” have meant at different times and for different interpreters; examine different aspects of Paul’s thought and practice to test the usefulness of the category; and show how different implicit understandings of apocalypticism shape different contemporary presentations of Paul’s significance.

*Planning Your Research and How to Write It* - Aziz Nather 2015-10-21

This book is a practical guide for residents and young researchers who are planning to embark

on research. It details the significant planning one must first do including choosing a suitable experienced clinician as a supervisor, sourcing for a 'winning idea' with significant clinical impact, performing a proper review of literature, defining clearly the objectives to be set and adopting the appropriate methodology. Statistical evaluation must be done from the start of the research to define adequate sample size and also for evaluation of the results. It also advises how one should draw upon relevant and appropriate conclusions from the results obtained. The ethics of research is also discussed. An all-important factor in research is the procurement of research grants. Readers are guided how to write a proper research proposal to secure these much needed grants. Many research papers end up as presentations only in local or international conferences. An important additional objective of this book is to guide young researchers how to write their finished product -- as a publication in an important

international, refereed journal or as a thesis. Chapters have been specially written with tips for scientific writing, selecting the right journal, writing for an original article for a journal, a review article, a case report as well as for a thesis. Tips are also written on what reviewers of a journal look for in an article as well as what examiners look for in a thesis.

The Silk Roads - Peter Frankopan 2016-02-16  
Far more than a history of the Silk Roads, this book is truly a revelatory new history of the world, promising to destabilize notions of where we come from and where we are headed next. From the Middle East and its political instability to China and its economic rise, the vast region stretching eastward from the Balkans across the steppe and South Asia has been thrust into the global spotlight in recent years. Frankopan teaches us that to understand what is at stake for the cities and nations built on these intricate trade routes, we must first understand their astounding pasts. Frankopan realigns our

understanding of the world, pointing us eastward. It was on the Silk Roads that East and West first encountered each other through trade and conquest, leading to the spread of ideas, cultures and religions. From the rise and fall of empires to the spread of Buddhism and the advent of Christianity and Islam, right up to the great wars of the twentieth century—this book shows how the fate of the West has always been inextricably linked to the East. Also available: *The New Silk Roads*, a timely exploration of the dramatic and profound changes our world is undergoing right now—as seen from the perspective of the rising powers of the East. *Research methods in palliative care* - Julia M Addington-Hall 2007-06-07

Palliative and end of life care are concerned with the physical, social, psychological and spiritual care of people with advanced disease. It currently has a poorly developed research base, but the need to improve this is increasingly recognised. One of the reasons for the lack of

research - and the variable quality of the research that is undertaken - is the difficulty of conducting research with very ill and bereaved people. Standard and well-established research methods may need to be adapted to work in this context. This means that existing research methods textbooks may be of limited use to palliative care practitioners seeking to do research for the first time, or to more experienced researchers wanting to apply their knowledge in palliative care settings. This research methods textbook is the first to be written specifically for palliative care. It has been edited by four experienced palliative care academics with acknowledged expertise and international reputations in this field. It encompasses methods used in both clinical and health services research in palliative care, with sections on clinical, epidemiological, survey and qualitative research, as well as a section covering skills needed in any research project. Each chapter provides readers with an up to

date overview of the research method in question, an understanding of its applicability to palliative care and of the particular challenges of using it in this setting. It is essential reading for all palliative care researchers.

**Quality Research Papers** - Nancy Jean Vyhmeister 2014-02-11

This updated third edition of *Quality Research Papers*—fast becoming a standard reference textbook for writing research papers in the fields of religion and theology—gives improvements and added material for such things as the expanding field of online research and doing church-related research in a professional manner. Because so many new developments have taken place in the field of research, especially in terms of electronic research, this handy reference explores the ways to do research on the internet, including how to document such research. *Quality Research Papers* offers great opportunities to students today, especially in distant learning situations, to

determine which resources can be used and which should be rejected. For this reason Nancy Vyhmeister brought in Terry Robertson, Seminary Librarian at Andrews University and professor of the seminary master's level research courses. His expertise in library, computers, and the Internet are invaluable to the book. In addition to substantial, current information on electronic resources and online research, this third edition preserves all of the features of the original editions, now presented in a newly revised, more logical order.

**Social Science Research** - Anol Bhattacharjee 2012-04-01

This book is designed to introduce doctoral and graduate students to the process of conducting scientific research in the social sciences, business, education, public health, and related disciplines. It is a one-stop, comprehensive, and compact source for foundational concepts in behavioral research, and can serve as a stand-alone text or as a supplement to research

readings in any doctoral seminar or research methods class. This book is currently used as a research text at universities on six continents and will shortly be available in nine different languages.

**Reading Revelation in Context** - Zondervan,  
2019-09-10

Reading Revelation in Context brings together short, accessible essays that compare and contrast the visions and apocalyptic imagery of the book of Revelation with various texts from Second Temple Jewish literature. Going beyond an introduction that merely surveys historical

events and theological themes, Reading Revelation in Context examines individual passages in Second Temple Jewish literature in order to illuminate the context of Revelation's theology and the meaning and potency of John's visions. Following the narrative progression of Revelation, each chapter (1) pairs a major unit of the Apocalypse with one or more sections of a thematically related Jewish text, (2) introduces and explores the historical and theological nuances of the comparator text, and (3) shows how the ideas in the comparator text illuminate those expressed in Revelation. In addition to the focused comparison provided in the essays, the book contains other student-friendly features that will help them engage broader discussions, including an introductory chapter that familiarizes students with the world and texts of Second Temple Judaism, a glossary of important terms, and a brief appendix suggesting what tools students might use to undertake their own comparative studies. At the end of each chapter

there a list of other thematically relevant Second Temple Jewish texts recommended for additional study and a focused bibliography pointing students to critical editions and higher-level discussions in scholarly literature. Reading *Revelation in Context* brings together an international team of over 20 New Testament experts including Jamie Davies, David A. deSilva, Michael J. Gorman, Dana M. Harris, Ronald Herms, Edith M. Humphrey, Jonathan A. Moo, Elizabeth E. Shively, Cynthia Long Westfall, Archie T. Wright, and more.

**Engaging Theology** - Ben C. Blackwell

2019-10-29

Theology today is faced with increasing amounts of religious and theological pluralism. What is distinctive about Christian theology? Why do these ideas matter? And the biggest question of all: Who cares? Key aspects of orthodox theology are seen as speculative and irrelevant to "authentic" Christianity and to personal spirituality. While not succumbing to the

pragmatism of the age, this book shows that key elements of Christian theology ground an integrated worldview and are essential for spiritual formation. *Engaging Theology* is an introductory theology textbook that grounds a treatment of standard systematic topics in the wider context of life and practice and shows the relevance of each doctrine to the church. The book treats the essential doctrines of Christian orthodoxy by following the pattern of story, doctrinal exposition, theological relevance, and spiritual relevance: Story: Each chapter begins with a brief and engaging account of the historical situation out of which the doctrine arose or where it played an essential role in the development of the church, showing students that orthodox theology matters and introducing them to most of the key theologians in the history of the church. Doctrinal Exposition: The heart of the chapter is exposition of key elements of the doctrine, highlighting core and debated elements while clarifying heterodox

perspectives. Integrated with the narrative account this section also models the contextualized nature of theology. Each chapter includes biblical, historical, and contemporary views on the issue and notes key figures in the debates and their influence. Theological Relevance: While theological relevance is clear throughout each chapter, this section highlights relevance to the modern setting and concerns, including interaction with heterodox and non-Christian faiths. It identifies current theological problems besetting the church and shows how a proper understanding and integration of orthodox theology addresses these problems. It also points to other problems the church is facing for interesting discussion starters. Spiritual Relevance: Since orthodox theology has a direct influence on one's own spiritual formation and practice, each chapter concludes

with practical encouragements and discussions about how each doctrine can be integrated in one's personal and corporate life. Engaging Theology is ideal for students and everyday people living in a post Christian era to help them seriously engage with the Christian faith.

From Topic to Thesis - Michael Kibbe  
2015-12-31

Every theology student has to write a research paper, but many do not know how to go about doing theological research. In this brief guide, Michael Kibbe introduces students to the basics of academic research, including how to gather and engage different sources, use online databases and bibliography software, and avoid common mistakes.
