Betty Lee, Senior - Harriet Pyne Grove 1931

Betty Lee, Senior Betty Lee, who was sometimes jokingly called father's little goldfish, had acquired that title by reason of her ability to swim and her golden head, though that was usually covered tightly by a rubber cap. As her taking part in most of the swimming contests among the girls of Lyon High necessitated good bathing suits, Betty was already prepared in that respect for her visit at the seashore. Secrets were all very well. Betty had interest in everything. But her greatest interest was in the new experience ahead of her, the new country and the delights of

the ocean. Her father warned her of new conditions, but she would quickly learn. Though there were no river current, there would be the undertow. Betty promised to use her common sense and swim within the boundaries allowed at the resort to which she was bound. With the highest anticipations, then, Betty accompanied the Gwynnes and Kathryn Allen on the fascinating trip East and to New England. Dick Lee was at a boys camp. His twin, Doris, would soon be at a corresponding girls' camp, for it "had to be fair," at the risk, said Mr. Lee, of depleting the treasury. Mother and Amy Lou would remain in the city with Father, but would take an outing with him later, when a business trip would take him East again. Then Betty, returning from the visit with Carolyn, would meet other girl friends at a "wonderful" Girl Reserve camp. Truly the summer could offer no more! Betty's former chum at the little town of Buxton, Janet Light, with whom Betty still corresponded fitfully, as her

full life permitted, wrote Betty that she was a "lucky girl," and Betty thought so too.

Dodge Challenger & Charger -

Randy Bolig 2016-02-15

The new Dodge Charger, Challenger, and other LX-platform cars bring modern V-8 performance to unparalleled heights, and the new Challenger and Charger Hellcats are the most powerful American production cars today. The outrageous performance and audacious styling has earned a large and dedicated following. However, you can tune and modify the Chrysler 300, Dodge Magnum, Charger, and Challenger for more performance, and for many owners, fast is not fast enough. In the pursuit of a higher-performing LX-platform car, former Mopar Muscle editor Randy Bolig has created this book to show you how to extract ultimate performance from these cars. Chrysler has built more than one million Chargers, Challengers, and other full-size-platform cars starting with the Dodge Magnum and Chrysler 300. These cars offer competent handling, braking, and

suspension performance, but they can be made much better through a set of targeted upgrades using better aftermarket equipment. Bolig gives you a comprehensive guide to the cars and engines. He details the features, benefits, and drawbacks of each package or set of upgrades, so you select the best modification for your car, application, and budget. He also covers basic to extreme modifications for the R/T and SRT8 models with the 5.7-, 6.1-, and 6.4-liter Hemi engines. Guidance for installing heads, rotating assemblies, ignition upgrades, higher-performance injectors, and many other parts are provided. But, this book doesn't just discuss performance; it shows you how to do it with comprehensive, step-by-step product installs for a cat-back exhaust system, hand-held ignition tuner, cold-air intake, and supercharger. If you have been searching for the best performance package to make your Charger, Challenger, or full-size Chrysler car stand out from the

crowd, you need this book. It has the latest information, so you can learn how to install all the products and get your car back out on the road.
