**Faith** - Mike Olawale 2020-12-15

It is very significant for believers to know and believe this simple Biblical truth - Nothing works in the Kingdom of God without faith. The life of a believer revolves around faith, for without it, nothing gets accomplished. Faith is the "Principal Key" that unlocks the unlimited supernatural ability of God, enabling Him to change the life of an ordinary individual into a victorious life of testimonies. It is the substance that God uses to turn an individual into an unbeatable believer when it comes to handling the conflict of life. The force of faith is equivalent to the life-sustaining heartbeat of all human beings. Whenever the heart fails, the life of the individual ceases, likewise, whenever believers fail to exercise their faith, their lives become "lifeless and colorless". The Bible says in Hebrews 11:32-34, that through faith (their faith) they subdued kingdoms, wrought righteousness, obtained promises...; therefore, wisdom demands that each individual accepts the responsibility to develop his or her own faith. So, it is my earnest desire that as you engage with this book, you will intentionally commit to a lifestyle of stirring up your faith to act upon God's word. As you do it this, you commit Him to perform it. As He performs it, your faith in Him increases, day by day, stature by stature, victory by victory... till you tangibly begin to subdue kingdoms like the men and women did in Hebrews 11:32-34. This is the very purpose for which Christ died, to build a kingdom of kings and priests enforcing the life and power of God's Kingdom in every sphere of human life and activity.

Written by an international team of leading scholars, its fifty-one chapters are divided thematically into seven sections. The first section addresses five major conceptual aspects of research on religion. Part two surveys eleven main frameworks of analysis, interpretation, and explanation of religion. Reflecting recent turns in the humanities and social sciences, part three considers eight forms of the expression of religion. Part four provides a discussion of the ways societies and religions, or religious organizations, are shaped by different forms of allocation of resources. Other chapters in this section consider law, the media, nature, medicine, politics, science, sports, and tourism. Part five reviews important developments, distinctions, and arguments for each of the selected topics. The study of religion addresses religion as a historical phenomenon and part six looks at seven historical processes. Religion is studied in various ways

by many disciplines, and this Handbook shows that the study of religion is an academic discipline in its own right. The disciplinary profile of this volume is reflected in part seven, which considers the history of the discipline and its relevance.
