But as we all know, the wrong No can also destroy what we most value by alienating and angering people. That's why saying No the right way is crucial. The

This indispensable book gives you a simple three-step method for saying a Positive No. It will show you how to assert and defend your key interests; how to make your No firm and strong; how to resist the other side's aggression and manipulation; and how to do all this while still getting to Yes. In the end, the Positive No will help you get not just to any Yes but to the right Yes, the one that truly serves your interests. Based on William Ury's celebrated Harvard University course for managers and professionals, *The Power of a Positive No* offers concrete advice and practical examples for saying No in virtually any situation. Whether you need to say No to your customer or your coworker, your employee or your CEO, your child or your spouse, you will find in this book the secret to saying No clearly, respectfully, and effectively. Lawyers on Trial - Richard L. Abel 2011

People need lawyers for many things, including tax and immigration advice, drafting contracts, preparing wills, buying and selling houses, forming and dissolving companies, and representation and advice during divorce, probate, personal injury and criminal charges. But many people do not trust lawyers. With good reason, they fear that lawyers will neglect or overcharge them, betray them out of self-interest or on behalf of others, or obstruct the pursuit of justice out of overzealousness. Although the legal profession drafts ethical rules, law schools teach those rules, the bar exam tests lawyers' knowledge, and disciplinary bodies enforce them, we know that violations by lawyers are all too common. *Lawyers on Trial: Understanding Ethical Misconduct by California Attorneys*, by Richard L. Abel, presents six dramatic accounts of California lawyers who betrayed their clients and the legal system. Through the detailed records of the disciplinary proceedings, it examines some of the most common complaints about lawyers: chasing ambulances, charging excessive fees, violating conflict of interest rules, and displaying excessive zeal. These complex and compelling dramas serve to make the ethical rules, and the temptations they seek to curb, come vividly alive for law students, lawyers, those thinking of becoming lawyers, anyone who has been or might some day be a client, and the general public. The lessons to be drawn from these situations can help the legal profession and the public devise better strategies for ensuring that lawyers abide by the rules.

Maestria - Robert Greene 2013-10-07

"Magnífico e ambicioso." — The New York Times Além de serem considerados mestres no que faziam, o que Mozart, Leonardo da Vinci e Thomas Edison têm em comum? Como foi que alcançaram a excelência? Que escolhas fizeram com que se destacassem tanto de seus contemporâneos? Após realizar um grande estudo sobre várias personalidades fascinantes e bem-sucedidas - entre políticos, estrategistas, artistas, cientistas e inventores -, Robert Greene percebeu que todas essas pessoas, independentemente de sua área, da cultura ou do momento histórico a que pertenciam, seguiram um padrão similar em suas conquistas. E concluiu que o caminho para a maestria pode ser percorrido por qualquer um de nós. Neste livro, Greene examina pesquisas recentes sobre cognição e criatividade, e derruba os mitos da sorte e da genialidade inata, propondo uma maneira radical de examinar a inteligência humana. Ele explica o que é necessário para uma pessoa comum se tornar um mestre: a capacidade de se dedicar totalmente a um tema de seu interesse, a insistência em um aprendizado contínuo e focado, a liberdade criativa adquirida com o domínio da habilidade e a coragem de ser diferente e enfrentar desafios. Se outras obras descreveram o que acontece com o cérebro depois de 10 mil horas de estudo e prática, *Maestria* revela o que sucede depois de 20 mil horas - o ápice atingido por Einstein, Darwin e nove mestres contemporâneos entrevistados para este livro. O potencial para alcançar a maestria é intrínseco à espécie humana e resulta de milhões de anos de evolução. Aprenda quais são as três fases decisivas para a sua preparação,

identifique sua verdadeira vocação, libere a paixão dentro de você e torne-se também um mestre.

Big Results - Robert Greene 2016-06-15

A lot of times, when people think about success, they immediately start to think about their goals. They look at their life and start to measure their accomplishments. I then ask these people, of their goals, how many they would say they accomplish in a year or month. In most cases, they have set goals but they have no idea of the steps or work it takes to accomplish them. I tell you, although we set goals, the outcome we desire is a specific set of results. Let's look at the big picture: the reason why we set goals is because we would like an immediate result, so instead of focusing on the goal, let's focus on the result we want. To me, when I hear the word "goal" I mainly think of wishful thinking. I have no idea how to make this goal a reality, and I know plenty of people who work hard and don't get the result they wanted. Is it possible that, in the process of working toward that goal, they lost sight of the result intended? Or is it possible that they didn't plan the necessary steps to reach the goal/result?

The 50th Law - 50 Cent 2010-07-09

'My favourite book' Tinchy Stryder BA Business Life Book of the Month The ultimate hustle is to move freely between the street and corporate worlds, to find your flow and never stay locked in the same position. This is a manifesto for how to operate in the twenty-first century, where everything has been turned on its head. Building on the runaway success of Robert Greene's *The 48 Laws of Power* (almost five million copies sold), the 'modern Machiavelli' teams up with rapper 50 Cent to show how the power game of success can be played to your advantage. Drawing on the lore of gangsters, hustlers, and hip-hop artists, as well as 50 Cent's business and artistic dealings, the authors present the 'Laws of 50', revealing how to become a master strategist and supreme realist. Success comes from seeking an advantage in each and every encounter, and *The 50th Law* offers indispensable advice on how to win in business - and in life.

The 48 Laws Of Power - Robert Greene 2010-09-03

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it. **This High School Has Closets** - Robert Joseph Greene 2012-01-01 *This High School Has Closets* is a story of two young teenagers falling in love during the time when Marc Hall presented his case before the

Supreme Court Of Canada and won the right to take his male partner to his prom. Sometimes coming out during high school just isn't an option.

For Mark Thomas, finding out that he was gay, falling in love, and dealing with becoming an adult, made it even tougher. This book is designated for readers ages 16 and higher.
