Who Wrote the Bible? - Richard Friedman 2019-01-15

A much anticipated reissue of Who Wrote the Bible?—the contemporary classic the New York Times Book Review called “a thought-provoking [and] perceptive guide” that identifies the individual writers of the Pentateuch and explains what they can teach us about the origins of the Bible. For thousands of years, the prophet Moses was regarded as the sole author of the first five books of the Bible, known as the Pentateuch. According to tradition, Moses was divinely directed to write down foundational events in the history of the world: the creation of humans, the worldwide flood, the laws as they were handed down at Mt. Sinai, and the cycle of Israel’s enslavement and liberation from Egypt. However, these stories—and their frequent discrepancies—provoke questions: why does the first chapter in Genesis say that man and woman were made in God’s image, while the second says that woman was made from man’s rib? Why does one account of the flood say it lasted forty days, while another records no less than one hundred? And why do some stories reflect the history of southern Judah, while others seem sourced from northern Israel?

Originally published in 1987, Richard Friedman’s Who Wrote the Bible? joins a host of modern scholars who show that the Pentateuch was written by at least four distinct voices—separated by borders, political alliances, and particular moments in history—then connected by brilliant editors. Rather than cast doubt onto the legitimacy of the Bible, Friedman uses these divergent accounts to illuminate a text that was written by real people. Friedman’s seminal and bestselling text is a comprehensive and authoritative answer to the question: just who exactly wrote the Bible?

Thrive - Meridith Elliott Powell, MBA, CSP 2021-06-22

Thrive is the roadmap of how to grow your business and drive sales in highly shifting, constantly changing economic times. It is the story of those leaders and organizations that have seen consistent growth through

several economic crises-companies that were founded in the late 1700’s to early 1900’s and they are still in business thriving today. In this book we share their stories, their struggles, and tell you exactly how they have not only overcome adversity, but thrived through it. Praise for the Book: “We live in a time when uncertainty is the order of the day. THRIVE is a must-read for all who strive to grow intellectually and to succeed through the opportunities an uncertain world offers.” —Ken Langone, Founder, Home Depot, American Billionaire and Philanthropist “Talk about the right book for the right time! What I liked most about THRIVE are the case studies of real companies and real people who weathered the storms and emerged more successful than before. THRIVE is both practical and inspirational. I’ve ordered copies for my entire team.” —Bill Cates, CSP, CPAE, Founder, The Cates Academy for Relationship Marketing, Author of Radical Relevance “In THRIVE, Meridith weaves in 250 years of business history to show how resilient businesses and people find opportunities in every situation. This is a must-read to gain ideas and perspective in a sea of change.” —Mary C. Kelly, PhD, CEO, Productive Leaders, Author of The Five Minute Leadership Guide “You do not merely read this book; you read, you think, you develop next steps. Meridith does a masterful job of detailing companies doing it right and then goes further by adding her insights to create a playbook of what you need to do. Perfect book for the time we’re in right now!” —Mark Hunter, CSP, “The Sales Hunter”, Author of A Mind For Sales “The only certainty in business is there will be times of great uncertainty. It’s how you react when your world—or the world—doesn’t go as planned that determines your future. Meridith studies how companies have thrived in their uncertain times to become global market leaders and shares the proven success strategies that you can implement in your business to do the same. If there was ever a time where our world needed this book, it’s now. Read it. Study it. And thrive!” —Sam Richter, CSP, CPAE, Hall of Fame Speaker, Bestselling Author, and Technology Entrepreneur

You Are One of Them - Elliott Holt 2014-04-29

"A hugely absorbing first novel from a writer with a fluid, vivid style and a rare knack for balancing the pleasure of entertainment with the deeper gratification of insight. More, please." —Maggie Shipstead, The New York Times Book Review (Editors’ Choice) "A story about Russia, the United States, friendship, identity, defection, and deception that is smart, startling, and worth reading regardless of when you were born." —Kathryn Schulz, New York Magazine "Holt's beguiling debut... in which there is no difference between personal and political betrayal, vividly conjures the anxieties of the Cold War without ever lapsing into nostalgia." —The New Yorker Sarah Zuckerman and Jennifer Jones are best friends in an upscale part of Washington, D.C., in the politically charged 1980s. Sarah is the shy, wary product of an unhappy home: her father abandoned the family to return to his native England; her agoraphobic mother is obsessed with fears of nuclear war. Jenny is an all-American girl who has seemingly perfect parents. With Cold War rhetoric reaching a fever pitch in 1982, the ten-year-old girls write letters to Soviet premier Yuri Andropov

asking for peace. But only Jenny's letter receives a response, and Sarah is left behind when her friend accepts the Kremlin's invitation to visit the USSR and becomes an international media sensation. The girls' icy relationship still hasn't thawed when Jenny and her parents die tragically in a plane crash in 1985. Ten years later, Sarah is about to graduate from college when she receives a mysterious letter from Moscow suggesting that Jenny's death might have been a hoax. She sets off to the former Soviet Union in search of the truth, but the more she delves into her personal Cold War history, the harder it is to separate facts from propaganda. *You Are One of Them* is a taut, moving debut about the ways in which we define ourselves against others and the secrets we keep from those who are closest to us. In her insightful forensic of a mourned friendship, Holt illuminates the long lasting sting of abandonment and the measures we take to bring back those we have lost.

The End of Management Alchemy: Some Fun with the Findings of Elliott Jaques and How Requisite Organization Began - Darwin Mott 2015-12-23

The liberation of our workplaces through humor, reality, and the findings of scientific research are central themes running through these stories. Before modern medicine came blood-letting, leaches, and witch-doctoring. Before physics, the philosopher's stone and a world that was flat. Currently, the management of our employment systems is stuck in an alchemy-to-science transitional and nonsensical state (like the image on the front cover). Alchemy is evident in the management fads that keep coming back around with different names, like unicorns on a carousel. This book puts an end to all that. And it's about time! And it is actually "Time" - the Time Span that a Real Boss states as needed and accurate for a subordinate role (or employee) to perform a Real Task, for example - that turns out to be the great liberator. So you can forget about all the passing fads. Let this primer start you on a 10-step journey to a happy and productive hierarchy, with a healthier bottom line.

Stikeman Elliott - Richard W. Pound 2013-01-01

In its sixty-year existence, the Stikeman Elliott firm has played a role in many of the most significant transactions in Canadian business history, appearing before the major courts of the country in precedent-setting litigation. Its members are at the top of the legal profession and its reach is global. Clients include major foreign investors requiring advice for entry into Canada, as well as for investments in many other parts of the world. In *Stikeman Elliott: The First Fifty Years*, Richard Pound recounted how Heward Stikeman and Fraser Elliott developed their small law practice into a national and global organization. Here Pound details the firm's global expansion at a time of worldwide economic uncertainty. Embracing both diversity and corporate social responsibility, the organization's unwavering commitment to client confidentiality, knowledge management, and recruiting and retaining lawyers and staff of the highest quality has helped Stikeman Elliott retain its place as one of the preeminent business law firms in the country. An insightful look at recent innovations put into practice, *Stikeman Elliott: New Millennium, New Paradigms* offers an insider's view of a firm which has carved out an important role in Canadian legal and business history.

Elliott Carter's Late Music - John Link 2022-01-27

"Elliott Carter was born four months after Orville Wright demonstrated the Wright Brothers' Flyer to the U.S. Army, and he died two months after the Voyager 1 spacecraft left the heliosphere at the threshold of interstellar space. Carter's remarkable longevity, and the unusual trajectory of his life and work through more than a century of disruptive change, has affected the reception history of his music in ways that we are only beginning to acknowledge. Over the course of a nearly eighty-year-long career, Carter leveraged his advantages and turned obstacles into opportunities with admirable persistence. He chose projects that not only interested him but also fit into the plans for artistic and professional development that he cultivated assiduously over decades. And he paid close attention to how his artistic objectives could be presented most effectively to the performers, listeners, and patrons on whom his career depended. Together with his wife Helen Frost-Jones Carter, he skillfully steered a course through the turbulent waters of the twentieth and early twenty-first centuries with steadily increasing success. The story of Carter's

artistic life, as he told it and as it was promoted by several generations of advocates, is one of independence, uncompromising vision, and technical progress. It was astutely tailored to the beliefs and values of its intended audience and, as autobiography, it reports selectively and glosses over or omits events and attitudes deemed unhelpful in building Carter's reputation and authority, and promoting his music"--

Elliott's Guide to Dinosaurs - Elliott Seah 2016-10-22

Have you ever wondered what the world looked like when dinosaurs roamed the Earth? Eight-year-old author Elliott Seah did, and took it upon himself to find out more. In his first book, he takes readers on a fact-filled exploration of these amazing creatures from our planet's distant past. With lively illustrations, Elliott provides fascinating answers to important questions about the dinosaurs' origins, what they ate, how they lived, and how a mass extinction brought their time on Earth to an end. Helpful extras include resources for further reading, and a list of Elliott's recommended museums with dinosaur collections.

Summary of Susan J. Elliott's Getting Past Your Breakup - Everest Media, 2022-05-30T22:59:00Z

Please note: This is a companion version & not the original book. *Sample Book Insights: #1* After a breakup, you have three options. The first is to spend all your time and energy trying to win your ex back, which will most likely be unsuccessful. The second is to go on as if nothing has happened and continue down the same path that led you into another unsuccessful relationship. The third option is to heal properly

and learn new ways to put together a healthy and whole life. #2 After a breakup, you have the opportunity to make changes in your life. However, many people miss this opportunity because they are too afraid of being alone to change. #3 After a breakup, it can be extremely difficult to navigate your way through the process without a guide. Getting Past Your Breakup will help you keep your determination, make changes, and do things differently from now on. #4 To get from Point A to Point B, you must learn to put yourself first and nurture yourself while allowing the spectrum of emotions to be felt. You must work on the past, while valuing yourself in the present, all while planning for the future.

Compositional Process in Elliott Carter's String Quartets - Laura Emmerly 2019-12-20

Compositional Process in Elliott Carter's String Quartets is an interdisciplinary study examining the evolution and compositional process in Elliott Carter's five string quartets. Offering a systematic and logical way of unpacking concepts and processes in these quartets that would otherwise remain opaque, the book's narrative reveals new aspects of understanding these works and draws novel conclusions on their collective meaning and Carter's place as the leading American modernist. Each of Carter's five string quartets is driven by a new idea that Carter was exploring during a particular period, which allows for each quartet to be examined under a unique lens and a deeper understanding of his oeuvre at large. Drawing on key ideas from a variety of subjects including performance studies, philosophy, music cognition, musical meaning and semantics, literary criticism, and critical theory, this is an informative volume for scholars and researchers in the areas of music theory and musicology. Analyses are supplemented with sketch study, correspondence, text manuscripts, and other archival sources from the Paul Sacher Stiftung, the Library of Congress, and the New York Public Library.

Harmonic Elliott Wave - Ian Copsey 2011-06-03

An update to the Elliot Wave Principle that corrects a fundamental error The Elliot Wave Principle has been widely adopted as a tool for traders analyzing market cycles, but Ian Copsey has unearthed a fundamental error in the way it defines the structural development of price behavior. Harmonic Elliott Wave: The Case for Modification of R. N. Elliott's Impulsive Wave Structure explains what's wrong with the Principle, outlining a modification that allows for more accurate trading predictions. Revealing the methodology that led to this discovery, the common ratios that link different parts of the wave structure, and providing a wealth of practical examples to explain his findings, Copsey shows how waves really develop, dispelling the misconceptions that have been practiced by Elliotticians for years. Supporting his methods by consistently ensuring that waves are related by common ratios, Copsey helps the reader apply the revised version of the Principle with greater understanding and accuracy. Reveals a fundamental error in the popular Elliot Wave Principle Outlines a tried and tested modification that fixes this mistake and allows for more accurate analysis Offers essential information on applying the new model to the markets With far-reaching implications for traders everywhere, Harmonic Elliott Wave is a must-read for anyone who puts their faith in the Elliot Wave Principle.

Implementing ISO 50001 - Thomas E. Welch 2011-11-01

The cost of energy is a major expense on every organizations financials... we also know the ever-increasing cost of energy is passed onto consumers; it cuts into the profit margin and reduces an organization's competitive edge. With the release of the ISO 50001 Energy Management System Standard, organizations now have a tool they can use to better manage the work-processes as well as improve energy performance. Implementing ISO 50001: While integrating with your environmental management system, explains in great detail how to go about implementing an ISO 50001-conforming Energy Management System and takes you to that next step by showing how to integrate the EnMS with other management systems such as ISO 14001 Environmental Management System standard as well as ISO 90001 Quality Management Systems standard. This text goes beyond explaining the ISO 50001 EnMS Standard, it explains to the reader how to implement and also includes examples and checklists successfully applied to reduce energy intensity at

numerous locations; No other book explains in such detail how to better manage the limited resources available to the energy manager.

Confederate General Stephen Elliott: Beaufort Legend, Charleston Hero - D. Michael Thomas 2020

General Stephen Elliott rose from captain of a militia artillery battery to command of an infantry brigade. His early war reputation as a daring raider and superb artilleryman grew to true hero status through his exemplary service at Fort Sumter. Handpicked to defend Sumter to the last extremity, Elliott performed so well that his Yankee foes saluted him by dipping the Union flag in recognition of his courage and steadfastness. Wounded on five separate occasions, Elliott exemplified courage and inspirational leadership that justified promotions advocated by Generals Robert E. Lee and P.G.T. Beauregard and President Jefferson Davis. In the first in-depth study of Elliott, D. Michael Thomas presents the life of a renowned soldier with fresh, previously unpublished material.
