[Free Verse](#) - Charles O. Hartman 1996

To make sense of "free verse" in theory or in practice, the study of prosody - the function of rhythm in poetry - must be revised and rethought. In *Free Verse: An Essay on Prosody*, Charles Hartman develops a theory of prosody that includes the most characteristic forms of twentieth-century poetry. Hartman examines nonmetrical verse, discusses the conventions that have emerged in the absence of meter, and shows how these conventions can work prosodically. By analyzing the work of Williams and Eliot - the prosodic masters among the early modernists - Hartman traces their influence on more contemporary poets. In his exploration of the means by which a poet controls the reader's temporal experience of poetry. Hartman presents an invaluable treatment of the concept of verse.

**The American Scholar (1838) by** - Ralph Waldo Emerson 2016-11-12

Ralph Waldo Emerson (May 25, 1803 - April 27, 1882), known professionally as Waldo Emerson, was an American essayist, lecturer, and poet who led the transcendentalist movement of the mid-19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of transcendentalism in his 1836 essay "Nature." Following this groundbreaking work, he gave a speech entitled "The American Scholar" in 1837, which Oliver Wendell Holmes Sr. considered to be America's "intellectual Declaration of Independence."

[Perennial Fall](#) - Maggie Dietz 2006

At the heart of this unusually accomplished and affecting first book of poetry is the idea of the hinge—the point of connection, of openings and closings. Maggie Dietz situates herself in the liminal present, bringing together past and future, dream and waking, death and life. Formally exact, rigorous, and tough, these poems accept no easy answers or equations. Dietz creates a world alive with detail and populated with the everyday and strange: amusement-park horses named Virgil and Sisyphus, squirrels hanging over tree branches "like fish." By turns humorous and pained, direct and mysterious, elegiac and elegant, the poems trace for us the journey and persistence of the spirit toward and through its "perennial fall"—both the season and the human condition. Cumulatively, the work moves toward a fragile transcendence, surrendering to difficulty, splendor, and strangeness. "In *Perennial Fall*, distinct, hard-edged images create a haunting counter-play of distortion, troubled insight or menace. The simultaneous clarity and shadow has the quality of a dream that can be neither forgotten nor settled. This is a spectacular debut and more than that—a wonderful book."—Robert Pinsky

### **Blueberries** - Robert Frost 2014-10-28

In his 1915 poem "Blueberries," Pulitzer Prize-winner Robert Frost makes the ordinary experience of picking wild blueberries into an extraordinary endeavor, where you can smell the morning damp and feel the sun on your head and take delight in being the first to discover a blueberry patch ripe for picking. In the poem, Frost also introduces the reader to a poor neighbor family that needs the wild berries they pick to survive. This short work is part of Applewood's "American Roots," series, tactile mementoes of American passions by some of America's most famous writers.

### **Frost** - William H. Pritchard 1993

Although this book does not attempt to revive the image of Frost as a benign, white-haired sage, it does present him in a strikingly different light than did Lawrence Thompson's controversial three-volume biography. William H. Pritchard sees Frost whole, demonstrating the complex interaction between the poet's life and work. Based not only on the poetry, but on letters, notebooks, recorded interviews, and public appearances as well, 'Frost: A Literary Life Reconsidered' examines the most interesting and significant aspects of Frost's life and poetry and offers an attentive, sensitive portrait of an artist whose critical reputation continues to grow.

### **North of Boston** - Robert Frost 2021-02-01

North of Boston (1914) is a collection of poems by American poet Robert Frost. Following the success of Frost's debut, *A Boy's Will* (1913), *North of Boston* was published in London to enthusiastic reviews from both Ezra Pound and W.B. Yeats. His success abroad quickly translated to critical acclaim in the United States, and Frost would eventually be recognized as a leading American poet. "Mending Wall" takes place in spring, as the people emerge from their homes to assess the damage done by the long, dark winter. Observing that parts of the stone wall on the edge of his property have fallen, the poet joins his neighbor "to walk the line / And set the wall between us once again." Although he feels they "do not need the wall," his neighbor insists that "'Good fences make good neighbours,'" continuing down the line to reinforce the space between them. A meditation on humanity, civilization, and democracy, "Mending Wall" is an iconic and frequently anthologized poem. In "After Apple-Picking," as fall gives over to winter, the poet remembers in dreams how the "Magnified apples appear and disappear, / Stem end and blossom end" as he climbs the ladder into the heart of the tree. Both a symbol for life and a metaphor for the poetic act, apple picking leaves the poet "overtired / Of the great harvest [he himself] desired", awaiting sleep as he describes "its coming on," wondering what, if anything, it will bring. With a beautifully designed cover and professionally typeset manuscript, this edition of Robert Frost's *North of Boston* is a classic of American literature reimagined for modern readers.

### **Robert Frost and the New England Renaissance** - George Monteiro 2021-05-11

"A poem is best read in the light of all the other poems ever written." So said Robert Frost in instructing readers on how to achieve poetic literacy. George Monteiro's newest book follows that dictum to enhance our understanding of Frost's most valuable poems by demonstrating the ways in which they circulate among the constellations of great poems and essays of the New England Renaissance. Monteiro reads Frost's own poetry not against "all the other poems ever written" but in the light of

poems and essays by his precursors, particularly Emerson, Thoreau, and Dickinson. Familiar poems such as "Mending Wall," "After Apple-Picking," "Birches," "Stopping by Woods on a Snowy Evening," "The Road Not Taken," and "Mowing," as well as lesser known poems such as "The Draft Horse," "The Ax-Helve," "The Bonfire," "Dust of Snow," "A Cabin in the Clearing," "The Cocoon," and "Pod of the Milkweed," are renewed by fresh and original readings that show why and how these poems pay tribute to their distinguished sources. Frost's insistence that Emerson and Thoreau were the giants of nineteenth-century American letters is confirmed by the many poems, variously influenced, that derive from them. His attitude toward Emily Dickinson, however, was more complex and sometimes less generous. In his twenties he molded his poetry after hers. But later, after he joined the faculty of Amherst College, he found her to be less a benefactor than a competitor. Monteiro tells a two-stranded tale of attraction, imitation, and homage countered by competition, denigration, and grudging acceptance of Dickinson's greatness as a woman poet. In a daring move, he composes—out of Frost's own words and phrases—the talk on Emily Dickinson that Frost was never invited to give. In showing how Frost's work converses with that of his predecessors, Monteiro gives us a new Frost whose poetry is seen as the culmination of an intensely felt New England literary experience.

While he depicts the various stages of Frost's colorful life, Parini also sensitively explores the poet's psyche, showing how he dealt with adversity, family tragedy, and depression. By taking the reader into the poetry itself, which he reads closely and brilliantly, Parini offers an insightful road map to Frost's remarkable world.

### **Robert Frost** - John H. Timmerman 2002

*Robert Frost: The Ethics of Ambiguity* examines Frost's ethical positioning as a poet in the age of modernism. The argument is that Frost constructs his poetry with deliberate formal ambiguity, withholding clear resolutions from the reader. Therefore, the poem itself functions as metaphor, inviting the reader into a participation in constructing meaning. Furthermore, the ambiguity of ethical positioning was intrinsic to Frost himself. Nonetheless, by holding his poetry up to several traditional ethical views -- Rationalist, Theological, Existentialist, Deontological, and Social Ethics -- one may define a congruent ethical pattern in both the poetry and the person.

The work of hunters is another thing: I have come after them and made repair Where they have left not one stone on a stone, But they would have the rabbit out of hiding, To please the yelping dogs. The gaps I mean, No one has seen them made or heard them made, But at spring mending-time we find them there. I let my neighbour know beyond the hill; And on a day we meet to walk the line And set the wall between us once again. We keep the wall between us as we go. To each the boulders that have fallen to each. And some are loaves and some so nearly balls We have to use a spell to make them balance: "Stay where you are until our backs are turned!" We wear our fingers rough with handling them. Oh, just another kind of out-door game, One on a side. It comes to little

more: There where it is we do not need the wall: He is all pine and I am apple orchard. My apple trees will never get across And eat the cones under his pines, I tell him.

Old School - Tobias Wolff 2005

It's 1960, in America, at a prestigious boys' public school, a place of privilege that places great emphasis on its democratic ideals. A teenage boy in his final year, on a scholarship, has learned to fit in with his adoptive tribe while concealing as much as possible about himself and his background. Class is ever present, but the only acknowledged snobbery is a literary snobbery. These boys' heroes are writers - Fitzgerald, Cummings, Kerouac. They want to be writers themselves, and the school has a tradition whereby once a term big names from the literary world are invited to visit. A contest takes place with the boys admitting a piece of writing and the winner having a private audience with the visitor. When it is announced that Hemingway will be the next to come to the school, competition among the boys is intense, and the morals the school and the boys hold dear - honour, loyalty and friendship - are tested. No one writes more astutely than Wolff about the process by which character is formed, and here he illuminates the irresistible strength, even the violence, of the self-creative urge. This is a novel that, in its power and its beauty, in its precision and its humanity, is at once contemporary and timeless.

The Theme of Boundaries in the Poetry of Robert Frost - Katrin Gischler 2007

Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 65%, University of Reading (Department of English and American Literature), course: Writing America 2, 8 entries in the bibliography, language: English, abstract: Robert Lee Frost belongs to one of the most popular and influential writers of the 20th century. Although his career started only at the age of forty, he made his mark as a poet, becoming more and more widely known until at the end he was the United States' de facto poet laureate.<sup>1</sup> The clarity of Frost's diction, the colloquial rhythms, the simplicity of his images and above all the folksy speaker- these are intended to make the poems look natural, unplanned. By investing in the New England terrain he revitalised the tradition of New England regionalism. Readers who accepted Frost's persona and his setting as typically American accepted the powerful myth that this rural part of the country was the heart of America. Among the major concerns that appear in Frost's poetry are the fragility of life, the consequences of rejecting or accepting the conditions of one's life, the passion of inconsolable grief, the difficulty of sustaining intimacy, the fear of loneliness and isolation, the tensions between the individual and society, and the place of tradition and custom.<sup>3</sup> The tensions between the individual and society become apparent in Frost's examination and metaphorical use of geographical boundaries. In this respect, I am going to focus on one of Frost's most popular poems Mending Wall from the volume of poems called North of Boston (1914) and a more less known poem Trespass from A Witness Tree (1942).
