Don't Just Sit There, DO NOTHING - Jessie Asya Kanzer
2022-03-01

“Stressed-out readers will find

her advice a salve in an overly hurried and critical world." —Publisher's Weekly "Jessie Asya Kanzer is like a Taoist Anne Lamott, and she's written a practical and actionable guide." —Joel Fotinos, author of *The Prosperity Principles* Here are 47 inspirational pieces that are smart, hip, accessible, and rich with insight; Jessie Asya Kanzer's bite-sized stories of struggle, triumph, and contemplation provide a quick burst of mindfulness. Each chapter begins with a verse from the Tao, followed by sharp observations and anecdotes from her own life that give the teachings of Lao Tzu applicability to contemporary life. And each chapter concludes with a "Do Your Tao" section that offers an actionable step, leaving the reader with a sense of grounding and fluidity. Chapters include: "Success Sucks (Sometimes)," "F*ck This, I'm Water," "I Love You, I Not Love You," "The Tao of Babushka," and "Mystics Wear Leggings".

Harrod's Librarians' Glossary and Reference

Book - Ray Prytherch

2012-10-01

Listing over 10,000 entries, Harrod's Librarians' Glossary and Reference Book spans everything from traditional printing terms to search engines and from book formats to URLs. Revisions for this tenth edition have centred in particular on the Information Society and its ramifications, on the general shift towards electronic resources, and on e-commerce, e-learning and e-government, whilst at the same time maintaining key areas predating the IT revolution. Web terminology, URLs and IT terms have been checked and updated, and coverage of terms relating to digitization and digital resources, portals, multimedia and electronic products has been revised or expanded as necessary. Harrod's Glossary now includes Knowledge Management terms, and this edition has also focused on developments in the field of intellectual property, copyright, patents, privacy and

piracy. It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills. Even with the Web at your fingertips

Harrod's Librarians' Glossary and Reference Book remains a quicker reference for explaining specialist terms, jargon and acronyms, and for finding the URLs you need, whether you are working in a print-based or digital library, in archiving, records management, conservation, bookselling or publishing.

The Bulk Sales Act - Alberta Law Reform Institute 1990
This report describes the Act

and states the reasons for our conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some approaches that could be taken to reforming rather than repealing the Act.

Cannabis - Chris Duvall
2014-11-15
Thanks to its best-known use,

any mention of cannabis tends to bring up jokes about the munchies or debates about marijuana and legalized drug use. But this not-so-innocent flowering plant was one of the first to be domesticated by humans, and it has been used in spiritual, therapeutic, and even punitive applications ever since—in addition to its more recreational purpose. Despite all the hoopla surrounding cannabis, however, we actually understand relatively little about it in the human and ecological past. In *Cannabis*, Chris Duvall explores the botanical and cultural history of one of our most widely distributed crops, presenting an even-handed look at this heady little plant. Providing a global historical geography of cannabis, Duvall discusses the manufacture of hemp and its role in rope-making, clothing, and paper, as well as cannabis's use as oil and fuel. His focus, though, is on its most prevalent use: as a psychoactive drug. Without advocating for either the prohibition or legalization of

the drug, Duvall analyzes a wide range of works to offer a better understanding of both stances and, moreover, the diversity of human-cannabis relationships across the world. In doing so, he corrects the overly simplistic portrayals of cannabis that have dominated discourse on the subject, arguing that we need to understand the big picture in order to improve how the plant is managed worldwide. Richly illustrated and highly accessible, Cannabis is an essential read to understand the rapidly evolving debate over the legalization of marijuana in the United States and other countries.

system to get the graduates we need. Second, we cannot touch the system without touching the culture of the surrounding town; everything that goes on inside a school is tied to local attitudes, values, traditions, and beliefs. Drawing on his work in hundreds of districts, Jamie offers teachers, administrators, board members, and their allies a practical program to secure the understanding, trust, permission, and support they need to change the system and increase student success.

Chromic Phenomena 3rd Edition - Peter Bamfield 2018-08-24

Chromic or colour related phenomena are produced in

response to a chemical or physical stimulus. This new edition will update the information on all those areas where chemicals or materials interact with light to produce colour, a colour change, or luminescence especially in the imaging, analysis, lighting and display areas. The book has been restructured to show greater emphasis on applications where 'coloured' compounds are used to transfer energy or manipulate light in some way therefore reducing the details on classical dyes and pigments. In the past eight years, since the previous edition, there has been a remarkable increase in the number of papers and reviews being produced reflecting the growth of interest in this area. This ongoing research interest is matched by a large number of new technological applications gaining commercial value covering e.g. biomedical areas, energy, data storage, physical colour, bio-inspired materials and photonics. This book appeals to industrial chemists,

professionals, postgraduates and as high level recommended reading for colour technology courses.

Sustainability - Gilbert S. Hedstrom 2018-11-05

Sustainability: What It Is and How to Measure It begins with a succinct business-focused summary of how to think about the risks and opportunities associated with sustainability. The author then includes his proprietary framework, The Corporate Sustainability Scorecard™ C-suite rating system, including the over 140 key sustainability indicators that are used to rate an organization's sustainability efforts. Each KSI includes examples from organizations around the world, giving the reader a complete and unbiased understanding of all aspects of sustainability. The Scorecard has been developed over the past 20 years and used by more than 70 corporations to rate themselves on sustainability. Gilbert S. Hedstrom illustrates the use of the Scorecard with hundreds of examples. He discusses

sustainability transformation, governance, and strategy and execution. Social responsibility and environmental stewardship form important parts of his discourse in this important contribution to the debate on sustainability that will benefit

business executives and those interested in sustainability and business. Read the author's related article on the NACD blog here:
