Design and Equipment for Restaurants and Foodservice - Chris Thomas 2013-09-23

This text shows the reader how to plan and develop a restaurant or foodservice space. Topics covered include concept design, equipment identification and procurement,

design principles, space allocation, electricity and energy management, environmental concerns, safety and sanitation, and considerations for purchasing small equipment, tableware, and table linens. This book is comprehensive in nature and focuses on the

whole facility—with more attention to the equipment—rather than emphasizing either front of the house or back of the house.

Behind the Front Panel - David Rutland 2013-12

Behind the Front Panel by David Rutland, an electronics engineer with over 25 years of experience in the design of vacuum tube circuits, explores the whys and wherefores of the components and circuits of the first broadcast radios. By using simplified descriptions and illustrations, supplemented by 25 photographs of actual radio component parts, he provides a readable explanation of what goes on inside the old battery radios. His story begins with the invention of the radio tube at the turn of the last century and concentrates on the engineering design and development through the 1920's. Design examples are taken from over 45 actual radios manufactured in the decade that saw broadcast radio start as a national pastime and end as a national necessity. This book is a classic in radio history. This edition is carefully re-

mastered from the original and published by the California Historical Radio Society.

Trafficking in Broken Hearts - Edwin Sanchez
2014-12-15

When Papo, a tough-talking Puerto Rican hustler from the Bronx, meets Brian, a frightened young lawyer from the Midwest, Papo begins to glimpse the possibility of a romantic escape from his life on the streets. At the same time, Bobby, a 17-year-old runaway who has been repeatedly raped by his older brother, offers to take care of Papo and moves in with him in his fleabag hotel room. It is then when Papo suddenly finds his defenses melting and his heart torn in two directions. **TRAFFICKING IN BROKEN HEARTS** is a gritty, urban love story. "Playwright Edwin Sanchez makes a promising New York debut with **TRAFFICKING IN BROKEN HEARTS**, a grim, streetwise and bracingly compassionate work ... he convinces with the honesty of his writing and a canny, thoughtful grasp of his trio of characters. The playwright does an especially effective job in penning the gray shades of his characters ..." -Greg Evans, *Variety*

The Uneven Offshore World - Justin Robertson 2022-03-25

Informed by world-systems analysis, this book examines the shifting patterns of accommodation and resistance to the offshore world, with a particular focus on Mauritius as a critical but underappreciated offshore node mediating foreign investment into India and Africa. Drawing on a large pool of financial data and elite interviews, the authors present the first detailed comparative study of the Mauritius-India and Mauritius-Africa offshore

relationships. These relationships serve as indicative test cases of the contemporary global tax reform agenda and its promise to rein in offshore finance. Whereas India's economic power and multilateral track record have enabled it to actively shape this agenda and implement it in a robust manner, most African countries have found themselves either unable to meet its stringent criteria or unwilling to do so out of fear that it might discourage investment. Its impact on offshore financial centers has likewise been limited. A few of the

least sophisticated ones appear to have fallen by the wayside, but the rest have either remained largely unaffected, or, like Mauritius, succeeded in consolidating their operations and surviving the current round of regulatory headwinds. The findings suggest that the contemporary global tax reform agenda has thus far not only failed to make good on its promise but also actually reinforced numerous existing power hierarchies. The Uneven Offshore World is written in an accessible style and aimed at readers without specialized knowledge of tax issues.
