Their ship carries guided missiles and nuclear weaponry - but they have long since lost the art (and weapons) of hand-to-hand fighting. And this time it's no mere primitives the Wersgorix seek to enslave - they've launched their invasion against Englishmen! In the end, only one alien is left alive - and Sir Roger's grand vision is born. Enslavement of Black Africans 1418-1839 - Pius Onyemechi Adiele
2017-09-01

Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children

suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major "role players" in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studios but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.

A.D. After Disclosure - Richard Dolan 2012-05-22

"What if the UFO cover-up is real and what if it ended? After Disclosure poses this fascinating question and looks at the societal consequences of such a revelation. Richard Dolan and Bryce Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life." —Nick Pope, Former Chief of UK Ministry of Defence UFO Desk What if UFO secrecy ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn't afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, "What did you know and when did you know it?" The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth—from history to science—will need an immediate review. Whether disclosure leads to social panic or ushers in a new era of unity and peace, it will undoubtedly be a game-changing event.

Secret Journey to Planet Serpo - Len Kasten 2013-05-05

Documents how 12 people, as part of a top-secret U.S. government program, traveled to the planet Serpo and lived there for 13 years • Based on the debriefing of the Serpo team and the diary of the expedition's commander • Explains how the aliens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems • Reveals how our government has an ongoing relationship with the Serpo aliens On July 16, 1965, a massive alien spacecraft from the Zeta Reticuli star system landed at the Nevada

test site north of Las Vegas. Following a plan set in motion by President Kennedy in 1962, the alien visitors known as the Ebens welcomed 12 astronaut-trained military personnel aboard their craft for the 10-month journey to their home planet, Serpo, 39 light-years away. In November 2005, former and current members of the Defense Intelligence Agency--directed by Kennedy to organize the Serpo exchange program--came forward to reveal the operation, including details from the 3,000-page debriefing of the 7 members of the Serpo team who returned after 13 years on the planet. Working with the DIA originators of the Serpo project and the diary kept by the expedition's commanding officer, Len Kasten chronicles the complete journey of these cosmic pioneers, including their remarkable stories of life on an alien planet, superluminal space travel, and advanced knowledge of alien technologies. He reveals how the Ebens presented the U.S. with "The Yellow Book"--a complete history of the universe recorded holographically, allowing the reader to view actual scenes from pre-history to the present. He explains how the Ebens helped us reverse-engineer their antigravity spacecraft and develop technology to solve our planet-wide energy problems--knowledge still classified. Exposing the truth of human-alien interaction and interplanetary travel, Kasten reveals not only that the Ebens have returned to Earth eight times but also that our government continues to have an ongoing relationship with them--a relationship with the potential to advance the human race into the future.

The Port Chicago Disaster - Charles River Charles River Editors 2018-02-21

*Includes pictures *Includes accounts about the incident written by witnesses and survivors *Includes online references and a bibliography for further reading *Includes a table of contents "The fact that these men were wearing the uniform of the United States Navy made no difference." - Steve Sheinkin, *The Port Chicago 50: Disaster, Mutiny, and the Fight for Civil Rights* In World War II, hundreds of thousands of American soldiers were killed across the world, whether in Japanese jungles, North African deserts, or European beaches. Given that backdrop, and the sheer magnitude of the war, people understandably became desensitized to incidents and tragedies that cost hundreds of lives. This was undoubtedly the case with the notorious Port Chicago disaster, a munitions explosion in July 1944 that killed over 300 people and injured over 300 more, many of them Navy sailors. Since the explosion took place just a little over a month after D-Day, not to mention the fact that a majority of the casualties were African-American, little attention was paid to the tragedy. Among those who did, some believed the men had not been trained well enough, while others said that they were being pushed by their officers to race each other in work that should have been done slowly and carefully. The only thing everyone could agree on was that something went very wrong. If anything, the episode not only underscored the Navy's segregation policies but also demonstrated just how pervasive racism was at the time. The disaster was so deadly that 15% of all African-American Naval casualties in the war occurred on and around the dock in California that day, and while many appreciated the work the soldiers did, others denigrated their efforts. In fact, one shocking report contained the following slanderous remarks: "These enlisted personnel were unreliable, emotional, lacked capacity to understand or remember orders or instructions, were

particularly susceptible to mass psychology and moods, lacked mechanical aptitude, were suspicious of strange officers, disliked receiving orders of any kind, particularly from white officers or petty officers, and were inclined to look for and make an issue of discrimination. Because of the level of intelligence and education of the enlisted personnel, it was impracticable to train them by any method other than by actual demonstration. Many of the men were incapable of reading and understanding the most simple directions [T]he officers at Port Chicago have realized for a long time the necessity for great effort on their part because of the poor quality of the personnel with which they had to work. They worked loyally, conscientiously, intelligently, and effectively to make themselves competent officers and to solve the problem of loading ships safely with the men provided." In reality, it was not the mental incapacity of the sailors but the unsafe conditions they were exposed to that ultimately caused the disaster. In the wake of the accident, black sailors and civilians alike demanded change, to the extent that some around Port Chicago subsequently refused to load munitions on ships. While the "Port Chicago Mutiny" led to some arrests, the simmering tensions helped spur overall policy changes, and eventually the U.S. Navy began to desegregate its forces in early 1946. *The Port Chicago Disaster: The History of America's Deadliest Homeland Incident during World War II* chronicles the story of the disaster and its aftermath. Along with pictures of important people, places, and events, you will learn about the Port Chicago disaster like never before, in no time at all.

The Central Intelligence Agency and Overhead Reconnaissance - Gregory Pedlow 2016-03-15

This volume presents the complete CIA document revealing newly declassified information on the U-2 and Oxcart programs—plus new photos and supporting text. The Central Intelligence Agency and Overhead Reconnaissance 1954-1974 is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs, including names of pilots; codenames and cryptonyms; locations, funding, and cover arrangements; electronic countermeasures equipment; cooperation with foreign governments; and overflights of the Soviet Union, Cuba, China, and other countries. Originally published with a Secret/No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects, but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top-secret testing, its specially designed high-altitude cameras and complex life-support systems, and even the possible use of poison capsules by its pilots, if captured. Finally, they discuss the CIA's development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs, a new preface by author Gregory W. Pedlow, and a foreword by Chris Pocock.

Soldiers are Our Credentials - Dennis Joe Reimer 2000

UFOs - Leslie Kean 2011-08-02

NEW YORK TIMES BESTSELLER • Impeccably researched, this riveting journalistic investigation separates fact from fiction, and documents the existence of—and government reactions to—actual UFOs. "A treasure trove of insightful and eye-opening information."—Michio Kaku, PH.D., bestselling author of *Physics of the Future* Leslie Kean, a veteran investigative reporter who has spent the past ten years studying the still-unexplained UFO phenomenon, reviewed hundreds of government documents, aviation reports, radar data, and case studies with corroborating physical evidence. She interviewed dozens of high-level officials and aviation witnesses from around the world. Among them, five Air Force generals and a host of high-level sources—including Fife Symington III, former governor of Arizona, and Nick Pope, former head of the British Defence Ministry's UFO Investigative Unit—have written their own breathtaking, firsthand accounts about UFO encounters and investigations exclusively for this book. With the support of former White House chief of staff John Podesta, Kean lifts the veil on decades of U.S. government misinformation about this mysterious phenomenon and presents irrefutable evidence that unknown flying objects—metallic, luminous, and seemingly able to maneuver in ways that defy the laws of physics—actually exist. With a Foreword by John Podesta "The most important book on the phenomenon in a generation."—*Journal of Scientific Exploration* "Written with penetrating depth and insight, the revelations in this book constitute a watershed event in lifting the taboo against rational discourse about this controversial subject."—Harold E. Puthoff, PH.D., Director of the Institute for Advanced Studies at Austin "Kean presents the most accurate, most credible reports on UFOs you will ever find. She may not have the final smoking gun, but I smell the gunpowder."—Miles O'Brien, science correspondent for PBS's *NewsHour* The UFO Files - David Clarke 2013-03-30

'What does all this stuff about flying saucers amount to? What can it mean? What is the truth?' Winston Churchill, prime minister's personal minute, 28th July 1952 *The UFO Files* tells the story of over 100 years of UFO sightings, drawing on formerly secret government documents at the National Archives in London. Alongside extraordinary reports by ordinary people, it reveals details of official interest and investigations stretching back more than 80 years. In this remarkable book, fully updated for this second edition, David Clarke reveals an array of startling stories from possible UFO reports hidden among Met Office investigations of aerial phenomena in the 1920s to the conclusions of Project Condign, the secret British Intelligence UFO study completed in 2000. As well as covering Roswell and Britain's own Rendlesham Forest mystery, Clarke raids the records for dramatic stories of abductions and close encounters, ghost aircraft and crop circles, and UFO reports by both civilian aircrew and military personnel. Dramatic witness statements and interviews combine with rarely seen photographs, drawings and newly available documents to offer a unique guide to one of our most intriguing mysteries.

The Stout Stick - Brent Monahan 2016-06-15

Powerful D.C. politicians are being removed from office by something other than elections - execution-style killings for which FBI Special Agent Nick Nettles is under pressure to find answers and suspects. That's when a weapons smuggling investigation drops Nick in the middle of an international scheme to expand gun distribution, block tighter U.S. gun laws and manipulate the public conversation on Second Amendment rights. For Nick, a lawman and gun-control advocate, uncovering the truth is personal - and could destroy his career and rock the nation, from the heights of government and industry to every citizen. But he isn't alone - someone else has bought into the high-stakes game and is going all-in to run guns off the table. Who will win when Death calls? *THE STOUT STICK* is a work of fiction. However, its central argument we see as no less outrageous than those being presented by the gun manufacturers and their lobbies, or the so-called "public servants" who pander to those manufacturers and lobbies for campaign contributions. No less outrageous, either, than the attitudes of that small, but vocal, portion of the electorate that sees even reasonable limitations to gun ownership as assaults on the Constitution and their perceived "God-given rights."

When federal officials realize they are helpless to stop an alien spacecraft from approaching Earth, they concede to the aliens as long as they colonize peacefully, but *The Enterprise*, an underground group, threatens mass extermination.

The Biological Universe - Steven J. Dick 1999-12-28

Throughout the twentieth century, from the furor over Percival Lowell's claim of canals on Mars to the sophisticated Search for Extraterrestrial Intelligence, otherworldly life has often intrigued and occasionally consumed science and the public. Does 'biological law' reign throughout the universe? Are there other histories, religions, and philosophies outside of those on Earth? Do extraterrestrial minds ponder the mysteries of the universe? The attempts to answer these often asked questions form one of the most interesting chapters in the history of

science and culture, and *The Biological Universe* is the first book to provide a rich and colorful history of those attempts during the twentieth century. Covering a broad range of topics, including the search for life in the solar system, the origins of life, UFOs, and aliens in science fiction, Steven J. Dick shows how the concept of extraterrestrial intelligence is a world view of its own, a 'biophysical cosmology' that seeks confirmation no less than physical views of the universe.

Slavery and the British Country House - Andrew Hann 2013

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

Rebecca Tree - Michael Abramson 2016-04-10

A near-future America tips toward civil war. Border states degenerate into lawless territories led by demagogues. Can one woman stop them? *Enemy Aliens, Prisoners of War* - Bohdan S. Kordan 2002

In *Enemy Aliens, Prisoners of War* Bohdan Kordan assesses the policy and practice of civilian internment in Canada during the Great War and provides a clear but critical analysis of the complex nature of this experience. Period photographs and first person accounts augment the text, helping to communicate the human drama of the story. A comprehensive roster identifying those interned in the frontier camps of the Rocky Mountains is included.

The Cultural Cold War - Frances Stonor Saunders 2013-11-05

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's

astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this

classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.
