**The Bright Ages** - Matthew Gabriele  
2021-12-07

"The beauty and levity that Perry and Gabriele have captured in this book are what I think will help it to become a standard text for general audiences for years to come....The Bright Ages is a rare thing—a nuanced historical work that almost anyone can enjoy reading."—Slate  
"Incandescent and ultimately intoxicating."  
—The Boston Globe A lively and magisterial popular history that refutes common misperceptions of the European Middle Ages, showing the beauty and communion that flourished alongside the dark brutality—a brilliant reflection of humanity itself. The word "medieval" conjures images of the "Dark Ages"—centuries of ignorance, superstition, stasis, savagery, and poor hygiene. But the myth of darkness obscures the truth; this was a remarkable period in human history. The Bright Ages recasts the European Middle Ages for what it was, capturing this 1,000-year era in all its complexity and fundamental humanity, bringing to light both its beauty and its horrors. The Bright Ages takes us through ten centuries and crisscrosses Europe and the Mediterranean, Asia and Africa, revisiting familiar people and events with new light cast upon them. We look with fresh eyes on the Fall of Rome, Charlemagne, the Vikings, the Crusades, and the Black Death, but also to the multi-religious experience of Iberia, the rise of Byzantium, and the genius of Hildegard and the power of queens. We begin under a blanket of golden stars constructed by an empress with Germanic, Roman, Spanish, Byzantine, and Christian bloodlines and end

nearly 1,000 years later with the poet Dante—inspired by that same twinkling celestial canopy—writing an epic saga of heaven and hell that endures as a masterpiece of literature today. The Bright Ages reminds us just how permeable our manmade borders have always been and of what possible worlds the past has always made available to us. The Middle Ages may have been a world "lit only by fire" but it was one whose torches illuminated the magnificent rose windows of cathedrals, even as they stoked the pyres of accused heretics. The Bright Ages contains an 8-page color insert.

**Plague Image and Imagination from Medieval to Modern Times** - Christos Lynteris  
2021-07-29

This edited collection brings together new research by world-leading historians and anthropologists to examine the interaction between images of plague in different temporal and spatial contexts, and the imagination of the disease from the Middle Ages to today. The chapters in this book illuminate to what extent the image of plague has not simply reflected, but also impacted the way in which the disease is experienced in different historical periods. The book asks what is the contribution of the entanglement between epidemic image and imagination to the persistence of plague as a category of human suffering across so many centuries, in spite of profound shifts in our medical understanding of the disease. What is it that makes plague such a visually charismatic subject? And why is the medical, religious and lay imagination of plague so consistently determined by the visual register? In answering

these questions, this volume takes the study of plague images beyond its usual, art-historical framework, so as to examine them and their relation to the imagination of plague from medical, historical, visual anthropological, and postcolonial perspectives.

**Religion and Conflict in Medieval and Early Modern Worlds** - Natasha R. Hodgson 2020-12-28

Propaganda, polemic and religious identities -- Religious conflict in local contexts -- Religion, gender and authority -- Religion and conflict in the city -- Legitimising religious warfare.

**Religion and Conflict in Medieval and Early Modern Worlds** - Natasha Hodgson 2020-12-27

This volume seeks to increase understanding of the origins, ideology, implementation, impact, and historiography of religion and conflict in the medieval and early modern periods. The chapters examine ideas about religion and conflict in the context of text and identity, church and state, civic environments, marriage, the parish, heresy, gender, dialogues, war and finance, and Holy War. The volume covers a wide chronological period, and the contributors investigate relationships between religion and conflict from the seventh to eighteenth centuries ranging from Byzantium to post-conquest Mexico. Religious expressions of conflict at a localised level are explored, including the use of language in legal and clerical contexts to influence social behaviours and the use of religion to legitimise the spiritual value of violence, rationalising the enforcement of social rules. The collection also examines spatial expressions of religious conflict both within urban environments and through travel and pilgrimage. With both written and visual sources

being explored, this volume is the ideal resource for upper-level undergraduates, postgraduates, and researchers of religion and military, political, social, legal, cultural, or intellectual conflict in medieval and early modern worlds. *World History Test Guides/Answer Keys Grade 7* - Mcdougal Littel 2005-03-24

**Powers and Thrones** - Dan Jones 2021-11-09

"Not only an engrossing read about the distant past, both informative and entertaining, but also a profoundly thought-provoking view of our not-really-so-'new' present . . . All medieval history is here, beautifully narrated . . . The vision takes in whole imperial landscapes but also makes room for intimate portraits of key individuals, and even some poems."—Wall Street Journal "A lively history . . . [Jones] has managed to touch every major topic. As each piece of the puzzle is placed into position, the modern world gradually comes into view . . . Powers and Thrones provides the reader with a framework for understanding a complicated subject, and it tells the story of an essential era of world history with skill and style."—The New York Times The New York Times bestselling author returns with an epic history of the medieval world—a rich and complicated reappraisal of an era whose legacy and lessons we are still living with today. When the once-mighty city of Rome was sacked by barbarians in 410 and lay in ruins, it signaled the end of an era—and the beginning of a thousand years of profound transformation. In a gripping narrative bursting with big names—from St Augustine and Attila the Hun to the Prophet Muhammad and Eleanor of Aquitaine—Dan Jones charges through the history of the Middle Ages. Powers and Thrones takes readers on a journey through an emerging Europe, the great capitals of late Antiquity, as well as the influential cities of the Islamic West, and culminates in the first European voyages to the Americas. The medieval world was forged by

the big forces that still occupy us today: climate change, pandemic disease, mass migration, and technological revolutions. This was the time when the great European nationalities were formed; when the basic Western systems of law and governance were codified; when the Christian Churches matured as both powerful institutions and the regulators of Western public morality; and when art, architecture, philosophical inquiry and scientific invention went through periods of massive, revolutionary change. The West was rebuilt on the ruins of an empire and emerged from a state of crisis and collapse to dominate the world. Every sphere of human life and activity was transformed in the thousand years covered by Powers and Thrones. As we face a critical turning point in our own millennium, Dan Jones shows that how we got here matters more than ever.

A Sourcebook of Early Modern European History - Ute Lotz-Heumann 2019-01-30

A Sourcebook of Early Modern European History not only provides instructors with primary sources of a manageable length and translated into English, it also offers students a concise explanation of their context and meaning. By covering different areas of early modern life through the lens of contemporaries' experiences, this book serves as an introduction to the early modern European world in a way that a narrative history of the period cannot. It is divided into six subject areas, each comprising between twelve and fourteen explicated sources: I. The fabric of communities: Social interaction and social control; II. Social spaces: Experiencing and negotiating encounters; III. Propriety, legitimacy, fidelity: Gender, marriage, and the family; IV. Expressions of faith: Official and popular religion; V. Realms intertwined: Religion and politics; and, VI.

Defining the religious other: Identities and conflicts. Spanning the period from c. 1450 to c. 1750 and including primary sources from across early modern Europe, from Spain to Transylvania, Italy to Iceland, and the European colonies, this book provides an excellent sense of the diversity and complexity of human experience during this time whilst drawing attention to key themes and events of the period. It is ideal for students of early modern history, and of early modern Europe in particular.

The European World 1500-1800 - Beat Kümin 2014-01-10

The European World 1500-1800 provides a concise and authoritative textbook for the centuries between the Renaissance and the French Revolution. It presents early modern Europe not as a mere transitional phase, but a dynamic period worth studying in its own right. Written by an experienced team of specialists, and derived from a perennially successful undergraduate course, it offers a student-friendly introduction to all major themes and processes of early modern history. Structured in four parts dealing with socio-economic, religious, cultural and political issues, it adopts a deliberately broad geographical perspective: Western and Central Europe receive particular attention, but dedicated chapters also explore the wider global context. For this thoroughly revised and improved second edition, the authors have added three new chapters on 'Politics and Government', 'Impact of War' and 'Revolution' Specially designed to assist learning, The European World 1500-1800 features: state-of-the-art surveys of key topics written by an international team of historians suggestions for seminar discussion and further reading extracts from primary sources and generous illustrations, including maps a glossary of key terms and concepts a chronology of major events a full index of persons, places and subjects a fully-featured companion website, enhanced for this new edition The European World 1500-1800 will be essential reading for all students embarking on the discovery of the early modern period.

**Medieval and Early Modern Times** - Diane Hart 2005-06-30

Judaism in Practice - Lawrence Fine 2021-04-13

This collection of original materials provides a sweeping view of medieval and early modern Jewish ritual and religious practice. Including such diverse texts as ritual manuals, legal codes, mystical books, autobiographical writings, folk literature, and liturgical poetry, it testifies to the enormous variety of practices that characterized Judaism in the twelve hundred years between 600 and 1800 C.E. Its focus on religious practice and experience--how Judaism was actually lived by people from day to day--makes this anthology unique among the few sourcebooks available. The volume encompasses the broad scope and complex texture of Jewish religious practice, taking into account many aspects of Jewish culture that have hitherto been relatively neglected: the religious life of ordinary people, the role and status of women, art and aesthetics, and marginalized as well as remote Jewish communities. It introduces such remarkable personalities as Moses Maimonides, Leon Modena, and Gluckel of Hameln, and presents extraordinary texts on festival practice, Torah study, mystical communities, meditation, exorcism, the practice of charity, and folk rites marking birth and death. Representing state-of-the-art scholarship by distinguished academics from around the world, the volume includes many materials never before translated into English. Each text is preceded by an accessible introduction, making this book suitable for college and university students as well as a general audience. Whether read as a deliberate course of study or dipped into selectively for a glimpse into fascinating Jewish lives and places, *Judaism in Practice* holds rich rewards for any reader.

*Western Views of Islam in Medieval and Early Modern Europe* - M. Frassetto 1999-12-09  
*Western Views of Islam in Medieval and Early Modern Europe* considers the various attitudes

of European religious and secular writers towards Islam during the Middle Ages and Early Modern Period. Examining works from England, France, Italy, the Holy Lands, and Spain, the essays in this volume explore the reactions of Westerners to the culture and religion of Islam. Many of the works studied reveal the hostility toward Islam of Europeans and the creation of negative stereotypes of Muslims by Western writers. These essays also reveal attempts at accommodation and understanding that stand in contrast to the prevailing hostility that existed then and, in some ways, exists still today.

The Modern Origins of the Early Middle Ages - Ian Wood 2013-09-27

The Early Middle Ages, which marked the end of the Roman Empire and the creation of the kingdoms of Western Europe, was a period central to the formation of modern Europe. This period has often been drawn into a series of discourses that are more concerned with the eighteenth, nineteenth, and twentieth centuries than with the distant past. In *The Modern Origins of the Early Middle Ages*, Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society. Using historical records and writings about the Fall of Rome and

the Early Middle Ages, Wood reveals how these influenced modern Europe and the way in which the continent thought about itself. He asks, and answers, the important question: why is early-medieval history, or indeed any pre-modern history, important? This volume promises to add to the debate on the significance of medieval history in the modern world.

*World History and Geography* - California. Dept. of Education 1994-01-01

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

*Theories of Perception in Medieval and Early Modern Philosophy* - Simo Knuuttila 2008-03-27

This is the first extensive account of philosophical psychology of perception from ancient to early modern times. The book aims to shed light on the developments in the theories of sense-perception in medieval Arabic and Latin philosophy, their ancient background and traditional and new themes in early modern thought. Particular attention is paid to the philosophically significant parts of the theories. The articles concentrate on the so-called external senses and related themes.

**Early Modern Europe** - Euan Cameron

2001-02-15

'Early Modern' is a term applied to the period which falls between the end of the middle ages and the beginning of the nineteenth century.

This book provides a comprehensive introduction to Europe in this period, exploring the changes and transitions involved in the move towards modernity. Nine newly commissioned chapters under the careful editorship of Euan Cameron cover social, political, economic, and cultural perspectives, all contributing to a full and vibrant picture of Europe during this time. The chapters are organized thematically, and consider the evolving European economy and society, the impact of new ideas on religion, and the emergence of modern political attitudes and techniques. The text is complemented with many illustrations throughout to give a feel of the changes in life beyond the raw historical data.
