Judith S. Kaye in Her Own Words - Judith S.
Kaye 2019-06-01

An autobiography and selected writings by the former Chief Judge of New York's highest court, the Court of Appeals. In 1983, Judith S. Kaye (1938–2016) became the first woman appointed to the Court of Appeals, New York's highest court. Ten years later, she became the first woman to be appointed chief judge of the court, and by the time she retired, in 2008, she was the longest-serving chief judge in the court's history. During her long career, she distinguished herself as a lawyer, jurist, reformer, mentor, and

colleague, as well as a wife and mother. Bringing together Kaye's own autobiography, completed shortly before her death, as well as selected judicial opinions, articles, and speeches, Judith S. Kaye in Her Own Words makes clear why she left such an enduring mark upon the court, the nation, and all who knew her. The first section of the book, Kaye's memoir, focuses primarily on her years on the Court of Appeals, the inner workings of the court, and the challenges she faced, as chief judge, in managing a court system populated by hundreds of judges and thousands of employees. The second section, a carefully chosen selection of her written opinions (and occasional dissents), reveals how she guided the law in New York State for almost a quarter century with uncommon vision and humanity. Her decisions cover every facet of New York and federal law and have often been quoted and followed nationally. The final section of the book includes selections from her numerous articles and speeches, which cover the

field, from common law jurisprudence to commercial law to constitutional analysis, all with an eye to the future and, above all, how the law can best affect the everyday lives of people who come to court—willingly or unwillingly—including, not least, those most in need of the law. BACK FLAP “Judith Kaye was one of the most admired judges in the nation—and a wonderful, real, often funny person as well. This collection captures the full range of the judge and the woman, and it serves as a great reminder of her enduring legacy.” — Jeffrey Toobin “An extraordinary woman, jurist, and leader who had a striking impact on the law and the administration of justice in New York State and beyond. This collection is more than a simple record of a remarkable life. It is a treasure—not only for those of us who knew and admired Judith but for all who may seek to understand and appreciate the profound impact she had on the law, the legal profession, and the administration of justice.” — from the Foreword

Hang Time - Bob Greene 1993-12-15
Bob Greene shows us a side of Michael Jordan that doesn't make the sports page...the inside. Journalist and bestselling author Bob Greene stepped into Michael Jordan's world just as Jordan was reaching the apex of his talent and his fame. With Greene, Jordan let down his guard. In an extraordinary book that transcends sports biography, Greene takes the reader along with Jordan over two seasons with the Chicago Bulls, during glorious championship surges and trying personal moments. With rare insight, Greene reveals the person inside the icon: a man who makes millions but cannot go for a quiet

walk around the block without getting mobbed, a man who competes ferociously on the court, but who performs some of his most remarkable and unexpected feats away from the limelight.

Drawn from inside Michael Jordan's daily life, rich with the sound of Jordan's own voice, Hang Time is a startlingly candid and intimate story of time spent with a champion, and of the growing friendship between two men.

"High Yellow" Just Ain'T "High Enough" - David Rice 2017-10-26

Marilyn Warner looked exactly like the beautiful young white woman that she wanted to be; however, the genetic contamination that flowed through her veins of her fathers cursed blackness had caused Marilyn to come into this world a high yellow female as were her female

siblings, which also included an effeminate brother, although they were all to a lesser degree of whiteness than their older sister, Marilyn. Although the siblings were still quite often mistaken as being of the white race, it was not as quickly as Marilyn. This is what changed the entire direction of Marilyn's life forever and turned her into the monster that she was.

Risk Assessment for Juvenile Violent

Offending - Anna Costanza Baldry 2012-12-12

This volume is the result of an EU project involving two different European countries (Italy and Cyprus) on risk and needs assessment for juvenile violent offenders. The book is based on a longitudinal data base of juveniles who have committed violent crimes and who have been

followed up after six months to measure their recidivism rate. The aim of this book is to provide practitioners who are dealing with juvenile (violent) offenders, with scientifically-based theories and knowledge derived from results about risk assessment. In particular it shows how a newly developed and tested instrument/approach, the EARN (European Assessment of Risk and Needs) works and how it can be used to help practitioners. Recidivism of violence in juveniles is based on several risk factors and is reduced on the basis of protective factors. Efficient legal intervention and treatment are more and more tailored according to the risk factors but also to the needs of juveniles. Juvenile Justice Systems in Europe tend to approach the juvenile who has committed a crime not only from a sanction point of view but more as an opportunity for the juvenile, his or her family and the social context in general, to reduce the risk of recidivism. This book will be of interest to researchers, students,

social workers, police officers and lawyers.

The Rehab Regression - nappy version -

Barry Oliver 2021-03-01

What is the price of starting life over again? For college student, Toby, starting over will cost him everything. At just nineteen, Toby's new life is about to begin. After a near-fatal overdose, he found himself kicked out of school and facing either jail or drug rehabilitation. Now, more than ever, he needs a do-over. A special drug rehabilitation center called Forever Free just might be able to help. This special program promises to make its clients "forever free" from their addiction to drugs and alcohol. However, this treatment comes at quite a price as Toby learns, when he is given his new start on life - quite literally! He finds himself transformed into a young child, a toddler living at a daycare center, with no memory of how they did it, or how to return to his adult life. As he struggles to keep his mind from sliding into early childhood along with his body, Toby discovers something

surprising. Life in nappies isn't all that bad. He makes new friends, and discovers he is surrounded by people who actually care about him - something denied him during his first pass through life. Toby must make a choice. Either try to get back to his old life with all its failures, or remain a child surrounded by people who love him. Which would you choose? For those who feel their infantilism touches something deep and alive inside, this story is for you. Beyond the diapers, early childhood is about a world filled with new relationships and vivid experiences. What matters most in Toby's world, turns out to not be the material stuff after all. You are invited to walk through the regression chamber at Forever Free, step into the world of Buttons and Blocks Daycare, and experience for yourself - through the eyes of Toby - the transforming power of really starting over.

Innovative Approaches in the Treatment of Drug Abuse - James A. Inciardi 1993

What works best and why in the nation's effort

to improve and expand treatment counteracting the epidemic use of cocaine and the spread of AIDS? This in-depth report by experts on drug abuse treatment today represents the state of the art in research about effective new strategies in drug abuse treatment. The findings, analysis, and recommendations should counteract misunderstanding and misinformation about the nature of drug abuse among 5.5 million patients and what can be done to help them. The survey covers methadone programs, residential programs, case management programs, and multi-modal and other eclectic programs addressing "real world" situations among different populations in a range of community-based programs. Investigators at the National Institute on Drug Abuse describe 15 projects that test intervention strategies to improve client recruitment, retention, performance, and treatment outcomes.

Take Me Home - Jill Duerr Berrick 2009

There is a profound crisis in the United States' foster care system, Jill Duerr Berrick writes. No state has passed the federally mandated Child and Family Service Review; two-thirds of the state systems have faced class-action lawsuits demanding change; well over half of all children who enter foster care never go home.

Muni Court - Robert Bluth 2009

While most people will never be charged with a serious crime, either you or someone you know has appeared in a Municipal Court. Municipal Court is usually a city court that handles traffic

tickets, lots of traffic tickets, and ordinance violations such as accumulation of trash, and neighbor issues such as trespass and barking dogs. Fines are imposed on the guilty. Those who work there refer to it as "Muni Court." This court should not be confused with the television courtroom shows where two people ask a judge to resolve an issue that usually requires payment of money to one or the other of the participants, those are small claims courts. The patrons of Municipal Court are ordinary citizens who usually appear without the benefit of an attorney and provide their own defense in a forum with which they are not familiar. A few do very well in their own defense. Most simply want to get the matter behind them. But some provide a fascinating display of human ingenuity, ineptness, self rationalization and much unintended humor. Muni Court shares a few of author Bluth's experiences as a muni court judge in two rural communities.

Juvenile Delinquency - Kirk Heilbrun

2005-03-17

Juvenile offending and anti-social behavior are enormous societal concerns. This broad-reaching volume summarizes the current evidence on prevention, diversion, causes, and rates of delinquency, as well as assessment of risk and intervention needs. A distinguished cast of contributors from law, psychology, and psychiatry describe what we know about interventions in school, community, and residential contexts, focusing particularly on interventions that are risk reducing and cost effective. Equally important, each chapter comments on what is not well supported through research, distinguishing aspects of current practice that are likely to be effective from those that are not and mapping new directions for research, policy, and practice. Finally, the volume provides a description of a model curriculum for training legal and mental health professionals on conducting relevant assessments of adolescents for the courts.

Effectively bridging research and practice, this will be an important resource for legal and mental health professionals involved in the juvenile justice system, policy makers seeking humane but effective interventions in the context of society's need for safety, and those involved in teaching about and training in juvenile delinquency.
