High Fidelity News and Record Review - 1999

*Anselm Kiefer* - Robin Vousden 2019

The first site-specific outdoor public sculpture ever to be commissioned for the United States from Anselm Kiefer (b. 1945) was unveiled in 2019 at the top of Rockefeller Center's Channel Gardens, facing Fifth Avenue. Titled 'Uraeus', the work consists of a gigantic open book with eagle's wings 30 feet in span, both made of lead, on top of a 20-foot-tall lead-clad stainless steel column. Clustered around the base of the column are further outsize lead books, while a large snake coils up the column. Lead is one of the artist's preferred materials for its soft, fluid properties traditionally associated with

alchemical transformation, especially its second stage: dissolution. In Kiefer's mind alchemy is a symbol for the artist you have to destroy and then recreate. Uraeus extends his vocabulary of striking mythic forms, presented at an arresting new scale. It explores longtime motifs in his work that, in this context and contemporary moment, resonate in powerful new ways. Kiefer is the most prominent German artist of the generation born in or shortly after World War II, a figure of international standing who was recently awarded the J. Paul Getty Medal (2017).

As Franz struggles to survive in this world, fate teases him with a little pleasure before cruelly turning on him. Foreword by Alexander Stephan Translated by Eugene Jolas>

Aztlán Arizona - Darius V. Echeverría 2014-03-27

Aztlán Arizona is a history of the Chicano Movement in Arizona in the 1960s and 1970s. Focusing on community and student activism in Phoenix and Tucson, Darius V. Echeverría ties the Arizona events to the larger Chicano and civil rights movements against the backdrop of broad societal shifts that occurred throughout the country. Arizona's unique role in the movement came from its (public) schools, which were the primary source of Chicano activism against the inequities in the judicial, social, economic, medical, political, and educational arenas. The word Aztlán, originally meaning the legendary ancestral home of the Nahua peoples of Mesoamerica, was adopted as a symbol of independence by Chicano/a activists during the movement of the 1960s and 1970s. In an era when poverty, prejudice, and considerable oppositional forces blighted the lives of roughly one-fifth of Arizonans, the author argues that understanding those societal realities is

essential to defining the rise and power of the Chicano Movement. The book illustrates how Mexican American communities fostered a togetherness that ultimately modified larger Arizona society by revamping the educational history of the region. The concluding chapter outlines key Mexican American individuals and organizations that became politically active in order to address Chicano educational concerns. This Chicano unity, reflected in student, parent, and community leadership organizations, helped break barriers, dispel the Mexican American inferiority concept, and create educational change that benefited all Arizonans. No other scholar has examined the emergence of Chicano Movement politics and its related school reform efforts in Arizona. Echeverría's thorough research, rich in scope and interpretation, is coupled with detailed and exact endnotes. The book helps readers understand the issues surrounding the Chicano Movement educational reform and ethnic identity. Equally important,

the author shows how residual effects of these dynamics are still pertinent today in places such as Tucson.

This interdisciplinary text can serve as a primary or supplemental reading in undergraduate or graduate courses which focus on gender, pop culture, feminist theory or media studies. "This excellent anthology grounds feminism as articulated through four waves and features feminists responding to pop culture, while recognizing that popular culture has responded in complicated ways to feminisms. Contributors proffer lucid and engaging critiques of topics ranging from belly dancing through *Fifty Shades of Grey*, *Scandal* and *Orange is the New Black*. This book is a good read as well as an excellent text to enliven and inform in the classroom." Dr. Jane Caputi Professor of Women, Gender and Sexuality Studies and Communication & Multimedia at Florida Atlantic University "Feminist Theory and Pop Culture is destined to be as popular as the culture it critiques. *Judy* - Damien Lewis 2014-12-02

British bestselling author Damien Lewis is an award-winning journalist who has spent twenty years reporting from war, disaster, and conflict zones. Now Lewis brings his first-rate narrative skills to bear on the inspiring tale of Judy--an English pointer who perhaps was the only canine prisoner of war. After being bombed and shipwrecked repeatedly while serving for several wild and war-torn years as a mascot of the World War II Royal Navy Yangtze river gunboats the Gnat and the Grasshopper, Judy ended up in

Japanese prisoner of war camps in North Sumatra. Along with locals as slave labor, the American, Australian, and British POWs were forced to build a 1,200-mile single-track railroad through the most horrifying jungles and treacherous mountain passes. Like the one immortalized in the film *The Bridge on the River Kwai*, this was the other death-railroad building project where POWs slaved under subhuman conditions. In the midst of this living hell was a beautiful and regal-looking liver and white English pointer named Judy. Whether she was scavenging food to help feed the starving inmates of a hellish Japanese POW camp, or by her presence alone bringing inspiration and hope to men, she was cherished and adored by the Allied servicemen who fought to survive alongside her. Judy's uncanny ability to sense danger, matched with her quick thinking and impossible daring saved countless lives. More than a close companion she shared in both the men's tragedies and joys. It was in recognition of

the extraordinary friendship and protection she offered amidst the unforgiving and savage environment of a Japanese prison camp in Indonesia that she gained her formal status as a POW. From the author of *The Dog Who Could Fly* and the co-author of *Sergeant Rex* and *It's All About Treo* comes one of the most heartwarming and inspiring tales you will ever read.

*Shelby and AC Cobra* - Brian Laban 2015-08-31  
In the new edition of this classic text, Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with

lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing 'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving these powerful, iconic cars today. Fully

illustrated with 250 archive colour photographs. *Lotus Seven and the Independents* - Dennis Ortenburger 2004

The life and times of this "four wheeled motorbike," from it's development to the present day. This book details for the first time the many 'Seven' derivatives that have been manufactured all over the world. A fascinating read. A must for all enthusiasts.
