Angelbound (Angelbound Origins #1) - Christina Bauer 2018-08-22

Eighteen year old Myla Lewis is a girl who loves two things: kicking ass and kicking ass. She's not your every day quasi-demon, half-demon and half-human, girl. For the past five years, Myla has lived for the days she gets to fight in Purgatory's arena. When souls want a trial by combat for their right to enter heaven or hell, they go up against her, and she hasn't lost a battle yet. But as she starts her senior year at Purgatory High, the arena fights aren't enough to keep her spirits up anymore. When the demons start to act weird, even for demons, and the King of the Demons, Armageddon, shows up at Myla's school, she knows that things are changing and it's not looking good for the quasi-demons. Myla starts to question everything, and doesn't like the answers she finds. What happened seventeen years ago that turned the quasi-demons into slave labor? Why was her mom always so sad? And why won't anyone tell her who her father is? Things heat up when Myla meets Lincoln, the High Prince of the Thrax, a super sexy half-human and half-angel demon hunter. But what's a quasi-demon girl to do when she falls for a demon hunter? It's a good thing that Myla's not afraid of breaking a few rules. With a love worth fighting for, Myla's going to shake up Purgatory.

A Thesaurus of English Word Roots - Horace Gerald Danner 2014-03-27

Horace G. Danner's *A Thesaurus of English Word Roots* is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odyacusis.. In this manner, *A Thesaurus of English Word Roots* places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

The Creative Mind - Margaret A. Boden 1992

Ancient Civilizations of Africa - G. Mokhtar 1981-01-01

Deals with the period beginning at the close of the Neolithic era, from around the eighth millennium before our era. This period of some 9,000 years of history has been sub-divided into four major geographical zones, following the pattern of African historical research. Chapters 1 to 12 cover the corridor of the Nile, Egypt and Nubia. Chapters 13 to 16 relate to the Ethiopian highlands. Chapters 17 to 20 describe the part of Africa later called the Maghrib and its Saharan hinterland. Chapters 21 to 29, the rest of Africa as well

as some of the islands of the Indian Ocean.--Publisher's description

Red, White & Royal Blue - Casey McQuiston 2019-05-14

* Instant NEW YORK TIMES and USA TODAY bestseller * * GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instragramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with

a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine through? Casey McQuiston's *Red, White & Royal Blue* proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience *Red, White & Royal Blue* for the first time!" - Christina Lauren, New York Times bestselling author of *The Unhoneymooners* "*Red, White & Royal Blue* is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, New York Times bestselling author of *Daisy Jones & The Six*

The Scarlet Deep - Elizabeth Hunter 2015-07-02

On the waves of the North Atlantic, a poison spreads, sapping the life from humans and striking madness into immortals. Patrick Murphy, the immortal leader of Dublin, has been trying to stem the tide of Elixir washing into his territory, but nothing seems to stop the vampire drug. While others in the immortal world work to cure the creeping insanity that Elixir brings, Murphy has been invited to London to join a summit of leaders hoping to discover who is shipping the drug. Anne O'Dea, Murphy's former lover, retreated from public life over one hundred years ago to help immortals in need... and to heal her own broken heart. Though powerful connections keep her insulated from the violence of vampire politics, even Anne is starting to feel the effects of Elixir in her isolated world. The human blood supply has been tainted, and with Anne's unique needs, even those closest to her might be in danger. Not just from infection, but from Anne's escalating bloodlust. When Anne and Murphy are both called to London, they're forced to confront a connection as immortal as they are. While they search for a traitor among allies, they must also come to terms with their past. Behind the safe facade of politics, old hungers still burn, even as an ancient power threatens the fate of the Elemental World."

Podcasting - Dario Llinares 2018-07-24

Podcasting: New Aural Cultures and Digital Media is the first comprehensive interdisciplinary collection of academic research exploring the definition, status, practices and implications of podcasting through a Media and Cultural Studies lens. By bringing together research from experienced and early career academics alongside audio and creative practitioners, the chapters in this volume span a range of approaches in a timely reaction to podcasting's zeitgeist moment. In conceptualizing the podcast, the contributors examine its liminal status between the mechanics of 'old' and 'new' media and between differing production contexts, in addition to podcasting's reliance on mainstream industrial structures whilst retaining an alternative, even outsider, sensibility. In the present tumult of online media discourse, the contributors frame podcasting as indicative of a 'new aural culture' emerging from an identifiable set of industrial, technological and cultural circumstances. The analyses in this collection offer a range of interpretations which begin to open avenues for further research into a distinct Podcast Studies.

Made to Stick - Chip Heath 2007-01-02

NEW YORK TIMES BESTSELLER • The instant classic about why some ideas thrive, why others die, and how to make your ideas stick. "Anyone interested in influencing others—to buy, to vote, to learn, to diet, to give to charity or to start a revolution—can learn from this book."—The Washington Post Mark Twain once observed, "A lie can get halfway around the world before the truth can even get its boots on." His observation rings true: Urban legends, conspiracy theories, and bogus news stories circulate effortlessly. Meanwhile, people with important ideas—entrepreneurs, teachers, politicians, and journalists—struggle to make them "stick." In *Made to Stick*, Chip and Dan Heath reveal the anatomy of ideas that stick and explain ways to make ideas stickier, such as applying the human scale principle, using the Velcro Theory of Memory, and creating curiosity gaps. Along the way, we discover that sticky messages of all kinds—from the infamous "kidney theft ring" hoax to a coach's lessons on sportsmanship to a vision for a new product at Sony—draw their power from the same six traits. *Made to Stick* will transform the way you communicate. It's a fast-paced tour of success stories (and failures): the Nobel Prize-winning scientist who drank a glass of bacteria to prove a point about stomach ulcers; the charities who make use of the Mother Teresa Effect; the elementary-school teacher whose simulation actually prevented racial prejudice. Provocative, eye-opening, and often surprisingly funny, *Made to Stick* shows us the vital principles of winning ideas—and

tells us how we can apply these rules to making our own messages stick.

Wrong - Lp Lovell 2015-06-02

Tor My life was mapped out and planned to perfection. I knew exactly what I wanted and where I was going, until I was thrust into his world and ripped from mine. In the blink of an eye everything shattered, proving to be nothing more than a cheap illusion. Now I'm living in this twisted form of hell, where enemies and friends are one and the same. I thought I wanted perfection. Now I don't know what I want - perhaps not even my own freedom. Jude I'm the definition of wrong. I'm violent, I'm greedy, and I stop at nothing to win. I'm a notorious bookie and in my game paying with your life is not just a figure of speech. You lose, I collect. I take whatever you have. She's collateral for a debt, and if that debt's not paid someone will die. This should be just business, so why can't I kill her? Everything is not always as it seems. Lust. Blood. Lies. Nothing this wrong should feel so right.

Moon Regardless - Nick Manzolillo 2021-03-10

It's no coincidence when your girlfriend, Tiffany, disappears at the allegedly haunted Miskatonic hotel in downtown Providence, but Hap, a recent college graduate (and videogame playing slacker), is the only one to put that together. As the most immature of amateur detectives, he signs on as the Miskatonic's newest bellhop to investigate her disappearance. Instead of ghosts, Hap discovers a cult that worships a cosmic entity called the Moon Shack. They run the hotel and half the city. Their order dates back hundreds of years to the dawn of modern civilization. Each and every last member is a murderer. In Hap's investigation to find Tiffany, he'll cross paths with a lethal vigilante known as The Eye Doctor, a rival cult that worships H.P. Lovecraft's Great Old Ones, and the scrutiny of former friends who think he killed Tiffany himself. Will Hap lose his humanity before his investigation is over? Worse, will Tiffany have lost hers by the time Hap comes to the rescue? In a world of serial killers and ancient gods, morality is trivial.

The Domain of Language - Michael D. Fortescue 2002

This book is intended as counter-evidence to the perception that Linguistics is a domain of dusty schoolroom grammar. It follows that linguistics can be characterised differently than as proponents of theoretical orientations who spend their brief breaks from their bone-dry work bashing each other over the head with their different favourite abstractions. The discipline may appear to outsiders as fragmented and - - worse still -- lacking in relevance to the real world outside its gates. This book demonstrates that Linguistics, in all its varied branches, can be entertaining as well as thought-provoking, and that its domain is indeed a coherent one despite all the internecine squabbling. In an unconventional way Michael Fortescue introduces his subject as a kind of fable with a historical moral that professional linguists, as well as students, should enjoy as a useful commentary on the state of the discipline today.

The Emperor of All Maladies - Siddhartha Mukherjee 2011-08-09

An assessment of cancer addresses both the courageous battles against the disease and the misperceptions and hubris that have compromised modern understandings, providing coverage of such topics as ancient-world surgeries and the development of present-day treatments. Reprint. Best-selling winner of the Pulitzer Prize. Includes reading-group guide.

To the Lighthouse - Virginia Woolf 2019-05-04

To the Lighthouse (5 May 1927) is a novel by Virginia Woolf. A landmark novel of high modernism, the text, centering on the Ramsay family and their visits to the Isle of Skye in Scotland between 1910 and 1920, skillfully manipulates temporality and psychological exploration. *To the Lighthouse* follows and extends the tradition of modernist novelists like Marcel Proust and James Joyce, where the plot is secondary to philosophical introspection, and the prose can be...

The Experience of Nature - Rachel Kaplan 1989-07-28

Doms of Submission - Bree Bellucci 2013-03-21

After a lifetime roughing it in the bayou, Lisette is finally living her dream in New Orleans. But when a terrible accident befalls her during Mardi Gras, she finds herself whisked into a dark world of twisted sexual fantasies and unthinkable ugliness. Who is her mysterious captor, and how much of his sadistic erotic experimentation can she take? Lisette finds herself in a world of confusion, pain, and desire when she awakes from her troubled sleep. Terror floods through her veins when she realizes that she's locked in a sex dungeon. Her fate now lies in the hands of something not quite human, a strong, beautiful man... with an unforgiving dark side. Her mind is awash with feelings of fear and despair but as she learns more about the mysterious man a secret part of her wants to be pushed to the edge, she wants him to test the limits of what her body and mind can withstand. When a dangerous force threatens Lisette, Andrew feels helpless to keep her safe. But with the help of a powerful outside force, he is finally able to overcome the beast. But will his transformation come in time to save Lisette? The monster has already had his way with her delicate human body... Doms of Submission is a thrilling erotic romance Novel full of explicit scenes of sexual depravity, rough sex and BDSM. Join Lisette in this world of sex-crazed shifters, strong, commanding, dominant male lovers. Read on for a small taste of what's inside: This time Lisette spit out a "Yes, Master!" and licked her lips, tasting herself. She wanted to spit on him, but she knew that she was in no position to become rebellious now. It did occur to her that someday she might have an opportunity to turn the tables on this man, and how much she would enjoy that day. Joseph loved every minute he had punishing this uppity broad. What he really loved was that he had gotten her permission to dominate her. Once again he gripped the flogger. Only this time, he began to use the handle to tease her pussy. He never tried to enter her with it, but ran its hard leather handle through her dripping slit. The swollen flesh was beautiful to him. He watched her face as he continued the tease, but if she were receiving any pleasure she was not showing it to him. He wanted her to react. He pulled the handle away and began to explore the hot wet folds with his fingers. As he found her clit, he began to knead it with his thumb and forefinger, then slid two fingers inside of her. This did elicit a response from her, which made him desire more. "So, the filthy slut likes to be finger fucked," he snorted, and continued to push his fingers farther up in her canal. Within seconds she spewed a stream of fluid that ran down her legs. While the achievement of his efforts filled him with confidence and satisfaction, his response to her was one of disgust. "Now look at the mess you made, bitch. You should be ashamed of yourself." He drew back and began to flog her again and again. He had become so involved with his punishment that he no longer was being careful with the intensity of his strikes and the size of the welts he was raising on her body. He also had become deaf to the volume and intensity of her cries and screams. Lisette was unable to control the cries and screams wrenched from her by the constant sting of the flogger. Each time the leather tentacles struck her tender flesh, they burned her more than the last. Finally, she bravely shouted at Joseph that he had to stop. He was so shocked by her plea that he held the flogger back, looking at her in disbelief. "Did you speak to me, bitch?" he asked incredulously. "Did you forget how you should address me?" "Master... please don't stop," She whispered to him.

Limited by Body Habitus: an American Fat Story - Jennifer Renee Blevins 2019-09-15

Jennifer Renee Blevins's debut memoir, Limited by Body Habitus: An American Fat Story, sheds light on her experiences living with the emotional and psychological struggles of taking up space in a fat-phobic world. Bringing together experiences of personal and national trauma, Blevins adeptly weaves the tale of her father's prolonged personal health crisis and gastric bypass surgery with the environmental catastrophe of the Deepwater Horizon oil spill. Blevins looks to each of these events as a "leak" of American society's pitfalls and shortcomings. These intertwined narratives, both disasters that could have been avoided, reveal points of failure in our systems of healthcare and environmental conservation. Incorporating pieces from her life, such as medical transcripts and quotes from news programs, Blevins composes a mosaic of our modern anxieties. Even through despair, she finds hope in mending broken relationships and shows us how

we can flourish as individuals and as a nation despite our struggles. Fierce and haunting, this memoir creates a space of narrative through body, selfhood, family, and country.

Trick Mirror - Jia Tolentino 2019-08-06

NEW YORK TIMES BESTSELLER • “From The New Yorker’s beloved cultural critic comes a bold, unflinching collection of essays about self-deception, examining everything from scammer culture to reality television.”—Esquire Book Club Pick for Now Read This, from PBS NewsHour and The New York Times • “A whip-smart, challenging book.”—Zadie Smith • “Jia Tolentino could be the Joan Didion of our time.”—Vulture FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE’S JOHN LEONARD PRIZE FOR BEST FIRST BOOK • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK PUBLIC LIBRARY AND HARVARD CRIMSON AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Time • Chicago Tribune • The Washington Post • NPR • Variety • Esquire • Vox • Elle • Glamour • GQ • Good Housekeeping • The Paris Review • Paste • Town & Country • BookPage • Kirkus Reviews • BookRiot • Shelf Awareness Jia Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine’s journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino’s sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY

Mindstorms - Seymour A. Papert 2020-10-06

In this revolutionary book, a renowned computer scientist explains the importance of teaching children the basics of computing and how it can prepare them to succeed in the ever-evolving tech world. Computers have completely changed the way we teach children. We have Mindstorms to thank for that. In this book, pioneering computer scientist Seymour Papert uses the invention of LOGO, the first child-friendly programming language, to make the case for the value of teaching children with computers. Papert argues that children are more than capable of mastering computers, and that teaching computational processes like de-bugging in the classroom can change the way we learn everything else. He also shows that schools saturated with technology can actually improve socialization and interaction among students and between students and teachers. Technology changes every day, but the basic ways that computers can help us learn remain. For thousands of teachers and parents who have sought creative ways to help children learn with computers, Mindstorms is their bible.

Dragon Bound - Thea Harrison 2011-05-03

THE FIRST NOVEL IN THE NEW YORK TIMES BESTSELLING ELDER RACES SERIES! Half-human and half-wyr, Pia Giovanni spent her life keeping a low profile among the wyrkind and avoiding the continuing conflict between them and their Dark Fae enemies. But after being blackmailed into stealing a coin from the hoard of a dragon, Pia finds herself targeted by one of the most powerful—and passionate—of the Elder races. As the most feared and respected of the wyrkind, Dragos Cuelebre cannot believe someone had the audacity to steal from him, much less succeed. And when he catches the thief, Dragos spares her life, claiming her as his own to further explore the desire they’ve ignited in each other. Pia knows she must repay Dragos for her trespass, but refuses to become his slave—although she cannot deny wanting him, body and soul...

Signs and Symbols - Adrian Frutiger 1998

Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks

Health Communication - Claudia Parvanta 2018-08-29

Health Communication: Strategies and Skills for a New Era provides a practical process model for developing a health communication intervention. The book also explores exposure to media and how it shapes our conceptions of health and illness. Using a life stages and environments approach, the book touches on the patient role and how we 'hear' information from health care providers as well as guidance on how to be a thoughtful consumer of health information.

Sexual Personae - Camille Paglia 1991-08-20

The fiery, provocative, and unparalleled work of feminist art criticism that launched the exceptional career of one of our most important public intellectuals—"a remarkable book, at once outrageous and compelling, fanatical and brilliant.... One must be awed by [Paglia's] vast energy, erudition and wit" (The Washington Post). Is Emily Dickinson “the female Sade”? Is Donatello’s David a bit of pedophile pornography? What is the secret kinship between Byron and Elvis Presley, between Medusa and Madonna? How do liberals and feminists—as well as conservatives—fatally misread human nature? This audacious and omnivorously learned work of guerrilla scholarship offers nothing less than a unified-field theory of Western culture, high and low, since Egyptians invented beauty—making a persuasive case for all art as a pagan battleground between male and female, form and chaos, civilization and daemonic nature. With 47 photographs.

I Married a Bear - A. T. Mitchell 2014-05-20

SOME HEARTS ARE MEANT TO BE, EVEN IF THEY DON'T KNOW IT YET... He's the big bad Alpha husband she never wanted. She's a sharp tongued tigress with really dangerous curves. Laura Hisch can't believe she's marrying him. Him! She's not cut out for the brutish, tough talking, tattooed head of the Denali werebear clan. If only she wasn't bound by a pesky old treaty with an arranged marriage clause... One look at the voluptuous lady from Tiger Bay drives James Roark insane. Obsession, passion, and hunger only have one cure. He's got to make the sweet stubborn werecat at the altar his wife for real. If only he knew marriage is just a ruse for her real mission. Get close to him, find his weakness, and then give Tiger Bay everything it needs to drive the bears away once and for all. Easy, right? Wrong. Yielding her heart to this bad boy means betrayal, and either James or her clan are going to pay big time. Will James turn a sham marriage into something beautiful - or will loving Laura lead to all out war? And if that's not complicated enough, there's a jealous female werebear standing by to make sure these fated mates never become one.

Data for the People - Andreas Weigend 2017-01-31

A long-time chief data scientist at Amazon shows how open data can make everyone, not just corporations, richer Every time we Google something, Facebook someone, Uber somewhere, or even just turn on a light, we create data that businesses collect and use to make decisions about us. In many ways this has improved our lives, yet, we as individuals do not benefit from this wealth of data as much as we could. Moreover, whether it is a bank evaluating our credit worthiness, an insurance company determining our risk level, or a potential employer deciding whether we get a job, it is likely that this data will be used against us rather than for us. In Data for the People, Andreas Weigend draws on his years as a consultant for commerce, education, healthcare, travel and finance companies to outline how Big Data can work better for all of us. As of today, how much we benefit from Big Data depends on how closely the interests of big companies align with our own. Too often, outdated standards of control and privacy force us into unfair contracts with data companies, but it doesn't have to be this way. Weigend makes a powerful argument that we need to take control of how our data is used to actually make it work for us. Only then can we the people get back more from Big Data than we give it. Big Data is here to stay. Now is the time to find out how we can be empowered by it.

Harry Potter and the Prisoner of Azkaban - J.K. Rowling 2015-12-08

'Welcome to the Knight Bus, emergency transport for the stranded witch or wizard. Just stick out your wand hand, step on board and we can take you anywhere you want to go.' When the Knight Bus crashes through the darkness and screeches to a halt in front of him, it's the start of another far from ordinary year at Hogwarts for Harry Potter. Sirius Black, escaped mass-murderer and follower of Lord Voldemort, is on the run - and they say he is coming after Harry. In his first ever Divination class, Professor Trelawney sees an omen of death in Harry's tea leaves... But perhaps most terrifying of all are the Dementors patrolling the school grounds, with their soul-sucking kiss... Having become classics of our time, the Harry Potter eBooks never fail to bring comfort and escapism. With their message of hope, belonging and the enduring power of truth and love, the story of the Boy Who Lived continues to delight generations of new readers.

Wandering Significance - Mark Wilson 2008

"Mark Wilson presents a highly original and broad-ranging investigation of the way we get to grips with the world conceptually, and the way that philosophical problems commonly arise from this. He combines traditional philosophical concerns about human conceptual thinking with illuminating data derived from a large variety of fields including physics and applied mathematics, cognitive psychology, and linguistics. *Wandering Significance* offers abundant new insights and perspectives for philosophers of language, mind, and science, and will also reward the interest of psychologists, linguists, and anyone curious about the

mysterious ways in which useful language obtains its practical applicability."--Publisher's description.
