Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other

factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points

forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

*The Shadow of the Sun* -

Ryszard Kapuscinski

2011-05-25

A moving portrait of Africa from Poland's most celebrated foreign correspondent - a masterpiece from a modern master. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. *The Shadow of the Sun* sums up the author's experiences ("the record of a 40-year marriage") in this place

that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work.

is back in town after spending the summer "upstate." No one believes his story about visiting his aunt, and it's pretty clear that he has something to hide. It's also pretty clear that his mom made a new friend while he was away---a rescued Rottweiler that JD immediately renames Johnny Rotten (yes, after that guy in the Sex Pistols). Both tough but damaged, JD and Johnny slowly learn to trust each other, but their newfound bond is threatened by a treacherous friend and one snap of Johnny's powerful jaws. As the secrets JD has tried so hard to keep under wraps start to unravel, he suddenly has something much bigger to worry about: saving his dog. **Anger is an Energy: My Life Uncensored** - John Lydon  
2014-10-09

John Lydon has secured prime position as one of the most recognizable icons in the annals of music history. As Johnny Rotten, he was the lead singer of the Sex Pistols - the world's most notorious band, who shot to fame in the mid-1970s with singles such as 'Anarchy in the UK' and 'God Save the Queen'. So revolutionary was his influence, he was even discussed in the Houses of Parliament, under the Traitors and Treasons Act, which still carries the death penalty. Via his music and invective he spearheaded a generation of young people across the world who were clamouring for change - and found it in the style and attitude of this most unlikely figurehead. With his next band, Public Image Ltd (PiL) Lydon expressed an

equally urgent impulse in his make-up - the constant need to reinvent himself, to keep moving. From their beginnings in 1978 he set the groundbreaking template for a band that continues to challenge and thrive in the 2010s. He also found time for making innovative new dance records with the likes of Afrika Baambaata and Leftfield. Following the release of a solo record in 1997, John took a sabbatical from his music career into other media, most memorably his own Rotten TV show for VH1 and as the most outrageous contestant ever on I'm a Celebrity.... Get Me Out of Here! He then fronted the Megabugsseries and one-off nature documentaries and even turned his hand to a series of much loved TV advertisements for Country Life butter. Lydon has remained a compelling and dynamic figure - both as a musician, and, thanks to his outspoken, controversial, yet always heartfelt and honest statements, as a cultural commentator. The book a fresh and mature look back on a life

full of incident from his beginnings as a sickly child of immigrant Irish parents who grew up in post-war London, to his present status as a vibrant, alternative national hero.

*Christendom Destroyed* - Mark Greengrass 2014-07-03

Mark Greengrass's gripping, major, original account of Europe in an era of tumultuous change This latest addition to the landmark Penguin History of Europe series is a fascinating study of 16th and 17th century Europe and the fundamental changes which led to the collapse of Christendom and established the geographical and political frameworks of Western Europe as we know it. From peasants to princes, no one was untouched by the spiritual and intellectual upheaval of this era. Martin Luther's challenge to church authority forced Christians to examine their beliefs in ways that shook the foundations of their religion. The subsequent divisions, fed by dynastic rivalries and military changes, fundamentally altered the

relations between ruler and ruled. Geographical and scientific discoveries challenged the unity of Christendom as a belief-community. Europe, with all its divisions, emerged instead as a geographical projection. It was reflected in the mirror of America, and refracted by the eclipse of Crusade in ambiguous relationships with the Ottomans and Orthodox Christianity. Chronicling these dramatic changes, Thomas More, Shakespeare, Montaigne and Cervantes created works which continue to resonate with us. Christendom Destroyed is a rich tapestry that fosters a deeper understanding of Europe's identity today.

[The Curious Enlightenment of Professor Caritat](#) - Steven Lukes 2022-05-31

A whirlwind tour through the utopias of modernity The Curious Enlightenment of Professor Caritat is a brilliant fictional excursion through Western political philosophy from one of our most original thinkers. Professor Caritat, a

middle-aged Candide, walks naively from his native land to the neighbouring countries of Utilitaria, Communitaria, and Libertaria on a quest to find the best of all possible worlds. Freed from the confines of his ivory tower, this wandering intellectual is made to confront the perplexed state of modern thinking in a dazzling comedy of ideas.

**The Venus Complex** - Barbie Wilde 2012-10-05

A man rises out of an abyss of frustration and rage and creates works of art out of destruction, goddesses out of mere dental hygienists and beauty out of death. It's also about the sickness and obsession that is LOVE. "After purposefully killing his wife in a car accident, art professor Michael Friday finds his perspective on things has become a little...warped. Via his personal journal, we're allowed into his mind to slowly watch the disintegration of it, bearing witness to his unnerving sexual cravings and ideas about killing: intertwined with the paintings he loves so

much. As Michael writes, he's 'turning into something dead'; but at the same time he wants to be somebody, not a nobody. Using his diary to rant against the world in general - including everything from banks to popular culture, from national holidays like Christmas to politics - he reveals more about the big, gaping hole in his own life. But as the novel goes on the first person narrative tensely builds up, displaying his dark dreams and innermost thoughts; his way of filling that void and presenting his grisly 'works of art' to the world. As intelligent and cultured as Hannibal, easily as disturbing as American Psycho and infinitely less reassuring than Dexter, this is a sexually-charged real life horror story that will definitely stay with you."

—review by Paul Kane, award-winning horror and fantasy writer Enter into Michael's world through the pages of his personal journal, where every diseased thought, disturbing dream, politically incorrect rant and sexually explicit

murder highlights his journey from zero to psycho. This setting provides the frame for Marlow's story of his obsession with the successful ivory trader Kurtz. Conrad offers parallels between London ("the greatest town on earth") and Africa as places of darkness.

[Future War and the Defence of Europe](#) - John R. Allen 2021

pandemic and way it will inevitably accelerate some key global dynamics already in play, the book goes on to weave history, strategy, policy, and technology into a compelling analytical narrative. It lays out in forensic detail the scale of the challenge Europeans and their allies face if Europe's peace is to be upheld in a transformative century. The book upends foundational assumptions about how Europe's defence is organised, the role of a fast-changing transatlantic relationship, NATO, the EU, and their constituent nation-states. At the heart of the book is a radical vision of a technology-enabling future European defence, built around a new kind of Atlantic Alliance, an innovative strategic public-private partnership, and the future hyper-electronic European force, E-Force, it must spawn. Europeans should be under no illusion: unless they do far more for their own defence, and very differently, all that they now take for granted could be lost in the

maze of hybrid war, cyber war, and hyper war they must face.

From the award-winning, internationally acclaimed writer ("One of the best novelists alive" —Irving Howe): a Jewish woman marries a gentile laborer in turn-of-the-century Austria, with disastrous results. A high school honor student bound for university and a career as a mathematician, Blanca lives with her parents in a small town in Austria in the early years of the twentieth century. At school one day she meets Adolf, who comes from a family of peasant laborers. Tall and sturdy, plainspoken and uncomplicated, Adolf is unlike anyone Blanca has ever met. And Adolf is awestruck by beautiful, brilliant Blanca—even though she is Jewish. When Blanca is asked by school administrators to tutor Adolf, the inevitable happens: they fall in love. And when Adolf asks her to marry him, Blanca

abandons her plans to attend university, converts to Christianity, and leaves her family, her friends, and her old life behind. Almost immediately, things begin to go horribly wrong. Told in a series of flashbacks as Blanca and her son flee from their town with the police in hot pursuit, the tragic story of Blanca's life with Adolf recalls a time and place that are no more but that powerfully reverberate in collective memory.

**Eagle Rising** - David Devereux  
2009-01-22

Jack's back! And this time he must face a terrifying supernatural threat from Europe's recent past. Someone has been mad enough to revive the most terrifying evil of the last 60 years. And only one man is bad enough to stop them. *Eagle Rising* takes Jack to the rotten heart of big business and the dark secrets of a neo-nazi magical sect intent on giving the world back to a terror from the darkest days of the 1940s. Jack must infiltrate the closed corridors of big business and reach the

core of a conspiracy amongst some of the most high-powered city executives in the country. A cabal of business men with occult interests and an insane hunger for the return of an old and dark order. Described as a mix of Dennis Wheatley and Ian Fleming Devereux lives up to the billing with his new novel. *The Rotten Heart of Europe* - Bernard Connolly 2013-01-17 'The Brussels Commission has just suspended its senior economist, Bernard Connolly, for writing a book savaging the prospects for a common currency. There are many who now believe he should be lauded as a prophet.' likely pitfalls of European monetary union. Bernard Connolly lost his job at the Commission, but his book was greeted as a profound and persuasive expose of the would-be 'monetary masters of the world.' His brave act of defiance became headline news - and his book a major international bestseller. In a substantial new introduction, Connolly returns to his prophetic account of the double-talk surrounding the efforts of politicians, bankers and bureaucrats to force Europe into a crippling monetary straitjacket. Hidden agendas are laid bare, skulduggery exposed and economic fallacies are skewered, producing a horrifying conclusion. No one who wants to understand the workings of the EU, past, present and future can afford to miss this enthralling and deeply disturbing book.

[You Always Hurt the One You Love](#) - Bernard Connolly  
2021-05-04

It is now a commonplace argument that capitalism is

under threat. But what is the underlying problem? This brilliant book by the bestselling author of *The Rotten Heart of Europe* argues that both capitalism's defenders and its detractors are wrong. The principal culprit is not the moral failure of individuals, nor structural failures in politics and society -- glaring though failures of both sorts have been. Instead, there has been a catastrophic intellectual failure. The academic macroeconomics industry and the central banks who are both patron and client of that industry are themselves in the process of destroying capitalism. In this epoch-defining book, internationally acclaimed economist Bernard Connolly argues that getting off the conveyor belt to destruction is possible, but it will require a profound reorientation of social structures and a whole new understanding of economics. 'Bernard Connolly is one of the five most prescient global financial strategists in the world today. Everything he

'There are plenty of books already out on the subject. Few are written or likely to be written by an economist with the depth of understanding of both the political and economic drivers of the shifting sands of the west as Bernard Connolly.'

Strengthening Forensic Science in the United States - National Research Council  
2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a

number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and

mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Super-state - Stephen Haseler 2005

"Europe's divergence from America, on issues like war with Iraq and trade competition, is becoming increasingly ill-tempered. With the Euro flourishing and a European defence force a real prospect, Europe is now a recognizable political entity on the world scene. A population of over 300 million and the world's largest economy have already turned the EU into a super-power, but it is now on the verge of being a super-state. Haseler examines why the new European super-state has emerged, how it will inevitably rival the USA and how the Americans are reacting to this new world player. Super-State explores what this new EU super-state

means for the citizens of Europe and their attitudes to America, looking specifically at how Eurosceptic Britain will fit into this new structure."--

Brussels Laid Bare - Marta Andreasen 2009

Marta Andreasen is an accountant who says the EU doesn't account for the money it disburses to the projects it approves and she has first hand evidence. She ought to have taken advice on the way her story is written but I cannot argue with the facts she presents. If we want to be ruled by a junta of spendthrift rogues everyone should know how they manage matters, if we don't, we may care to consider what we get out of this monstrous confidence trick. Neither of these alternatives will make you sleep better at nights and so I suppose her story will fall on deaf ears as bad news is never welcome. But you have to read this book if you are a European citizen, if only to discover why no-one knows where your money is going and who is

But behind the facade of a unified and globalized contemporary society, he finds a history-blasted wasteland, a place forever condemned by the ghosts of its unspeakable past. In the mountain village in the Balkans where his mother was born, he unearths ancient terrors that have not been laid to rest, and perhaps never can be.

her hind legs when I'm happy, and snuggled me when I'm lonely," here is the story of a bond unlike any other—and an extraordinary dog who stole her way into one man's heart. Los Angeles writer Michael Konik had always shared his life with dogs. But Ella, a gentle Lab mix, was something special. From the moment Konik laid eyes on Ella, he knew: This dog was meant to be his. An enchantress who charmed all who met her, Ella Guinevere Konik had a truly unique gift—and soon Konik found a way for Ella to share that gift, signing her up for a program that brings dogs into hospitals, nursing homes, and children's shelters. When Ella turned ten, Konik wanted to thank the "best friend" whose unconditional love had transformed his life—and given comfort and joy to others in need. So a trip to Europe was planned—and for Konik and Ella a once-in-a-lifetime adventure began, one that would strengthen the already-powerful bond between them. As they explore Europe's most

beautiful—and surprisingly dog-friendly—cities, Konik is amazed at the experiences he and Ella can share . . . Arriving in Vienna on July Fourth with Ella wrapped in her American flag scarf . . . Dining at four-star restaurants in Paris . . . Ella swimming in the Danube . . . Taking a gondola ride in Venice . . . Sunbathing in St. Tropez . . . Searching for a canine toilet in Monte Carlo. But soon this journey of friendship, love, and discovery must come to a close. And as Konik heads home, accompanied by the canine friend who "helped teach me what love means," one thing is certain: Both dog and owner have been changed forever. At once a testament to the power of unconditional love and a celebration of devotion, Ella in Europe is a book for anyone who has ever felt a special connection to a dog they've loved.

The Guns at Last Light - Rick Atkinson 2013-05-14

#1 NEW YORK TIMES

BESTSELLER The magnificent conclusion to Rick Atkinson's acclaimed Liberation Trilogy about the Allied triumph in Europe during World War II It is the twentieth century's unrivaled epic: at a staggering price, the United States and its allies liberated Europe and vanquished Hitler. In the first two volumes of his bestselling Liberation Trilogy, Rick Atkinson recounted how the American-led coalition fought through North Africa and Italy to the threshold of victory. Now, in The Guns at Last Light, he tells the most dramatic story of all—the titanic battle for Western

Europe. D-Day marked the commencement of the final campaign of the European war, and Atkinson's riveting account of that bold gamble sets the pace for the masterly narrative that follows. The brutal fight in Normandy, the liberation of Paris, the disaster that was Operation Market Garden, the horrific Battle of the Bulge, and finally the thrust to the heart of the Third Reich—all these historic events and more come alive with a wealth of new material and a mesmerizing cast of characters. Atkinson tells the tale from the perspective of participants at every level, from presidents and generals to war-weary lieutenants and terrified teenage riflemen. When Germany at last surrenders, we understand anew both the devastating cost of this global conflagration and the enormous effort required to win the Allied victory. With the stirring final volume of this monumental trilogy, Atkinson's accomplishment is manifest. He has produced the definitive chronicle of the war that

rural Irish community and adopted by a well-to-do if eccentric Dublin couple via the intervention of a hunchbacked Redemptorist nun, Cyril is adrift in the world, anchored only tenuously by his heartfelt friendship with the infinitely more glamorous and dangerous Julian Woodbead. At the mercy of fortune and coincidence, he will spend a lifetime coming to know himself and where he came from - and over his many years, will struggle to discover an identity, a home, a country, and much more. In this, Boyne's most transcendent work to date, we are shown the story of Ireland from the 1940s to today through the eyes of one ordinary man. The Heart's Invisible Furies is a novel to make you laugh and cry while reminding us all of the redemptive power of the human spirit.

The Rotten Heart of Europe - Bernard Connolly 2013-01-15 'The Brussels Commission has just suspended its senior economist, Bernard Connolly, for writing a book savaging the

prospects for a common currency. There are many who now believe he should be lauded as a prophet.' Observer, Editorial, 1 October 1995 'Mr. Connolly's longstanding proposition that the foisting of a common currency upon so many disparate nations would end in ruin is getting a much wider hearing...' New York Times, 17 November 2011 When first published in 1995, *The Rotten Heart of Europe* caused outrage and delight - here was a Brussels insider, a senior EU economist, daring to talk openly about the likely pitfalls of European monetary union. Bernard Connolly lost his job at the Commission, but his book was greeted as a profound and persuasive expose of the would-be 'monetary masters of the world.' His brave act of defiance became headline news - and his book a major international bestseller. In a substantial new introduction, Connolly returns to his prophetic account of the double-talk surrounding the efforts of politicians, bankers

and bureaucrats to force Europe into a crippling monetary straitjacket. Hidden agendas are laid bare, skulduggery exposed and economic fallacies are skewered, producing a horrifying conclusion.
