How to Be a Capitalist Without Any Capital - Nathan Latka

2019-03-05

Instant Wall Street Journal Bestseller! You don't need to be Ivy League educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. At nineteen, I founded a software company with \$119 in my bank account. Five years later, it was valued at \$10.5 million. I don't consider myself exceptionally brilliant. I just realized something few people know: You don't need lots of money or an original idea to get really rich. Now, I make more than \$100,000 in passive income every month, while also running my own private equity firm and hosting The Top Entrepreneurs podcast, which has more than 10 million downloads. This book will show you how I went from college dropout to member of the New Rich. And I'm holding nothing back. You'll see my tax returns, my profit and loss statements, my email negotiations when buying and selling companies. It's time to forget your grandfather's

advice. I'll teach you how to be a modern opportunist--investor, entrepreneur, or side hustler--by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The masses are broke (\$4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.

How Rich People Think - Steve Siebold 2019-10

Creating a Cash Cow in Kenya - Nat Robinson 2015-12-24

"What started as an eight-month assignment turned into a six-year adventure and the creation of a social business to help Kenya's farmers lift themselves out of poverty. The social business, Juhudi Kilimo, provides microloans to enable smallholder farmers to buy productive assets, such as cows, tools and so on. Since its foundation in 2009, Juhudi Kilimo has provided over 50,000 loans worth \$30 million and financed the purchase of 23,100 cows by some of Kenya's poorest farmers. In its six years Juhudi managed to rack up an impressive list of international investors The Rockefeller Foundation, The Ford Foundation, Acumen Fund, Soros Economic Development Fund, Grameen Foundation, Deutsche Bank and Kiva.org. The company also won a Charles Schwab Social Entrepreneur of the Year Award and part of CIO Magazine's top 100 list. The challenges faced by the company in its early years reveal a dark underbelly of investor greed, corruption and the deep multicultural misunderstandings that can lead to conflicts. The company was driven by a young entrepreneur from the US, who admits he had no idea what he was doing but learned along the way. The lessons he presents here can help guide those starting new ventures or trying to defy the odds with a new social business in East Africa. The business stories are intertwined with his adventures, racing camels, running from rhinos and much more."--Summary from Amazon.

Rich Dad, Poor Dad - Robert T. Kiyosaki 2016-04-27

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times- for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

More Important Than Money - Robert Kiyosaki 2017-03-31

Many people have million-dollar ideas. They're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don't know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person's social and professional network. In other words, the people around us--our associates, our team, our friends. The people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in Rich Dad Poor Dad, if the people around you have a poor person's mindset, it's likely that you'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In More Important Than Money, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books. Readers will meet all of Robert's Rich Dad Advisors and learn why they are among his most valuable assets.
