This book provides a comprehensive and critical analysis of major issues and challenges faced by the education system, ranging from pre-school to higher education. It analyses the prospects for educational development in Hong Kong. It further addresses how the Hong Kong government has responded to the perceived challenges of the external environment and internal forces and explains the rationales for the actions taken. Not only does it review how the reform initiative challenges have been dealt with, it also reviews how effective these initiatives are and its implications on future directions.
