Nestor Makhno--anarchy's Cossack -
Alexandre Skirda 2004

The phenomenal life of Ukrainian peasant Nestor Makhno (1888-1934) provides the framework for this breakneck account of the downfall of the tsarist empire and the civil war that convulsed and bloodied Russia between 1917 and 1921. Makhno and his people were fighting for a society "without masters or slaves, with neither rich nor poor." They acted towards that idea by establishing "free soviets." Unlike the soviets drained of all significance by the dictatorship of a one-party State, the "free soviets" became the grassroots organs of a direct democracy - a living embodiment of the free society - until they were betrayed, and smashed, by the Red Army. Delving into a vast array of documentation to which few other historians have had access, this study illuminates a revolution that started out with the rosiest of prospects but ended up utterly confounded. More than just the incredible exploits of a guerilla revolutionary par excellence, Skirda weaves the tale of a people, and the organizations and practices of anarchism, literally fighting for their lives.

Backfire Manual - Brian Martin 2012-10-25

In 1991, protesters in Dili, East Timor were massacred by Indonesian troops. This turned out to be a political disaster for the Indonesian government, greatly increasing international support for the East Timorese independence struggle. The massacre backfired on the Indonesian government. The Backfire Manual explains why. Imagine you're planning an action and think you might come under attack. Maybe it's a rally and there's a risk of police brutality. Maybe you're exposing government corruption and there could be reprisals against your group. To be prepared, you need to understand the tactics likely to be used by your opponent, for example covering up the action and trying to discredit you and your group. The Backfire Manual provides guidance for this sort of planning. It outlines the backfire model and gives examples and exercises for using it. This is a practical handbook for being more effective whenever you face a powerful, dangerous opponent.

This Is Marketing - Seth Godin 2018-11-13

#1 Wall Street Journal Bestseller Instant New York Times Bestseller A game-changing approach to marketing, sales, and advertising. Seth Godin has taught and inspired millions of entrepreneurs, marketers, leaders, and fans from all walks of life, via his blog, online courses, lectures, and bestselling books. He is the inventor of countless ideas that have made their way into mainstream business language, from Permission Marketing to Purple Cow to Tribes to The Dip. Now, for the first time, Godin offers the core of his marketing wisdom in one compact, accessible, timeless package. This is Marketing shows you how to do work you're proud of, whether you're a tech startup founder, a small business owner, or part of a large corporation. Great marketers don't use consumers to solve their company's problem; they use marketing to solve other people's problems. Their tactics rely on empathy, connection, and emotional labor instead of attention-stealing ads and spammy email funnels. No matter what your product or service, this book will help you reframe how it's presented to the world, in order to meaningfully connect with people who want it. Seth employs his signature blend of insight, observation, and

memorable examples to teach you: * How to build trust and permission with your target market. * The art of positioning--deciding not only who it's for, but who it's not for. * Why the best way to achieve your goals is to help others become who they want to be. * Why the old approaches to advertising and branding no longer work. * The surprising role of tension in any decision to buy (or not). * How marketing is at its core about the stories we tell ourselves about our social status. You can do work that matters for people who care. This book shows you the way.

The Tao of Love and Sex - Jolan Chang 1977

The Tao of Love and Sex is a revealing and vivid account of the ancient Chinese sexual teachings and techniques banned by the invading Mongols in the 13th century. The book describes, through text and contemporary illustrations, the ways in which Taoist teachings about sexual love can be used as a means to achieving ecstasy and as a therapeutic and healing force. The modern Western reader can here discover the ancient Eastern methods of ejaculation control, types of thrust, love-making positions, erotic kissing, the conquest of impotence and about sex and longevity. Frank and explicit, yet inseparable from the Taoist spiritual tradition, The Tao of Love and Sex will enrich the variety, subtlety and sheer sexual pleasure of all who read it.

Sudan's "Southern Problem" - Sebatso C. Manoeli 2019-12-04

The book offers a history of the discourses and diplomacies of Sudan's civil wars. It explores the battle for legitimacy between the Sudanese state and Southern rebels. In particular, it examines how racial thought and rhetoric were used in international debates about the political destiny of the South. By placing the state and rebels within the same frame, the book uncovers the competition for Sudan's reputation. It reveals the discursive techniques both sides employed to elicit support from diverse audiences, amidst the intellectual ferment of Pan-Africanism, the Cold War, and Black liberation politics. It maintains that the interplay of silences and articulations in both the rebels' and the state's texts concealed and complicated aspects of the country's political conflict. In sum, the book demonstrates that the war of words waged abroad represents a strategic, but often overlooked, aspect of the

Sudanese civil wars.

The Failure of Nonviolence - Peter Gelderloos
2015-03-01

In the years since the end of the Cold War many new social movements have started peacefully, only to adopt a diversity of tactics as they grew in strength and collective experiences. The last ten years have revealed more clearly than ever the role of nonviolence. Propped up by the media, funded by the government, and managed by NGOs, nonviolent campaigns around the world have helped oppressive regimes change their masks, and have helped police to limit the growth of rebellious social movements. Repeatedly losing the debate within the movements themselves, proponents of nonviolence have increasingly turned to the mainstream media and to government and institutional funding to drown out critical voices. *The Failure of Nonviolence* examines most of the major social upheavals following the Cold War to reveal the limits of nonviolence and uncover what a diverse, unruly, non-pacified movement can accomplish. Critical of how a diversity of tactics has functioned so far, this book discusses how movements for social change can win ground and open the spaces necessary to plant the seeds of a new world.

Martin Luther King, Jr. - James A. Colaiaco
1993-02-24

He also provides the first in-depth analysis of King's famous Letter from Birmingham Jail - a manifesto of the American civil rights movement and an eloquent defence of non-violent protest.

Domination and the Arts of Resistance - James C. Scott 2008-10-01

"Play fool, to catch wise."--proverb of Jamaican slaves
Confrontations between the powerless and powerful are laden with deception--the powerless feign deference and the powerful subtly assert their mastery. Peasants, serfs, untouchables, slaves, laborers, and prisoners are not free to speak their minds in the presence of power. These subordinate groups instead create

a secret discourse that represents a critique of power spoken behind the backs of the dominant. At the same time, the powerful also develop a private dialogue about practices and goals of their rule that cannot be openly avowed. In this book, renowned social scientist James C. Scott offers a penetrating discussion both of the public roles played by the powerful and powerless and the mocking, vengeful tone they display off stage--what he terms their public and hidden transcripts. Using examples from the literature, history, and politics of cultures around the world, Scott examines the many guises this interaction has taken throughout history and the tensions and contradictions it reflects. Scott describes the ideological resistance of subordinate groups--their gossip, folktales, songs, jokes, and theater--their use of anonymity and ambiguity. He also analyzes how ruling elites attempt to convey an impression of hegemony through such devices as parades, state ceremony, and rituals of subordination and apology. Finally, he identifies--with quotations that range from the recollections of American slaves to those of Russian citizens during the beginnings of Gorbachev's glasnost campaign--the political electricity generated among oppressed groups when, for the first time, the hidden transcript is spoken directly and publicly in the face of power. His landmark work will revise our understanding of subordination, resistance, hegemony, folk culture, and the ideas behind revolt.

People Power - Aaron Schutz 2015-04-27

Saul Alinsky, according to Time Magazine in 1970, was a "prophet of power to the people," someone who "has possibly antagonized more people . . . than any other living American." *People Power* introduces the major organizers who adopted and modified Alinsky's vision across the United States: --Fred Ross, Cesar Chavez, Dolores Huerta, and the Community Service Organization and National Farm Workers Association --Nicholas von Hoffman and the Woodlawn Organization --Tom Gaudette and the Northwest Community Organization --Ed Chambers, Richard Harmon, and the Industrial Areas Foundation --Shel Trapp, Gale Cincotta, and National People's Action --Heather Booth, Midwest Academy, and Citizen Action --Wade Rathke and ACORN Weaving classic texts with

interviews and their own context-setting commentaries, the editors of People Power provide the first comprehensive history of Alinsky-based organizing in the tumultuous period from 1955 to 1980, when the key organizing groups in the United States took form. [The Transhumanist Wager](#) - Zoltan Istvan 2013

Philosopher, entrepreneur, and former National Geographic and New York Times correspondent Zoltan Istvan presents his visionary novel, The Transhumanist Wager, as a seminal statement of our times. Scorned by over 500 publishers and literary agents around the world, his philosophical thriller has been called "revolutionary" and "socially dangerous" by readers, scholars, and religious authorities. The novel debuts a challenging original philosophy, which rebuffs modern civilization by inviting the end of the human species-and declaring the onset of something greater. Set in the present day, the novel tells the story of transhumanist Jethro Knights and his unwavering quest for immortality via science and technology. Fighting against him are fanatical religious groups, economically depressed governments, and mystic Zoe Bach: a dazzling trauma surgeon and the love of his life, whose belief in spirituality and the afterlife is absolute. Exiled from America and reeling from personal tragedy, Knights forges a new nation of willing scientists on the world's largest seasteading project, Transhumania. When the world declares war against the floating city, demanding an end to its renegade and godless transhuman experiments and ambitions, Knights strikes back, leaving the

planet forever changed.

The Dressmaker of Khair Khana - Gayle

Tzemach Lemmon 2011-03-15

Makers of Modern India - Ramachandra Guha

2013-10-14

Modern India is the world's largest democracy, a sprawling, polyglot nation containing one-sixth of all humankind. The existence of such a complex and distinctive democratic regime qualifies as one of the world's bona fide political miracles. Furthermore, India's leading political thinkers have often served as its most influential political actors—think of Gandhi, whose collected works run to more than ninety volumes, or Ambedkar, or Nehru, who recorded their most eloquent theoretical reflections at the same time as they strove to set the delicate machinery of Indian democracy on a coherent and just path. Out of the speeches and writings of these thinker-activists, Ramachandra Guha has built the first major anthology of Indian social and political thought. Makers of Modern India collects the work of nineteen of India's foremost generators of political sentiment, from those whose names command instant global recognition to pioneering subaltern and feminist thinkers whose works have until now remained obscure and inaccessible. Ranging across manifold languages and cultures, and addressing every crucial theme of modern Indian

historyÑrace, religion, language, caste, gender, colonialism, nationalism, economic development, violence, and nonviolenceÑMakers of Modern India provides an invaluable roadmap to Indian political debate. An extensive introduction, biographical sketches of each figure, and guides to further reading make this work a rich resource for anyone interested in India and the ways its leading political minds have grappled with the problems that have increasingly come to define the modern world.

Deep Green Resistance - Derrick Jensen 2011-01-04

For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. Deep Green Resistance starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. Deep Green Resistance evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for

both aboveground and underground action. Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play. Deep Green Resistance is a plan of action for anyone determined to fight for this planet—and win.
