Christianity, Social Tolerance, and Homosexuality - John Boswell
2015-12-10

John Boswell's National Book Award-winning study of the history of attitudes toward homosexuality in the early Christian West was a groundbreaking work that challenged preconceptions about the Church's past relationship to its gay members—among them priests, bishops, and even saints—when it was first published thirty-five years ago. The historical breadth of Boswell's research (from the Greeks to Aquinas) and the variety of sources consulted make this one of the most extensive treatments of any single aspect of Western social history. Now in this thirty-fifth anniversary edition with a new foreword by leading queer and religious studies scholar Mark D. Jordan, *Christianity, Social Tolerance, and Homosexuality* is still fiercely relevant. This landmark book helped form the disciplines of gay and gender studies, and it continues to illuminate the origins and operations of intolerance as a social force.

Economia al alcance de todos/ Economy Within Everyone's Reach - Rius 2008-06-30

[How the World Works](#) - Noam Chomsky 2011-09-01

An eye-opening introduction to the timelessly relevant ideas of Noam Chomsky, this book is a penetrating, illusion-shattering look at how things really work from the man The New York Times called “arguably the most important intellectual alive.” Offering something not found anywhere else: *How the World Works* is pure Chomsky, but tailored for those unfamiliar to his work. Made up of meticulously edited speeches and interviews, every dazzling idea and penetrating insight is kept intact and delivered in clear, accessible, reader-friendly prose. Originally published as four short books in the famous Real Story series—*What Uncle Sam Really Wants*; *The Prosperous Few and the Restless Many*; *Secrets, Lies and Democracy*; and *The Common Good*—they've collectively sold almost 600,000 copies. And they continue to sell year after year after year because Chomsky's ideas become, if anything, more relevant as time goes by. For example, it was decades ago when he pointed out that “in 1970, about 90% of international capital was used for trade and long-term investment—more or less productive things—and 10% for speculation. By 1990, those figures had reversed.” As we know, high-risk speculation continues to increase exponentially as corporations continue to push the free market economy—but only for the power they offer to the wealthy, not to benefit all people. We're paying the price now for not heeding him them.

Knowledge and Ignorance in Economics - Terence Wilmot Hutchison
1977

Between Past and Future - Hannah Arendt 2006-09-26

From the author of *Eichmann in Jerusalem* and *The Origins of Totalitarianism*, "a book to think with through the political impasses and cultural confusions of our day" (Harper's Magazine) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In *Between Past and Future* Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can distill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

Tavistock Institute - Daniel Estulin 2015-09-14

The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

War and Genocide in Cuba, 1895-1898 - John Lawrence Tone 2006-12-08

From 1895 to 1898, Cuban insurgents fought to free their homeland from

Spanish rule. Though often overshadowed by the "Splendid Little War" of the Americans in 1898, according to John Tone, the longer Spanish-Cuban conflict was in fact more remarkable, foreshadowing the wars of decolonization in the twentieth century. Employing newly released evidence--including hospital records, intercepted Cuban letters, battle diaries from both sides, and Spanish administrative records--Tone offers new answers to old questions concerning the war. He examines the origin of Spain's genocidal policy of "reconcentration"; the causes of Spain's military difficulties; the condition, effectiveness, and popularity of the Cuban insurgency; the necessity of American intervention; and Spain's supposed foreknowledge of defeat. The Spanish-Cuban-American war proved pivotal in the histories of all three countries involved. Tone's fresh analysis will provoke new discussions and debates among historians and human rights scholars as they reexamine the war in which the concentration camp was invented, Cuba was born, Spain lost its empire, and America gained an overseas empire.

Economía al alcance de todos - Rius 2014-11-01

Creador de *Los Agachados*, *Mis Supermachos* y más de un centenar de libros publicados, Rius, el gran monero mexicano, ocupó un lugar clave en la historia de la cultura popular. *Economía al alcance de todos* fusiona dos libros anteriores de Rius sobre el tema: *Economía para ignorantes* y su diccionario de términos económicos, *Lexikón Ekonomikón*. Al integrarlos para esta edición, el autor ha aumentado y puesto al día su información. Así sus lectores tienen la oportunidad de obtener conocimientos básicos sobre esta materia fundamental a través de las explicaciones sencillas, divertidas y siempre didácticas del maestro. Sobre la importancia de este libro doble, Rius explica: "Si no hacemos un esfuerzo por comprender la economía y formarnos nuestras propias opiniones sobre la actual política económica con conocimiento de causa, entonces dejamos que el gobierno decida por nosotros y nos sigan dando en toda la torre".

No Destination - Satish Kumar 2000

Fashionable Nonsense - Alan Sokal 2014-01-14

In 1996 physicist Alan Sokal published an essay in *Social Text*--an influential academic journal of cultural studies--touting the deep similarities between quantum gravitational theory and postmodern philosophy. Soon thereafter, the essay was revealed as a brilliant parody, a catalog of nonsense written in the cutting-edge but impenetrable lingo of postmodern theorists. The event sparked a furious debate in academic circles and made the headlines of newspapers in the U.S. and abroad. Now in *Fashionable Nonsense: Postmodern Intellectuals' Abuse of Science*, Sokal and his fellow physicist Jean Bricmont expand from where the hoax left off. In a delightfully witty and clear voice, the two thoughtfully and thoroughly dismantle the pseudo-scientific writings of some of the most fashionable French and American intellectuals. More generally, they challenge the widespread notion that scientific theories are mere "narrations" or social constructions.

The Purposes of Paradise - Christine Skwiot 2011-06-06

For half a century, the United States has treated Cuba and Hawai'i as polar opposites: despised nation and beloved state. But for more than a century before the Cuban revolution and Hawaiian statehood of 1959, Cuba and Hawai'i figured as twin objects of U.S. imperial desire and as possessions whose tropical island locales might support all manner of fantasy fulfillment—cultural, financial, and geopolitical. Using travel and tourism as sites where the pleasures of imperialism met the politics of empire, Christine Skwiot untangles the histories of Cuba and Hawai'i as integral parts of the Union and keys to U.S. global power, as occupied territories with violent pasts, and as fantasy islands ripe with seduction and reward. Grounded in a wide array of primary materials that range from government sources and tourist industry records to promotional items and travel narratives, *The Purposes of Paradise* explores the ways travel and tourism shaped U.S. imperialism in Cuba and Hawai'i. More broadly, Skwiot's comparative approach underscores continuity, as well as change, in U.S. imperial thought and practice across the nineteenth and twentieth centuries and across the Atlantic and Pacific oceans. Comparing the relationships of Cuba and Hawai'i with the United States, Skwiot argues, offers a way to revisit assumptions about formal versus

informal empire, territorial versus commercial imperialism, and direct versus indirect rule.

Brandwashed - Martin Lindstrom 2011-09-28

A shocking insider's look at how global giants conspire to obscure the truth and manipulate our minds. Marketing visionary Martin Lindstrom has been on the front lines of the branding wars for over twenty years. Here, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned dollars. Picking up from where Vance Packard's bestselling classic, *The Hidden Persuaders*, left off more than half-a-century ago, Lindstrom reveals: New findings that reveal how advertisers and marketers intentionally target children at an alarmingly young age -

starting when they are still in the womb! Shocking results of an fMRI study which uncovered what heterosexual men really think about when they see sexually provocative advertising (hint: it isn't their girlfriends). How marketers and retailers stoke the flames of public panic and capitalize on paranoia over global contagions, extreme weather events, and food contamination scares. The first ever neuroscientific evidence proving how addicted we all are to our iPhones and our Blackberry's (and the shocking reality of cell phone addiction - it can be harder to shake than addictions to drugs and alcohol). How companies of all stripes are secretly mining our digital footprints to uncover some of the most intimate details of our private lives, then using that information to target us with ads and offers 'perfectly tailored' to our psychological profiles. How certain companies, like the maker of one popular lip balm, purposely adjust their formulas in order to make their products chemically addictive. What a 3-month long guerrilla marketing experiment, conducted specifically for this book, tells us about the most powerful hidden persuader of them all. And much, much more. This searing expose introduces a new class of tricks, techniques, and seductions - the Hidden Persuaders of the 21st century- and shows why they are more insidious and pervasive than ever.

A Companion to Latin American Literature and Culture - Sara Castro-Klaren 2013-03-21

A Companion to Latin American Literature and Culture reflects the changes that have taken place in cultural theory and literary criticism since the latter part of the twentieth century. Written by more than thirty experts in cultural theory, literary history, and literary criticism, this authoritative and up-to-date reference places major authors in the complex cultural and historical contexts that have compelled their

distinctive fiction, essays, and poetry. This allows the reader to more accurately interpret the esteemed but demanding literature of authors such as Jorge Luis Borges, Mario Vargas Llosa, Octavio Paz, and Diamela Eltit. Key authors whose work has defined a period, or defied borders, as in the cases of Sor Juana Inés de la Cruz, César Vallejo, and Gabriel García Márquez, are also discussed in historical and theoretical context. Additional essays engage the reader with in-depth discussions of forms and genres, and discussions of architecture, music, and film. This text provides the historical background to help the reader understand the people and culture that have defined Latin American literature and its reception. Each chapter also includes short selected bibliographic guides and recommendations for further reading.

Marx for beginners - Rius 1978

Women of Maize - Guiomar Rovira 2000

In the Mexican state of Chiapas women still marry at 13, and are often sold for a few bottles of liquor or a cow. In this volume the women of Chiapas tell of their hopes and their struggles, and their fight for a more democratic and humane way of life.

History of Philosophy - Julian Marias 2012-10-02

Thorough and lucid survey of Western philosophy from pre-Socratics to mid 20th century — major figures, currents, trends. Valuable section on contemporary philosophy — Brentano, Ortega, Heidegger, others.

"Brevity and clarity of exposition..." — Ethics.

Bonjour Laziness - Corinne Maier 2007-12-18

Your company wants you to be loyal. You should feel lucky—after all, your job is a privilege (think of all those who would like to have it). And you know (despite what you've read about Enron and WorldCom) that management has your best interests at heart. Your goal is to devote yourself to the pursuit of corporate profit, make your company number one, and reap the benefits of its success. Or is there something else you want to do with your life? *Bonjour Laziness* dares to ask whether you really have a stake in the corporate sweepstakes, whether professional mobility is anything but an opiate. It shows you how to become impervious to manipulation and escape the implacable law of usefulness. In short, this book explains why it is in your best interest to work as little as possible.

Cinema II - Gilles Deleuze 2013-12-19

Provides the first sustained analysis of the collision between Marxism

and nationalism in France at the time of the Dreyfus affair.

Arms Trafficking and Colombia - Kim Cragin 2003-10-24

Colombia has experienced significant political instability and violence over the past century due to a number of factors, including the proliferation of small-arms trafficking. The authors identify the sources and routes used by arms traffickers to acquire, buy, sell, receive, transfer, and ship weapons. They also examine the various groups and individuals who purchase and use these munitions. The authors examine Colombia's political conflict through the lens of small-arms trafficking and conclude with policy implications for the United States.

Faces and Masks - Eduardo Galeano 2014-04-29

"A book as fascinating as the history it relates . . . Galeano is a satirist, realist, and historian." —Los Angeles Times For centuries, Europe's imperial powers brutally exploited the peoples and resources of the New World. While soldiers of fortune marched across continents in search of El Dorado, white settlers established plantations and trading posts along the coasts, altering the land and bringing disease and slavery with them. In the midst of a bloody collision of civilizations, the West has birthed new societies out of the old. In the second book of his *Memory of Fire* trilogy, Eduardo Galeano forges a new understanding of the Americas, history retold from a diverse collection of viewpoints. Spanning the end of empire and the age of revolutions, *Faces and Masks* brilliantly collects the strands of the past into an iridescent work of literature.

Plato - Dialogues - Plato 2013-05-31

These dialogues contain the core concepts of Platonic philosophy and serve as a good introduction to the legacy of Socrates and philosophy in the golden age of Greece. In the first of the dialogues Euthyphro and Socrates discuss and try to define allegiance. Euthyphro charges his father of murder of one of his workers; as Socrates is also being charged with impiety he hopes to learn a thing or two from Euthyphro. Apology is Plato's version of Socrates's speech at his trial in his own defense. Crito in the third dialogue discusses with Socrates the power of justice and offers to help Socrates escape from prison. In *Meno*, Socrates and Meno cover virtue, and whether or not this is something that can be taught and if there is a common virtue in everyone. And finally, *Phaedo*, who was present at Socrates's death, relates what happened in his final moments.

Social Origins of Educational Systems - Margaret S. Archer 2013-03-05

First published in 1979, this now classic text presents a major study of the development of educational systems, focusing in detail on those of England, Denmark, France, and Russia - chosen because of their present educational differences and the historical diversity of their cultures and social structures. Professor Archer goes on to provide a theoretical framework which accounts for the major characteristics of national education and the principal changes that such systems have undergone.

Now with a new introduction, *Social Origins of Educational Systems* is vital reading for all those interested in the sociology of education.

Previously published reviews: 'A large-scale masterly study, this book is the most important contribution to the sociology of education since the second world war as well as being a substantial contribution to the consolidation of sociology itself.' - *The Economist* 'I cannot improve on her own statement of what she is trying to do: 'The sociological contribution consists in providing a theoretical account of macroscopic patterns of change in terms of the structural and cultural factors which produce and sustain them'...Unquestionably, this book is an impressive work of scholarship, well planned conceptually and uniting its theoretical base with a set of four thoroughly and interestingly researched case-studies of the history of the educational systems of Denmark, England, France and Russia.' - *British Journal of the Sociology of Education* 'This magnificent treatise seriously explores many of the most recalcitrant questions about institutional systems.' - *Journal of Curriculum Studies* 'A gargantuan and impressive socio-historical enterprise.' - *Encounter* '...a major achievement.' - *New Society*

Nietzsche's Philosophy - Eugen Fink 2003-01-02

Nietzsche's Philosophy traces the passionate development of Nietzsche's thought from the aestheticism of *The Birth of Tragedy* through to the late doctrines of the "will to power" and "eternal return". Inspired by the phenomenological method of Edmund Husserl and by the work of Martin Heidegger, Fink exposes the central themes of Nietzsche's philosophy, revealing the philosopher who experiences thinking as a fate and who ultimately searches for an expression of his own ontological experience in a negative theology.

Nietzsche: Daybreak - Friedrich Nietzsche 1997-11-13

A new edition of this important work of Nietzsche's 'mature' philosophy.

Building in France, Building in Iron, Building in Ferroconcrete - Sigfried Giedion 1995-09-01

With *Building in France, Building in Iron, Building in Ferroconcrete* (1928)—published now for the first time in English—Siegfried Giedion positioned himself as an eloquent advocate of modern architecture. This

was the first book to exalt Le Corbusier as the artistic champion of the new movement. It also spelled out many of the tenets of Modernism that are now regarded as myths, among them the impoverishment of nineteenth-century architectural thinking and practice, the contrasting vigor of engineering innovations, and the notion of Modernism as technologically preordained.

Growth, Equality, and the Mexican Experience - Morris Singer
1969-01-01

Central to the research that went into the preparation of this monograph is the relationship between economic development and equality. To determine and characterize that relationship Morris Singer focuses on the various components of equality at different stages of development. The author particularly explores the behavior of income distribution, together with its bearing on the components of aggregate demand. Mexico provided an excellent case to examine in depth because of its impressive growth and the fact that it experienced Latin America's first successful twentieth-century revolution. Although the Revolution of 1910 hastened social equality and introduced other changes that stimulated Mexico's economic growth, it could not prevent a serious increase in the inequality of income distribution. By the early 1960s the government

found it necessary to rectify this increasing imbalance through a program of expenditures designed to counteract widespread poverty and weak aggregate demand. To ward off inflation, this program in turn could be implemented only by tax reform. In discussing the relationship between development and equality in its various dimensions, noneconomic as well as economic, this monograph points out that, at the time of this study, government policies in Mexico were dictated by an elite concerned primarily with the country's economic advancement. Singer concludes that if programs of government expenditure and tax reform succeed in remedying the inequalities of income distribution, this could gradually make possible the development of a more genuine political as well as economic democracy. This book reflects Singer's interest in the relationship between equality and development. It is the result of five months of intensive in-residence study in Mexico, financed in part by a grant from the Social Science Research Council.

Paradise Overseas - Gert Oostindie 2005

Presents a tour around the main themes of Dutch Caribbean history and its contemporary legacies. Drawing on expertise in Caribbean and Latin American studies, this work posits an analysis of the Dutch Caribbean in a comparative framework. It is aimed at historians, anthropologists and political scientists alike.
