It was just another day in the life of a small Atlantic resort until the terror from the deep came to prey on unwary holiday makers. Washback in Language Testing - Liying Cheng 2004-02-04

Washback refers to the influence of language testing on teaching and learning. This volume, at the important intersection of language testing and teaching practices, presents theoretical, methodological, and practical guidance for current and future washback studies. In the field of language testing, researchers' major interest has traditionally been focused on issues and solving problems inherent in tests in order to increase their reliability and validity. However, the washback effect goes well beyond the test itself to include factors, such as curriculum, teacher and learner behaviors inside and outside the classroom, their perceptions of the test, and how test scores are used. Only recently have researchers started to empirically investigate the phenomenon of washback. This volume of such research serves two essential purposes by: *providing an overview of the complexity of washback and the various contextual factors entangled within testing, teaching, and learning; and *presenting empirical studies from around the world that offer insights into the effects of washback in specific educational contexts and models of research on which future studies can be based. The extensive use of test scores for various educational and social purposes in society nowadays makes the washback effect a high-interest phenomenon in the day-to-day educational activities of teachers, researchers, program coordinators/directors, policymakers, and others in the field of education. Washback in Language Testing: Research Contexts and Methods is a valuable resource for those who are interested in the application of findings to actual teaching and learning situations or conduct washback research in their own contexts, including educational and psychological testing experts, as well as alternative assessment people in all fields, and for policy- and decision-makers in educational and testing organizations.

Refugees in Canada - Thomas Ricento 2021-07-21

The focus of this book is on the experiences of government-sponsored refugees in the early stages of integrating into Canadian society. Combining data gleaned from a longitudinal study of relatively recently arrived refugees in Calgary, Canada, with a close focus on the case of a physician from Colombia and his family, this volume illustrates how the cultural and social capital of refugees is marginalized and, in some cases, erased by the undervaluing of their education, training, credentials, and other knowledge. The findings presented in the book underscore the importance of addressing the challenge of integrating highly trained professionals into the professions for which they are credentialed.

Vouchers and the Provision of Public Services - C. Eugene Steuerle 2010-12-01

For decades, the use of vouchers has been widely debated. But often lost in the heat of debate is the fact that vouchers are just another tool in the government's tool chest, a restricted subsidy that falls somewhere between the extremes of cash and direct government provision of services. The instrument itself is not new—the 1944 GI Bill of Rights was a voucher, and vouchers for food, college aid, and housing have been in place for decades. Until now, however, the study of vouchers has been restricted to a few controversial applications. This volume, which grew out of a conference sponsored by the Brookings Institution, the Urban Institute, and the Committee for Economic Development, fills the gap, offering a framework for comparative analysis of specific policy issues related to vouchers. Its 16 essays address the economics, politics, and legal issues of voucher use and explore how vouchers are currently employed in the United States and abroad for education, child care, job training, housing, and health care. C. Eugene Steuerle is a senior fellow at the Urban Institute and has worked under four different U.S. presidents on a variety of reform issues in such areas as social security, budget, tax, and health policy. Robert D. Reischauer, a senior fellow in Economic Studies at the Brookings Institution, was director of the Congressional Budget Office from 1989 to 1995. George Peterson is a senior fellow at the Urban Institute; from 1976 to 1985 he directed the Institute's Public Finance Research Center. Van Doorn Ooms, senior vice president and director of research at the Committee for Economic Development, was formerly executive director for policy and chief economist of the Committee on the Budget, U.S. House of Representatives, 1989-1990, and was the Budget Committee's chief economist from 1981 to 1988.

Think Like a Monk - Jay Shetty 2020-09-08

Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his

own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.
