Assignments Matter - Eleanor Dougherty 2012-09-01

What exactly is an "assignment," and why does it matter? How can educators ensure that their teaching meets the rigorous demands of the Common Core State Standards, so that all students are well prepared for college or careers? Drawing from her extensive experience as a teacher coach, author Eleanor Dougherty answers these questions and many more, with two aims in mind: (1) to guide teachers and administrators in crafting high-quality assignments, and (2) to help educators understand the powerful impact that assignments can have on teaching and learning. The book explains the critical differences among "assignments," "activities," and "assessments" and thoroughly describes the key elements of an assignment: prompts, rubrics, products, and instructional plans. Readers will learn how to * Follow a seven-step process for crafting effective assignments; * Link assignments to units and courses; * Devise "Anchor" assignments for collaboration and consistency across grades; * Tap into instructional "touchstones" that can enrich any assignment; * Create classroom and school environments that support assignment-making; and * Use assignments as a source of data about teaching and learning. Equipped with the knowledge and expertise gained from *Assignments Matter*, readers will be able to create meaningful learning experiences for their students and come to appreciate the author's belief that "assignments may well be the missing link in school reform efforts to improve student achievement."

Alone Together - Sherry Turkle 2017-11-07

"Savvy and insightful." --New York Times Technology has become the architect of our intimacies. Online, we fall prey to the illusion of companionship, gathering thousands of Twitter and Facebook friends, and confusing tweets and wall posts with authentic communication. But this relentless connection leads to a deep solitude. MIT professor Sherry Turkle argues that as technology ramps up, our emotional lives ramp down. Based on hundreds of interviews and with a new introduction taking us to the present day, *Alone Together* describes changing, unsettling relationships between friends, lovers, and families.

Taking the Work Out of Networking - Karen Wickre 2019-10-29

"For introverts who panic at the idea of networking, Wickre's book is a deep, calming breath." —Sophia Dembling, author of *The Introvert's Way* Former Google executive, editorial director of Twitter, self-described introvert, and "the best-connected Silicon Valley figure you've never heard of" (Walt Mossberg, *Wall Street Journal*), offers networking advice for anyone who has ever canceled a coffee date due to social anxiety. Learn to nurture a vibrant circle of reliable contacts without leaving your comfort zone. Networking has garnered a reputation as a sort of necessary evil. Some people relish the opportunity to boldly work the

room, introduce themselves to strangers, and find common career ground—but for many others, the experience is awkward, or even terrifying. The common networking advice for introverts are variations on the theme of overcoming or "fixing" their quiet tendencies. But Karen Wickre is a self-described introvert who has worked in Silicon Valley for thirty years. She shows you how to embrace your quiet nature and "make genuine connections that last, that we can nurture across the world for all kinds of purposes" (Chris Anderson, head of TED). Karen's "embrace your quiet side" approach is for anyone who finds themselves shying away from traditional networking activities, or for those who would rather be curled up with a good book on a Friday night than out at a party. With compelling arguments and creative strategies, this "practical, easy-to-use" (Sree Sreenivasan, former chief digital officer of Columbia University) book is a perfect guide.

Free Roll - Brandt Tobler 2017-05-22

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from its celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

The Unique Technique - Maria Higgins 2016-02-02

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for

10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

[Making the Connection](#) - Marilyn Paula Carlson 2008

The chapters in this volume convey insights from mathematics education research that have direct implications for anyone interested in improving teaching and learning in undergraduate mathematics. This synthesis of research on learning and teaching mathematics provides relevant information for any math department or individual faculty member who is working to improve introductory proof courses, the longitudinal coherence of precalculus through differential equations, students' mathematical thinking and problem-solving abilities, and students' understanding of fundamental ideas such as variable and rate of change. Other chapters include information about programs that have been successful in supporting students' continued study of mathematics. The authors provide many examples and ideas to help the reader infuse the knowledge from mathematics education research into mathematics teaching practice. University mathematicians and community college faculty spend much of their time engaged in work to improve their teaching. Frequently, they are left to their own experiences and informal conversations with colleagues to develop new approaches to support student learning and their continuation in mathematics. Over the past 30 years, research in undergraduate mathematics education has produced knowledge about the development of mathematical understandings and models for supporting students' mathematical learning. Currently, very little of this knowledge is affecting teaching practice. We hope that this volume will open a meaningful dialogue between researchers and practitioners toward the goal of realizing improvements in undergraduate mathematics curriculum and instruction.

Making the Connections - Bill Quirke 2017-06-28

Bill Quirke demonstrates practically how businesses can use internal communication to achieve differentiation, to improve their quality, customer service, and innovation, and to manage change more effectively. He describes the why, the what and the how of internal communication - why business needs better communication to achieve its objectives, what internal communication needs to deliver to add value, and how organizations need to manage their communication for best results.

Clarity & Connection - Yung Pueblo 2021-04-27

NEW YORK TIMES BESTSELLER From the celebrated author of *Inward* comes a new collection of poetry and short prose focused on understanding how past wounds impact our present relationships. In *Clarity & Connection*, Yung Pueblo describes how intense emotions accumulate in our subconscious and condition us to act and react in certain ways. In his characteristically spare, poetic style, he guides

readers through the excavation and release of the past that is required for growth. To be read on its own or as a complement to *Inward*, Yung Pueblo's second work is a powerful resource for those invested in the work of personal transformation, building self-awareness, and deepening their connection with others.

Transport and Its Place in History - David Turner 2020-06-07

Transport and mobility history is one of the most exciting areas of historical research at the present. As its scope expands, it entices scholars working in fields as diverse as historical geography, management studies, sociology, industrial archaeology, cultural and literary studies, ethnography, and anthropology, as well as those working in various strands of historical research. Containing contributions exploring transport and mobility history after 1800, this volume of eclectic chapters shows how new subjects are explored, new sources are being encountered, considered and used, and how increasingly diverse and innovative methodological lenses are applied to both new and well-travelled subjects. From canals to Concorde, from freight to passengers, from screen to literature, the contents of this book will therefore not only demonstrate the cutting edge of research, and deliver valuable new insights into the role and position of transport and mobility in history, but it will also evidence the many and varied directions and possibilities that exist for the field's future development.

Making the Connections 3 - Anne B. Padias 2015-03-06

Unholy Empire - D. Brian Shafer 2002-11-10

The prophetic clock is ticking. Lucifer and his army of 'imps' search frantically for the prophetic "Seed of the woman". The memory of God's promise that this seed would rise up and crush the serpent's head stirs them to shadowy demonic activity. *Unholy Empire* chronicles the duel between God and the fallen angels as both focus their attention on the Seed. The devils watch for any and every sign of the Seed in an all out effort to stop, delay, compromise, or otherwise destroy this impending prophetic nightmare. If they fail they are all doomed. The second book in the "Chronicles of the Host Series", *Unholy Empire* uncovers the major themes covering the Seed and the people of covenant as well as Lucifer's all-out war against them. It sheds new light on dramatic encounters between Cain and Abel, Moses and Pharaoh, David and Goliath, and others.

The Seeds of New Earth (the Silent Earth, Book 2) - Mark R. Healy 2014-12-17

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. Tough Call - Matt Popovits 2016-09-07

Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, *Tough Call*, will help you see that the Christian faith offers a mindset to confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to "get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take on complicated topics. *Tough Call* is an enjoyable and essential read for any and all facing a major decision.

Electricity, Magnetism, and Light - Wayne M. Saslow 2002-07-19

A very comprehensive introduction to electricity, magnetism and optics ranging from the interesting and useful history of the science, to connections with current real-world phenomena in science, engineering and biology, to common sense advice and insight on the intuitive understanding of electrical and magnetic phenomena. This is a fun book to read, heavy on relevance, with practical examples, such as sections on motors and generators, as well as 'take-home experiments' to bring home the key concepts. Slightly more advanced than standard freshman texts for calculus-based engineering physics courses with the mathematics worked out clearly and concisely. Helpful diagrams accompany the discussion. The emphasis is on intuitive physics, graphical visualization, and mathematical implementation. *Electricity, Magnetism, and Light* is an engaging introductory treatment of electromagnetism and optics for second semester physics and engineering majors. Focuses on conceptual understanding, with an emphasis on relevance and historical development. Mathematics is specific and avoids unnecessary technical development. Emphasis on physical concepts, analyzing the electromagnetic aspects of many everyday phenomena, and guiding readers carefully through mathematical derivations. Provides a wealth of interesting information, from the history of the science of electricity and magnetism, to connections with real world phenomena in science, engineering, and biology, to common sense advice and insight on the intuitive understanding of electrical and magnetic phenomena

Created for Connection - Sue Johnson 2016-10-04

"Whoever does not love does not know God, because God is love."--1 John 4:8 Are you looking to enrich a healthy relationship, revitalize a tired one, or rescue one gone awry? Do you yearn to grow closer to God, and to further incorporate Him and His teachings into your marriage? We all want a lifetime of love, support, and faith. But sometimes we need a little

help. Enter Dr. Sue Johnson, developer of Emotionally Focused Therapy (EFT) and "the best couple therapist in the world," according to bestselling relationship expert Dr. John Gottman. In *CREATED FOR CONNECTION*, Dr. Johnson and Kenneth Sanderfer, a leading EFT practitioner in the Christian community, share Johnson's groundbreaking and remarkably successful program for creating stronger, more secure relationships not only between partners, but between us and God. The message of *CREATED FOR CONNECTION* is simple: Forget about learning how to argue better, analyzing your early childhood, or making grand romantic gestures. Instead, get to the emotional underpinnings of your relationship by recognizing that you are attached to and dependent on your partner in much the same way that a child is on a parent, and we are on the Heavenly Father, for nurturing, soothing, and protection. The way to enhance or save our relationships with each other and with God is to be open, attuned, responsive, and to reestablish safe emotional connection. Filled with Bible verses, inspiring real-life stories, and guidance, *CREATED FOR CONNECTION* will ensure a lifetime of love.

Making Real Connections (HBR Women at Work Series) - Harvard
Business Review 2022-02-22

Relationships built on trust matter. Deep and meaningful connections, especially with other women, are critical to our careers and to our overall well-being and happiness. The bonds we build based on trust allow us to help one another, learn, and advance. But high-quality professional relationships are only possible with emotional openness and not all women, especially those from underrepresented groups, feel they can be vulnerable enough at work to develop these kinds of ties. *Making Real Connections* provides the research, advice, and practical tips you need to go beyond small talk with your colleagues and shallow, transactional networking to create professional relationships that are truly amazing. This book will inspire you to: Find authentic ways to grow your network Enjoy the rewards of having real friends at work while avoiding the pitfalls Seek out a sponsor—or become one Navigate problems when work relationships become draining The HBR Women at Work Series spotlights the real challenges and opportunities women experience throughout their careers. With interviews from the popular podcast of the same name and related articles, stories, and research, these books provide inspiration and advice for taking on issues at work

such as inequity, advancement, and building community. Featuring detailed discussion guides, this series will help you spark important conversations about where we're at and how to move forward.
