*The Acoustic City* - Matthew Gandy 2014-04-01  
How does sound shape urban life? What do soundscapes reveal about the experience of modernity? This innovative essay collection explores a series of critical themes including the diversity of urban soundscapes; acoustic flânerie and different ways of listening to the city; the emergence of specific associations between place, music, and sound; and the acoustic ecology of architecture, landscape and urban design. The collection and accompanying CD will be of interest to a wide range of disciplines including architecture, cultural studies, geography, musicology, and urban sociology.

**50 Wild Motorcycle Tales** - Walter F. Kern  
2014-06-21

This book is an anthology of motorcycle stories. These 50 stories were submitted to me over a 13-year period by a wide range of motorcyclists from all walks of life. These authors tell their own personal stories of what happened to them as they rode their motorcycles. Among these writers are a few professionals who made some of their works available to me early in their careers. They now have books of their own. Some tales are very short, and some are very long. I've tried to mix them up. You may find the stories of some authors grouped together. Each tale was intensively edited to provide a good reader experience. You'll find humor, risk-taking, adventures, poetry, rhyming verse, 2-up excursions, world travelers, stupid tricks on bikes, lessons learned, winter riding perils, hazards while riding, and stories told by returning riders. I wrote five of these stories.

Two of my stories relate my experiences on my motorcycle trips. Two stories are fictional children's stories that involve fantasy and motorcycles. The last story is a short fictional tale that describes an alternate world of motorcycles. Got a better original tale? Send it to me for consideration in a possible sequel.

**Our Patchwork Nation** - Dante Chinni  
2011-10-04

A revolutionary new way to understand America's complex cultural and political landscape, with proof that local communities have a major impact on the nation's behavior-in the voting booth and beyond. In a climate of culture wars and tremendous economic uncertainty, the media have often reduced America to a simplistic schism between red states and blue states. In response to that oversimplification, journalist Dante Chinni teamed up with political geographer James Gimpel to launch the Patchwork Nation project, using on-the-ground reporting and statistical analysis to get past generalizations and probe American communities in depth. The result is Our Patchwork Nation, a refreshing, sometimes startling, look at how America's diversities often defy conventional wisdom. Looking at the data, they recognized that the country breaks into twelve distinct types of communities, and old categories like "soccer mom" and "working class" don't matter as much as we think. Instead, by examining Boom Towns, Evangelical Epicenters, Military Bastions, Service Worker Centers, Campus and Careers, Immigration Nation, Minority Central, Tractor Community, Mormon Outposts, Emptying Nests, Industrial Metropolises, and Monied Burbs, the authors

demonstrate the subtle distinctions in how Americans vote, invest, shop, and otherwise behave, reflect what they experience on their local streets and in their daily lives. Our Patchwork Nation is a brilliant new way to debate and examine the issues that matter most to our communities, and to our nation.

**Parallel Evolution of Parallel Processors** - G. Lerman 2013-03-07

Study the past, if you would divine the future. - CONFUCIUS A well written, organized, and concise survey is an important tool in any newly emerging field of study. This present text is the first of a new series that has been established to promote the publications of such survey books. A survey serves several needs. Virtually every new research area has its roots in several diverse areas and many of the initial fundamental results are dispersed across a wide range of journals, books, and conferences in many different sub fields. A good survey should bring together these results. But just a collection of articles is not enough. Since terminology and notation take many years to become standardized, it is often difficult to master the early papers. In addition, when a new research field has its foundations outside of computer science, all the papers may be difficult to read. Each field has its own view of elegance and its own method of presenting results. A good survey overcomes such difficulties by presenting results in a notation and terminology that is familiar to most computer scientists. A good survey can give a feel for the whole field. It helps identify trends, both successful and unsuccessful, and it should point new researchers in the right direction.

**The Fair Fight** - Anna Freeman 2015-04-14  
NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL  
The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, *The Fair Fight* is a raucous, intoxicating tale of courage, reinvention, and fighting one's way to the top.

The world of Honda and motorcycle enthusiasts both crave a comprehensive look at these bikes and the company that produces them and this outstanding chronicle offers a truly remarkable

perspective of more than fifty years of Honda's prowess.

*An Earthly Paradise* - Raziuddin Aquil

2020-02-25

This collection of articles on varied facets of early modern Bengal showcases cutting edge work in the field and hopes to encourage new research. The essays explore the trading networks, religious traditions, artistic and literary patronage, and politico-cultural practices that emerged in roughly sixteenth-eighteenth centuries. Using a wide array of sources, the contributors to this volume, coming from diverse academic affiliations, and including many young researchers, have attempted to address various historiographical 'black holes' bringing in new material and interpretations. Early modern Bengal's history tends to get overshadowed by the later developments of the nineteenth century. What this assortment of articles highlights is that this period needs to be studied afresh, and in depth. The region underwent rapid transformations as it got politically integrated with Northern India and its empires and economically with extensive global economic networks. Combined with its unique geography, the trajectory of this region in all spheres manifest an almost constant interplay of local and extra-local forces - be it in literature, art, economic domain, political and religious cultures - and considerable enterprise and ingenuity. Thus, a variety of themes - including travel accounts, Portuguese and Arakanese presence, early Dutch, French, Ostend companies' forays into the region, artistic production in the Nizamat and later collections of art and missionaries, the English company state's intrusions in local economy in salt and raw silk production and indigenous reactions and rebellions, consumption practices related to religious activities, circulation and translation of texts, representation of women in vernacular writings, and organization of religious traditions - have been analysed in this volume, with a wide ranging introduction tying up the themes to the broader historiographical issues and contexts. The collection will be an invaluable reference tool for students and scholars of history, especially of early modern India. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does

not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.
