Marcel's Letters - Carolyn Porter 2017-06-06
Finalist for the 2018 Minnesota Book Award A graphic designer's search for inspiration leads to a cache of letters and the mystery of one man's fate during World War II. Seeking inspiration for a new font design in an antique store in small-town Stillwater, Minnesota, graphic designer

Carolyn Porter stumbled across a bundle of letters and was immediately drawn to their beautifully expressive pen-and-ink handwriting. She could not read the letters—they were in French—but she noticed all of them had been signed by a man named Marcel and mailed from Berlin to his family in France during the middle of World War II. As Carolyn grappled

with designing the font, she decided to have one of Marcel's letters translated. Reading it opened a portal to a different time, and what began as mere curiosity quickly became an obsession with finding out why the letter writer, Marcel Heuzé, had been in Berlin, how his letters came to be on sale in a store halfway around the world, and, most importantly, whether he ever returned to his beloved wife and daughters after the war. Marcel's Letters is the incredible story of Carolyn's increasingly desperate search to uncover the mystery of one man's fate during WWII, seeking answers across Germany, France, and the United States. Simultaneously, she continues to work on what would become the acclaimed P22 Marcel font, immortalizing the man and his letters that waited almost seventy years to be reunited with his family.

Understanding Colonial Handwriting - Harriet Stryker-Rodda 1980

"In genealogical research it is all very well to locate original records, but to read them

correctly is another matter altogether. Few people know this better than Harriet Stryker-Rodda who, after years of experience searching through colonial records, has developed a simple technique for reading colonial handwriting. In this handy little book, Mrs. Stryker-Rodda presents examples of colonial letter forms and script, showing the letter forms in the process of development and marking the ways in which they differ from later letter forms. She also provides a comparison of English and American handwriting and examples of name forms and signatures all to bear out her central thesis, that the reader must find meaning in a group of symbols without needing to see each letter of which the whole is composed. This excellent guidebook is indispensable in dealing with the problems of reading and interpretation"--
