Critique of Black Reason - Achille Mbembe 2017-02-17
In *Critique of Black Reason* eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve

as the template for all new forms of exclusion. With *Critique of Black Reason*, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future. *The Animal That Therefore I Am* - Jacques Derrida 2009-08-25

The translated, complete text of Derrida's 1997 ten-hour address, "The Autobiographical Animal," focusing on the industrialized treatment of animals. *The Animal That Therefore I Am* is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction?dating from Descartes?between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced

to a single “the animal.” Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book’s autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida’s experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of “man’s dominion over the beasts” and trace a history of how man has systematically displaced onto the animal his own failings or *bêtises*. The *Animal That Therefore I Am* is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of

animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of “life” to which he returned in much of his later work.

Factfulness - Hans Rosling

2018-04-03

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most

things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.”

Hans Rosling, February 2017.

Integrated Science - Nima

Rezaei 2021-06-16

Integrated Science: Science without Borders” is the first volume of the INTEGRATED SCIENCE Book series, aiming to publish the results of the most updated ideas and reviews in transdisciplinary fields and to highlight the integration of discrete disciplines, including formal sciences, physical-chemical sciences and engineering, biological sciences, medical sciences, and social sciences. This volume primarily focuses on the research involving the integration of two or more academic fields offering an

innovative, borderless view, which is one of the main focuses of the Universal Scientific Education and Research Network (USERN). The whole world is suffering from complex problems; these are borderless problems; thus, a borderless solution could merely solve such complex issues. Transdisciplinarity is a domain, that researchers work jointly, using a shared conceptual framework, drawing together disciplinary-specific theories, concepts, and approaches to address common problems. Lack of confidence, lack of expertise, complexities of healthcare, the confusing nature of healthcare environments, and lack of organization and standardization are the obstacles of successful scientific communication. Consequently, this book provides an overview of the essential elements of transdisciplinary studies and integrated science. The unique aspect of this book -privileging it from other books- is covering all aspects of science as

Frontières - Frédéric Chevalley
2018-11-19

Qui est-il, Oscar Rasco ? Lui-même se le demande... Par tous les temps, la rivière s'écoulait. Le petit village qui abritait la vie d'Oscar Rasco siestait à l'ombre des champs de blé. Le trentenaire se laissait bercer par la brise du quotidien. Pourtant, quelque chose d'inhabituel avait dû se produire. Car pour l'heure, l'homme se débat seul, sans mémoire, dans un espace sans lumière et sans issue, aux prises avec une matière inconnue ! Lui qui voulait se contenter de la surface du monde doit se confronter à présent avec cette substance étrange, et jusqu'ici invisible. Cette dernière transpire le passé, l'histoire des liens, la séduction, la sexualité : toutes ces frontières qui nous constituent. Laissez-vous

emporter par la profondeur de ce roman, aux côtés d'Oscar Racso, un homme à la recherche de sa mémoire et de son passé. EXTRAIT Oscar Racso avait mauvaise mine. Le miroir de la salle de bains le confirmait. De manière générale, Oscar trouvait son physique plutôt agréable. Ses amis, trentenaires eux aussi, ne s'en sortaient pas tous aussi bien. Ses cheveux se dressaient toujours, le bidon savait se tenir, et sa musculature en imposait encore. Mais bon Dieu, se lamenta-t-il : tout semble pendouiller aujourd'hui, même ses yeux. La porte s'ouvrit et Julie apparut. Elle adressa une paume en guise de bonjour matinal. De l'autre main, elle déposa sur le bord de la baignoire des habits que devrait porter son mari, aujourd'hui. Toujours à travers le miroir, la vue des vêtements noirs rappela à Oscar qu'il devait se rendre à l'enterrement de Rosa, tout à l'heure. Il n'irait donc pas au bureau. Ne vendra aucune assurance vie. « Merde », lâcha Oscar. Son collègue Quentin

allait encore creuser son avance. Il enfila machinalement le pantalon préparé pour lui. Julie lui achetait et choisissait les tenues en fonction des circonstances. Ce costard sombre, d'ailleurs, paraissait parfaitement adapté à une cérémonie funéraire. Rosa était recouverte de bois et de fleurs. La petite église, bondée. L'ensemble du village était représenté. C'est que Rosa, tout le monde l'aimait, se disait Oscar. Et lui, le premier. Le curé parla, sans jamais s'arrêter, mais le petit-fils de la défunte ne l'entendait pas. Il se voyait, assis sur le tabouret qu'il occupait, chaque fois qu'il jouait aux cartes avec elle, sur le parvis de sa maison, en discutant des fruits, des tissus, du thé, de la vie, de la mort. À PROPOS DE L'AUTEUR Né en 1973, Frédéric Chevalley vit et travaille à Genève. En parallèle de son travail de psychothérapeute, il explore les territoires invisibles à travers les mots, la musique, la peinture. Après la parution de Diaporama d'un gamin paru en

African Studies in

Geography from Below - Ben Arrous 2009-11-01

The doctrine of international relations (inter-state, indeed), territorial ideologies, the logic

of autochthony and its ramifications, ethnic cleansing, are all hinged at different levels upon the same pseudo-fact: to every society a closed and exclusive territory demarcated by fixed and linear borders. This way of thinking, totally foreign to African societies for a long time, has generated today more contradictions than it can ever solve. The authors of this book make a clear distinction between territory formation "from the top" as being a deliberate political project, and its formation "from below" as being a more diffused historical process which is determined by the scheme of antagonisms and compromises between social forces. In lieu of a stark opposition between "the top" and "below", the authors unveil the interdependence and mutual influence which form the basis of a dual system within which legal formation - by the colonial authorities first, then by the postcolonial one- is confronted with a host of subaltern spatial dynamics, neglecting thereby the

legitimacy which only they can provide. As an essential read for anyone who is interested in the relationship between knowledge and power, this book offers stimulating perspectives on the issue of African unity and its epistemological and political challenges. It renews profoundly our approaches to human security, citizenship, borders and mobility. Contributions are in English and in French.

The Circle - Dave Eggers

2013-10-08

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating

system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of

Thou Shall Not Use Comic Sans
- Tony Seddon 2011-12-29

Ask any graphic designer the world over about their preferred approach to setting type, choosing a color, or beginning a new layout, and you will rarely get exactly the same answer twice. All designers have their own way of working and their own combinations of the thousands of techniques one can apply when planning a new design project. But there are some dos and don'ts that always figure in any heated debate about what one should or should not accept as the right way to create the best graphic design. This book looks at key dos and don'ts, bringing them together in the form of a classically structured almanac. Packed with practical advice, but presented in a light-hearted

fashion, the advisory rather than dictative approach means designers can take or leave the advice presented in each rule as is typical of most creatives with their own strong views on what does and does not constitute good design practice. Individual entries will either bring forth knowing nods of agreement or hoots of derision, depending on whether or not the reader loves or hates hyphenation, has a pathological fear of beige, or thinks that baseline grids are boring. *Thou Shall Not Use Comic Sans* is the must-have collection of the best advice that any graphic designer should have at his fingertips, with each entry combining a specific rule with a commentary from a variety of experienced designers from all fields of the graphic design industry. Grouped into six, color-coded categories—typography, color, layout, imagery, production, and the practice of design—but presented numerically and in mixed groups, the reader can either dip in at random or use

Man and His Symbols - Carl G. Jung 1968-08-15

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung’s revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to

our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life’s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this

groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.
