MANAGEMENT AND COST ACCOUNTING - COLIN M. DRURY 2013-12-11

Managing a Land in Motion - National Park Service 2013-06-28

During the 1906 San Francisco earthquake, the Point Reyes Peninsula, forty miles farther north along the San Andreas Fault, shook loose from its temporary moorings to the California coastline and lurched to the northwest by some twenty feet. The powerful quake that terrorized the city also tore through the land and jarred the rural inhabitants of Point Reyes. It was another abrupt step in the peninsula's slow creep from southern to northern California, yielding a piece of land quite divergent from the California mainland to which it is now affixed.

Although pressure along the

San Andreas Fault continued to build for the remainder of the century, there were no other geologic events of a magnitude that could so drastically alter the land's surface. By contrast, human events since 1906 have significantly altered the peninsula's landscape. In the century following the earthquake, economic, cultural, and political forces gradually reshaped Point Reyes. Possibly the biggest tremor took place in 1962, when Congress created, and President John F. Kennedy signed into law, the Point Reyes National Seashore. At that juncture, the political geography of the land, as a new unit of the National Park Service (NPS), was about to change dramatically. This volume, *Managing a Land in Motion: An Administrative History of Point Reyes National Seashore*, traces, explains, and analyzes the ideas and events that produced the national seashore and transpired in the forty years that followed.

Taxing Consumption in the Digital Age - Katharina Artinger 2020-10-16
Die Digitalisierung hat enorme Auswirkungen auf die Grundidee der Mehrwertsteuer: den Austausch von Leistungen für Konsumzwecke. Die Dissertation konzentriert sich auf den Austausch von scheinbar "kostenlosen" Online-Dienstleistungen und die Zustimmung der Kunden zur Verwertung ihrer persönlichen Daten. Diese können der Mehrwertsteuer unterliegen, wobei die Bemessungsgrundlage auf

Grundlage der Anbieterkosten berechnet werden muss. Die Ergebnisse basieren auf einer Analyse der EU-Mehrwertsteuer als Verbrauchsteuer im Vergleich zu anderen theoretischen Konsummodellen. Auch andere digitale Geschäftsmodelle, wie die Sharing Economy oder Bitcoins, können unter die Idee der EU-Mehrwertsteuer als Verbrauchsteuer subsumiert werden. W. E. Glautier 1986

Beyond Budgeting - Jeremy Hope 2003

In their groundbreaking book, authors Jeremy Hope and

Robin Fraser show how organizations can break free from the annual budget trap once and for all. Beyond Budgeting is not a new financial-planning process - it is an alternative, coherent management model that enables companies to manage performance through processes specifically tailored to today's volatile marketplace. Hope and Fraser spent five years studying a wide range of international companies - from a global corporation to a small charity, from a bank to a ball-bearing manufacturer - that have already abandoned traditional budgeting to varying degrees. From these pioneering experiences, the authors have distilled a set of guiding principles that will take any company beyond budgeting to a whole new level of competitiveness. Based on the decision-making needs of front-line managers, Beyond Budgeting enables readers to take advantage of two major opportunities: 1) a set of adaptive management processes that replace

centrally controlled, predetermined goals with self-regulating, relative competitive benchmarks, and 2) the transfer of power and decision-making authority from the center of the organization to the front line.

Pattern Cutting and Making Up

- Janet Ward 2012-08-21

Major changes have occurred in the last few years in the methods of cutting and manufacturing outerwear. Light clothing companies are now manufacturing these heavy garments because of the development of fusible interlinings and new

manufacturing techniques which have resulted in the deskilling of traditional tailoring methods. Outerwear has consequently assumed much greater importance in light clothing courses and this book - the first of its kind - has been written to reflect these industrial changes. It offers a course of practical and theoretical study which is related to specific garment types and fabrics. An essential manual for students at every level. Suitable for use in CGLI, BTEC and degree courses, this uniquely comprehensive work is certain to become a standard textbook on its subject.

Finance for Purchasing Managers - Richard France
2016-04-15

Managers involved at a senior level in the purchasing function require very particular financial skills. They need to: analyse the financial health and stability of their suppliers; model different cost and price scenarios; understand and manage budgets; and be comfortable with the financial aspects of capital purchases. Finance for Purchasing Managers is written from this perspective using buyer's language and interpretation. Richard France explores four key areas of expertise required of a buyer in today's

environment: Financial analysis of suppliers - this includes understanding the financial aspects of a buyer's own organisation plus analysing key suppliers and how to use information to gain a negotiating edge. Pricing, costing and cost modelling - including costing methods and their application and how an understanding of these can give buyers a greater understanding when dealing with supplier quotations. Managing resources - including budgeting and sources of finance. This shows how budgets are drawn up and the importance of understanding the implications of the buyer's decisions on a supplier's cash flow forecast. Finally, capital and revenue purchasing decisions and techniques - covering standard investment appraisal techniques and how these can be used for deciding on the best deal from a choice of suppliers for both capital items as well as a standard long term parts supply contract. Finance for Purchasing Managers may be

used to support the CIPS Level 6 Course 'Finance for Purchasers' but also offers a readable and practical guide for those at a senior level in purchasing whether in the public or private sector.

Environmental Management Accounting: Informational and Institutional

Developments - M.D. Bennett
2006-04-11

Environmental Management Accounting (EMA) is increasingly recognised as a distinguished tool of environmental management. It helps to integrate a company's environmental and business interests, whereby enhancing corporate eco-efficiency in terms of reducing

environmental costs or making one's product more competitive. This book gives a comprehensive coverage of the state of the art. It presents a number of EMA frameworks that companies can take as a basis for implementing their own specific EMA structures. Besides discussing environmental accounting issues within conventional management accounting, it gives a detailed picture of materials flow (cost) accounting as an alternative way of looking at the ecology-economy relationships at the corporate level. A fascinating case study shows how a large company (Siemens) applies materials flow accounting and what benefits it entails.

Management and Cost

Accounting - Colin Drury 1997
The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the

new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.
