Corporate and Commercial Practice in the Delaware Court of Chancery - Michael A. Pittenger 2019-12-13

Because it is the corporate domicile of choice in the United States, Delaware produces and implements the substantive laws governing internal affairs for most of our nation's corporations - large and small. As a result, most battles concerning the application of those laws are waged in Delaware courts. In *Corporate and Commercial Practice in the Delaware Court of Chancery*, you'll profit from the singular insight and firsthand experience of two of the court's leading practitioners. You'll quickly find out why the Court of Chancery is to corporate litigation what the Delaware General Corporation Law is to the nation's corporate community. And most important, you'll learn about numerous topics never before explored in such a comprehensive manner. Inside you'll find key coverage of: • Jurisdiction, venue and service • Motions practice • Multijurisdictional litigation • Depositions and discovery • Privileges and immunities • Defenses, remedies and appeals • Costs and attorneys fees • And much more.

The Letters of Dominique Chaix, Botanist-Curé - R.L. Williams 2012-12-06

This is the first publication of the 170 letters written by the Abbé Dominique Chaix to Dr. Dominique Villars between 1772 and 1799, when they were collaborating on the publication of the first flora for the old province of Dauphiné. The letters reveal the uncertainties of plant classification in the late 18th century, but, more generally, the penetration of the Enlightenment into a remote, alpine region of France. Both botanists were of recent peasant origin, invading, albeit deferentially, an intellectual field, traditionally the monopoly of their social betters. The letters also document the enthusiasms, anxieties, and perils of rural clerical life during the French Revolution, and give occasional evidence about the deforestation of the mountains.

Lidia's Family Table - Lidia Matticchio Bastianich 2010-08-18
From one of America best-loved and most-admired chefs, an instructive and creative collection of over 200 recipes that bring simple, delicious Italian cooking to the family table, with imaginative ideas for variations and improvisations. Lidia's Family Table features hundreds of fabulous new dishes that will appeal both to Lidia's loyal following, who have come to rely on her wonderfully detailed recipes, and to the more adventurous cook ready to experiment. • She welcomes us to the table

with tasty bites from the sea (including home-cured tuna and mackerel), seasonal salads, and vegetable surprises (Egg-Battered Zucchini Roll-Ups, Sweet Onion Gratin). • She reveals the secret of simple make-ahead soup bases, delicious on their own and easy to embellish for a scrumptious soup that can make a meal. • She opens up the wonderful world of pasta, playing with different shapes, mixing and matching, and creating sauces while the pasta boils; she teaches us to make fresh egg pastas, experimenting with healthful ingredients—whole wheat, chestnut, buckwheat, and barley. And she makes us understand the subtle arts of polenta- and risotto-making as never before. • She shares her love of vegetables, skillet-cooking some to intensify their flavor, layering some with yesterday's bread for a lasagna-like gratin, blanketing a scallop of meat with sautéed vegetables, and finishing seasonal greens with the perfect little sauce. • She introduces us to some lesser-known cuts of meats for main courses (shoulders, butts, and tongue) and underused, delicious fish (skate and monkfish), as well as to her family's favorite recipes for chicken and a beautiful balsamic-glazed roast turkey. • And she explores with us the many ways fruits and crusts (pie, strudel, cake, and toasted bread) marry and produce delectable homey desserts to end the meal. Lidia's warm presence is felt on every page of this book, explaining the whys and wherefores of what she is doing, and the brilliant photographs take us right into her home, showing her rolling out pasta with her grandchildren, bringing in the summer harvest, and sitting around the food-laden family table. As she makes every meal a celebration, she invites us to do the same, giving us confidence and joy in the act of cooking.
