In this collection, expert authors place leading cases in criminal law in their historical and legal contexts, highlighting their significance both in the past and for the present. The cases in this volume range from the fifteenth to the twenty-first century. Many of them are well known to modern criminal lawyers and students; others are overlooked landmarks that deserve reconsideration. The essays, often based on

extensive and original archival research, range over a wide spectrum of criminal law, covering procedure and doctrine, statute and common law, individual offences and general principles. Together, the essays explore common themes, including the scope of criminal law and criminalisation, the role of the jury, and the causes of change in criminal law.

**The Subject of Human Rights** - Danielle Celermajer 2020-09-22

The Subject of Human Rights is the first book to systematically address the "human" part of "human rights." Drawing on the finest thinking in political theory, cultural studies, history, law, anthropology, and literary studies, this volume examines how human rights—as discourse, law, and practice—shape how we understand humanity and human beings. It asks how the humanness that the human rights idea seeks to protect and promote is experienced. The essays in this volume consider how human rights norms and practices affect the way we relate to ourselves, to other people, and to the nonhuman world. They investigate what kinds of institutions and actors are subjected to human rights and are charged with respecting their demands and realizing their aspirations. And they explore how human rights shape and even create the very subjects they seek to protect. Through critical reflection on these issues, The Subject of Human Rights suggests ways in which we might reimagine the relationship between human rights and subjectivity with a view to benefiting human rights and subjects alike.

**BLAZE A SONS TRIAL BY FIRE** - Nidhi

Poddar 2021-08-05

Can a disease, more importantly, cancer, be a potent tool of self-evolution for both, the person who suffers from it, and his/her caregivers, especially parents? The value of good health is realized when it no more remains with us. The journey to salvage the lost friend can still offer myriad opportunities of redemption and self-discovery. It is up to us how we decide to tread this formidable path leading to self-actualization. Time has made us realize that it is not fair to stereotype a person suffering from cancer from the point of view of cure or recovery. Many a time, such stereotyping comes from our own society, and sometimes, ironically, from the medical fraternity, for its inability to go beyond a point, after which you feel you are condemned and vegetative. All these negativities passively entrap the patients and their parents in the viciousness of the disease where they die many times before the actual death. This is the worst form of cancer which has plagued our mindset. In the case of Divyansh Atman, the authors' son, it was not so. Divyansh was the embodiment of courage and self-determination in the face of adversities. His life journey shows us how the path of opportunities can still be paved in the middle of adversities. He lived a big and a meaningful life that made a huge impact on the lives of people around him. Cancer can bring in self-evolution, both for the sufferer and his caregivers. An inspirational memoir. A soul stirring account of a young boy who suffered from cancer but lived a life which inspired many. A true story of grit and human strength. To be read by every parent who grieves the

**Hindu Law (Classic Reprint)** - J. D. Mayne

2016-11-23

Excerpt from Hindu Law Ix preparing the present edition of what was originally called Elements of Hindu law, the author has no acknowledgments to make, in any quarter, for assistance, or suggestion; though invitation, and even solicitation, on his part, has not been wanting; as, independent of other reference, appears by the concluding paragraph of the Preface to the first. In this respect, the author has been careful not to be deficient in his duty. In a work of the kind, it was imperative. Conscious how ungrateful is the subject - bowing to the almost universal indifference as to what regards India, further than as our own direct interests are involved, the author is not disappointed, - not having been sanguine in his expectations - and the failure of all encouragement of the sort, in the progress of such preparation, will have had no other effect, than that of stimulating his care and diligence, toward attaining his object, in the cultivation of his own resources. The principal change in the present edition is in the arrangement of the matter; producing a different succession of chapters, with a reduction of them from thirteen to twelve. This has occasioned parts to be written over again. With considerable alteration; and these so incorporated and connected with the composition, as it originally stood, that, in justice to the purchasers and possessorsrhi preface.
