Cursive Handwriting for Adults - John Neal 2019-06-18

Relearn the beautiful art of cursive handwriting! In this type, tap and swipe world, you have few opportunities to write in cursive. As a result, your skills diminish. Then, when the critical moment arises and you need to personally write something in your own hand, the results are not very impressive. In fact, they're embarrassingly bad. Written and designed specifically for an adult audience, this book's program for relearning cursive is guaranteed to take your penmanship to a new level. You will relearn the strokes and techniques and practice with the workbook

pages. The instructions are easy to follow but designed for adults, so they present the information in a more compelling way. You'll find no "a is for apple" practice pages in this book. The exercises and sample pages are geared specifically for a more mature audience to help you relearn and practice cursive handwriting in a fun and friendly way.

Cadels - Vivian Mungall 2019-12-15

This calligraphy book takes the reader through step by step instructions to learn how to letter Cadels. A cadel is a letter composed of a series of tape-like strokes, which are nearly parallel, and are interwoven and knotted together to produce a complete letter. These capital letters were used as a single initial letter (versal) or multiple letters. The oldest known cadel found was in the illuminated prayer book, the Tres Riches Heures de Duc de Berry made by the Limbourg Brothers. In 1409, Jean Flamel, the Duc's Secretary, inscribed the title page of the book with cadels. He incorporated the cadels into the letter's stems, producing an overall texture to the whole page. Since there is no standard exemplar for this lettering style, this book covers many ways a calligrapher can create these beautiful capitals by either following the historical version or creating their own style.

Spencerian Penmanship Practice Book: The Declaration of Independence - Schin Loong 2018-07-03

Practice makes perfect! It's no secret that improving your Spencerian

penmanship requires practice. Unfortunately, Platt Rogers Spencer published less than 30 Spencerian practice sentences. That's why this helpful workbook offers over 180 pages of all-new phrases and sentences for you to refine your lettering. Across the top of each page is carefully composed Spencerian lettering by penman Schin Loong. Below the sample sentence is line after line of practice space where you can master your letter height, width, spacing, stroke weight and more. The pages are even perforated so it is easy for you to tear them out and practice on a perfectly at surface. But this book contains no ordinary words—they are the immortal phrases from the Declaration of Independence that define freedom and liberty, such as “We hold these truths to be self evident that all men are created equal.”

Pioneering Women in American Mathematics - Judy Green 2009-01

More than 14 percent of the PhD's awarded in the United States during the first four decades of the twentieth century went to women, a proportion not achieved again until the 1980s. This book is the result of a study in which the authors identified all of the American women who earned PhD's in mathematics before 1940, and collected extensive biographical and bibliographical information about each of them. By reconstructing as complete a picture as possible of this group of women, Green and LaDuke reveal insights into the larger scientific and cultural communities in which they lived and worked. The book contains an extended introductory essay, as well as biographical entries for each of the 228 women in the study. The authors examine family backgrounds, education, careers, and other professional activities. They show that there were many more women earning PhD's in mathematics before 1940 than is commonly thought. Extended biographies and bibliographical information are available from the companion website for the book: www.ams.org/bookpages/hmath-34. The material will be of interest to researchers, teachers, and students in mathematics, history of mathematics, history of science, women's studies, and sociology. The data presented about each of the 228 individual members of the group will support additional study and analysis by scholars in a large number of disciplines.

Material Aspects of Letter Writing in the Graeco-Roman World -

Antonia Sarri 2017-11-20

Letter writing was widespread in the Graeco-Roman world, as indicated by the large number of surviving letters and their extensive coverage of all social categories. Despite a large amount of work that has been done on the topic of ancient epistolography, material and formatting conventions have remained underexplored, mainly due to the difficulty of accessing images of letters in the past. Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions, we are now in a position to study such aspects. This book examines the development of letter writing conventions from the archaic to Roman times, and is based on a wide corpus of letters that survive on their original material substrates. The bulk of the material is from Egypt, but the study takes account of comparative evidence from other regions of the Graeco-Roman world. Through analysis of developments in the use of letters, variations in formatting conventions, layout and authentication patterns according to the sociocultural background and communicational needs of writers, this book sheds light on changing trends in epistolary practice in Graeco-Roman society over a period of roughly eight hundred years. This book will appeal to scholars of Epistolography, Papyrology, Palaeography, Classics, Cultural History of the Graeco-Roman World.

The Emergence of Multiple-Text Manuscripts - Alessandro Bausi 2019-12-02

The universal practice of selecting and excerpting, summarizing and canonizing, arranging and organizing texts and visual signs, either in carefully dedicated types of manuscripts or not, is common to all manuscript cultures. Determined by intellectual or practical needs, this process is never neutral in itself. The resulting proximity and juxtaposition of previously distant contents, challenge previous knowledge and trigger further developments. With a vast selection of

highly representative case studies – from India, Islamic Asia and Spain to Ethiopian cultures, from Ancient Christian to Coptic, and Medieval European domains – this volume deals with manuscripts planned or growing and resulting in time to comprise ‘more than one’. Whatever their contents – the natural world and related recipes, astronomical tables or personal notes, documentary, religious and even highly revered holy texts – codicological and textual features of these manuscripts reveal how similar needs received different answers in varying contexts and times.

Writing Beyond Pen and Parchment - Ricarda Wagner 2019-10-21

What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? *Writing beyond Pen and Parchment* introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre “Material Text Cultures,” (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume’s focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

The Lost Art of Handwriting - Brenna Jordan 2019-03-05

Revisit the lost art of writing with these fun prompts, worksheets, exercises—and more!—and experience the many benefits of writing by hand, including increased focus and memory, relaxation, and creative expression. Writing by hand may seem passé in the digital age, but it shouldn't be dismissed as simply an activity for grade schoolers—it offers

countless benefits that have been studied by researchers, brain neurologists, therapists, educators, and others who are invested in helping handwriting thrive in an age of advancing technology. Handwriting may be slower than typing—but this gives your brain more time to process information, and stimulates neurological connections that aid in memory, focus, and composition. The process of handwriting can also have a soothing, calming effect and can even serve as a great form of meditation. And of course, it's a great way of expressing your individuality and personal style. The *Lost Art of Handwriting* explores the history of writing longhand, and reintroduces proper stroke sequences, letter forms, and techniques for evaluating and improving your handwriting. You will discover how the amazing variety of letter forms provide endless opportunities for making these alphabets your own, and how to choose alternatives that fit your preferences while keeping your writing neat, consistent, and unique to you. You'll learn how to connect letters in cursive writing to help you write more smoothly, and with practice, more efficiently. Learn how easy it is to apply what you've learned into your everyday life with tips for integrating handwriting practice into already jam-packed schedules. Soon, you'll notice a steady increase in the relaxation, value, and joy that handwriting offers to everyone who persists in putting the pen or pencil to paper.

Hunter School - Sakinu Ahronglong 2020-07-13

Hunter School is a work of fiction consisting of recollections, folklore, and autobiographical stories from the perspective of an aboriginal Taiwanese man aiming to reconnect with his lost tribal identity. A common theme running throughout this charming but important book is that of a young man learning about himself and his heritage - from the past, elders, ancestors, and nature itself. This award-winning book is a highly readable and touching work with great insight into the unique aboriginal Taiwanese societies.

NurtureShock - Po Bronson 2009-09-03

In a world of modern, involved, caring parents, why are so many kids aggressive and cruel? Where is intelligence hidden in the brain, and why does that matter? Why do cross-racial friendships decrease in schools

that are more integrated? If 98% of kids think lying is morally wrong, then why do 98% of kids lie? What's the single most important thing that helps infants learn language? *NurtureShock* is a groundbreaking collaboration between award-winning science journalists Po Bronson and Ashley Merryman. They argue that when it comes to children, we've mistaken good intentions for good ideas. With impeccable storytelling and razor-sharp analysis, they demonstrate that many of modern society's strategies for nurturing children are in fact backfiring--because key twists in the science have been overlooked. Nothing like a parenting manual, the authors' work is an insightful exploration of themes and issues that transcend children's (and adults') lives.

Cursive Handwriting Workbook for Adults - Ellie Roberts 2019-03-22
Meaningful and Inspirational - Cursive Handwriting Practice for Adults!
Learning cursive handwriting can be extremely beneficial in today's society. However, the practice can sometimes be difficult and quite boring. The Cambridge Companion to Hildegard of Bingen - Jennifer Bain 2021-11-04

This specially commissioned collection of thirteen essays explores the life and works of Hildegard of Bingen (1098-1179), monastic founder, leader of a community of nuns, composer, active correspondent, and writer of

religious visions, theological treatises, sermons, and scientific and medical texts. Aimed at advanced university students and new Hildegard researchers, the essays provide a broad context for Hildegard's life and monastic setting, and offer comprehensive discussions on each of the main areas of her output. Engagingly written by experts in medieval history, theology, German literature, musicology, and the history of medicine, the essays are grounded in Hildegard's twelfth-century context, and investigate her output within its monastic and liturgical environments, her reputation during and after her life, and the materiality of the transmission of her works, considering aspects of manuscript layout, illumination, and scribal practices at her Rupertsberg monastery.

American Cursive Handwriting - Michael R. Sull 2010-09-01

Epiphanies and Dreams in Greek Polytheism - Michael Lipka 2021-12-06

While modern students of Greek religion are alert to the occasion-boundedness of epiphanies and divinatory dreams in Greek polytheism, they are curiously indifferent to the generic parameters of the relevant textual representations on which they build their argument. Instead, generic questions are normally left to the literary critic, who in turn is less interested in religion. To evaluate the relation of epiphanies and divinatory dreams to Greek polytheism, the book investigates relevant representations through all major textual genres in pagan antiquity. The evidence of the investigated genres suggests that the 'epiphany-mindedness' of the Greeks, postulated by most modern critics, is largely an academic chimaera, a late-comer of Christianizing 19th-century-scholarship. It is primarily founded on a misinterpretation of Homer's notorious anthropomorphism (in the Iliad and Odyssey but also in the Homeric Hymns). This anthropomorphism, which is keenly absorbed by Greek drama and figural art, has very little to do with the religious lifeworld experience of the ancient Greeks, as it appears in other genres. By contrast, throughout all textual genres investigated here, divinatory dreams are represented as an ordinary and real part of the ancient Greeks' lifeworld experience.
