[Deltora Quest Teacher's Resource Book](#) - Alf Mappin 2006

The Deltora series is an exciting, well-written, carefully planned series of fantasy novels. As well as being an adventure quest, the tales have incorporated into their storyline a number of puzzles, both verbal and mathematical. Once introduced to the series, a reader is sure to want to continue through to the end. Emily Rodda, the author, deliberately set out to create books that would entice the more reluctant reader in order to both develop their interest in reading and to extend their reading stamina. These notes apply to the third series. The king is this time seeking to overcome the blight that the Shadow Lord has placed over the land of Deltora. The author ties all the ends together from the sequence of fifteen books, and brings it to a satisfying conclusion. The teacher's notes can be used in several ways. The series could be taken teacher-directed as a whole class activity with teacher read/teacher directed sets of activities. They could also be used by students individually, in pairs, or in groups. Note that throughout each series the books form a continuous story and it is better to read them in order.
