Contemporary Issues in Curriculum - Allan C. Ornstein 2015-01-06

Contemporary Issues in Curriculum, 6/e presents an eclectic, balanced approach to the major emergent trends in the field from a diversity of leaders in the field who share their opinions and thoughts on curriculum issues. An issues-oriented collection of 36 articles by the major thinkers in curriculum study, it looks at issues that affect successful implementation, planning, and evaluation of curriculum at all levels of learning. Organized into six Parts—Curriculum and Philosophy, Curriculum and Teaching, Curriculum and Learning, Curriculum and Instruction, Curriculum and Supervision, and Curriculum and Policy—the readings reflect both traditionally held assumptions as well as those more controversial in nature. Students and practitioners have the opportunity to turn to a single source to investigate the breadth of issues that affect curriculum, examine and debate the issues, formulate their own ideas, and help shape the future direction of the field.

*An Educational Leader's Guide to Curriculum Mapping* - Janet A. Hale 2010-06-28

Curriculum mapping initiatives are started with the essential goal of improving student achievement, yet the mapping process can be challenging to navigate or lead. While the main work of curriculum mapping is conducted by classroom teachers, administrators must be

actively involved, and they must also take into account the demands curriculum mapping places on teachers. This book provides administrators with the foundational understandings and specific guidance and strategies to effectively support a curriculum mapping initiative in their schools and districts. The authors discuss administrative leadership for curriculum mapping, including the roles and responsibilities of various administrative positions, such as the superintendent, headteacher, and curriculum director, and provide protocols and procedures for writing administrative maps. A Leader's Guide to Curriculum Mapping offers concrete information and suggestions for moving a curriculum mapping initiative forward in a positive manner and ultimately ensuring that curriculum mapping is not only sustained, but is embedded in the cultural consciousness and becomes the natural way of conducting professional curriculum work throughout a learning organization. The book: - Includes brief but necessary coverage of theory and foundational concept - Focuses on administrative leadership with curriculum design in mind and administrative support for systemic change - Provides administrators with guidance, protocols, and step-by-step directions for the stages of a curriculum mapping initiative - Offers practical applications, realistic expectations, and real-life examples - Addresses significant concerns

such as time and resources necessary for sustainability.

**Preparing Principals for a Changing World** - Linda Darling-Hammond 2009-11-04

*Preparing Principals for a Changing World* provides a hands-on resource for creating and implementing effective policies and programs for developing expert school leaders. Written by acclaimed author and educator Linda Darling-Hammond and experts Debra Meyerson, Michelle LaPointe, and Margaret Terry Orr, this important book examines the characteristics of successful educational leadership programs and offers concrete recommendations to improve programs nationwide. In a study funded by the Wallace Foundation, Darling-Hammond and the team examined eight exemplary principal development programs, as well as state policies and principals' experiences across the country. Using the data from the study, they reveal how successful programs are structured, the skills and knowledge participants gain, and what they are able to do in practice as school leaders as a result. What do these exemplary programs have in common? Aggressive recruitment; close ties with schools in the community; on-the-ground training under the wing of expert principals, and a strong emphasis on the cutting-edge theories of instructional and transformational leadership. In addition to highlighting

the programs' similarities, the study also explains the differences among the programs and sheds light on the effectiveness of approaches and models from different states and contexts? East, West, North, and South; urban and rural; pre-service and in-service. The authors analyze program outcomes for principals and their schools, including illustrative case studies and educators' voices on the influence of programs' strategies for recruitment, internships, mentoring, and coursework. The ideas and suggestions outlined in *Preparing Principals for a Changing World* are presented with the goal of increasing the number of highly qualified, thoughtful, and innovative educational leaders.

*Planning for Technology* - Bruce M. Whitehead 2013-09-04

Stay a step ahead of technological change so that every student can flourish! Students and classrooms are growing more technologically savvy every semester, and falling behind is not an option. This new edition of an essential text shows educational leaders how to equip their students for the future, with updates such as: Digital developments of the past decade that school leaders must address New content covering the Common Core, distributed leadership, adult learning theory, digital citizenship, cybersecurity, cloud computing, and more A new chapter on creating a "culture of technology" that goes beyond mere user manuals to create responsible, tech-savvy students

**Excellence vs. Equality** - Allan C. Ornstein 2015-11-06

*Excellence vs Equality: Can Society Achieve Both Goals?* explores the issues faced by societies attempting to preserve democratic ideals and the common good in an era of incommensurate wealth and opportunity. As differences in advantage and ability affect the relationships between institutions and the people who comprise them, the book argues that political and social compromise is needed to prevent economic inequality from threatening the well-being and mobility of the less able and less fortunate. Topics include globalization, technology, innovation, talent and meritocracy, higher education, big business, labor unions, and social justice within educational and workplace settings. The author raises perennial and ever-prescient questions regarding how to balance excellence and equality, and how to reduce inequality around the world.

### **Redefining Anxiety** - Dr. John Delony 2020-11-17

Anxiety is real—but it isn't the end of your story. Dr. John Delony knows what anxiety feels like. He's walked that dark road himself, but he found light and hope on the other side of it. Bringing together his own journey and two decades of counseling and research, he walks you through: The four biggest myths about anxiety and the life-changing truth Practical steps you can take today to start getting your life back Long-term strategies for healing to help you move forward John will show you that most of what you've heard about anxiety is wrong. Things like: If you have anxiety, you're broken and need to be fixed Anxiety is a disease that can only be cured with medicine Anxiety is caused by your genetics While mental health is complex, our culture has made anxiety into something it's not. For the majority of people who face anxiety, the truth is simpler than we think: anxiety is an alarm. It's a signal—nothing more and nothing less. Anxiety is simply our body's way of telling us something is wrong. If we stop and listen, we can calm the alarm and move forward into healing and hope.

### *The Arts and Emergent Bilingual Youth* - Sharon Verner Chappell 2013-04-17

The Arts and Emergent Bilingual Youth offers a critical sociopolitical perspective on working with emerging bilingual youth at the intersection of the arts and language learning. Utilizing research from both arts and language education to explore the ways they work in tandem to contribute to emergent bilingual students' language and academic development, the book analyzes model arts projects to raise questions about "best practices" for and with marginalized bilingual young people, in terms of relevance to their languages, cultures, and communities as they envision better worlds. A central assumption is that the arts can be especially valuable for contributing to English learning by enabling learners to experience ideas, patterns, and relationship (form) in ways that lead to new knowledge (content). Each chapter features vignettes showcasing current projects with ELL populations both in and out of school and visual art pieces and poems, to prompt reflection on key issues and relevant concepts and theories in the arts and language

learning. Taking a stance about language and culture in English learners' lives, this book shows the intimate connections among art, narrative, and resistance for addressing topics of social injustice.

### **The Cultural and Social Foundations of Educational Leadership** - Romuald Normand 2021-07-12

This book identifies the cultural and moral foundations of country-specific educational governance and school leadership and presents the principles of justice and the diversity of common goods that guide leadership practices in schools. It contributes to an existing research field that studies diversity and ethical leadership in schools. The social dimension of school leadership is not limited to issues related to equality and equity, or social inclusion. The capacity of leaders to promote civic-mindedness and social cooperation, consensus and acceptance of others, the right balance between freedom and duties, and reciprocity of obligations, are essential to maintain democratic rights and facilitate the life together while respecting ethnic and cultural differences. Therefore, the book gathers contributions from a range of international authors capable of reporting these moral and cultural features, while broadening the research perspectives on school leadership.

### Bridging Educational Leadership, Curriculum Theory and Didaktik - Michael Uljens 2020-10-08

This volume argues for the need of a common ground that bridges leadership studies, curriculum theory, and Didaktik. It proposes a non-affirmative education theory and its core concepts along with discursive institutionalism as an analytical tool to bridge these fields. It concludes

with implications of its coherent theoretical framing for future empirical research. Recent neoliberal policies and transnational governance practices point toward new tensions in nation state education. These challenges affect governance, leadership and curriculum, involving changes in aims and values that demand coherence. Yet, the traditionally disparate fields of educational leadership, curriculum theory and Didaktik have developed separately, both in terms of approaches to theory and theorizing in USA, Europe and Asia, and in the ways in which these theoretical traditions have informed empirical studies over time. An additional aspect is that modern education theory was developed in relation to nation state education, which, in the meantime, has become more complicated due to issues of 'globopolitanism'. This volume examines the current state of affairs and addresses the issues involved. In doing so, it opens up a space for a renewed and thoughtful dialogue to rethink and re-theorize these traditions with non-affirmative education theory moving beyond social reproduction and social transformation perspectives. Wealth Vs. Work - Allan C. Ornstein 2012-01-05

Wealth vs. Work: How 1% Victimize 99% is about the vanishing American dream, growing inequality in America, shrinking and struggling middle class, plight of labor and unions, economic decline of the nation, and a broken and unstable world surrounding the U.S. Education is no longer the great equalizer. We are heading toward a world where inherited privilege trumps excellence and meritocracy. Carried far enough, it means the end of striving and the American dream. Few Americans realize or want to admit it. Since recorded history, workers have been victimized by the rich and super rich, treated as fungible and disposable. The early warlords and monarchs have been replaced by the titans of industry and masters of the universe on Wall Street. The slaves, peasants and serfs have been replaced by miners, factory workers, and service-sector workers. The GM model of the 1950s and 1960s (that permitted

labor to become middle class) has been replaced by the Wal-Mart model characterized by low pay and minimal benefits. By 2025, the economic output of China and India may likely each exceed the U.S. Moreover, the U.S. work force is being increasingly displaced by technology and outsourcing. But we are supposed to be the lucky ones! By historical and geographical accident, the U.S. has been spared most of the world's poverty and misery. Today, however, the U.S. is heading towards a financial oligarchy much worse than the aristocratic old world that our Founding Fathers feared and tried to avoid. Yes, the U.S. had a revolution, but in fact it has a new and more powerful elite because the economic pie has expanded several thousand fold since the yeoman farmers status was compared to the plantation owner. Right now the top 1 percent in the U.S. own nearly 40 percent of the nation's wealth; moreover, their investments, capital gains and dividends are taxed at a lower rate than workers salaries. Like all great civilizations that have declined before us, we are a nation that needs to re-examine its ideals and institutions.

*Educational Leadership and Administration: Concepts, Methodologies, Tools, and Applications* - Management Association, Information Resources 2016-10-12

The delivery of quality education to students relies heavily on the actions of an institution's administrative staff. Effective leadership strategies allow for the continued progress of modern educational initiatives. *Educational Leadership and Administration: Concepts, Methodologies, Tools, and Applications* provides comprehensive research perspectives on the multi-faceted issues of leadership and administration considerations within the education sector. Emphasizing theoretical frameworks, emerging strategic initiatives, and future outlooks, this publication is an ideal reference source for educators, professionals, school administrators, researchers, and practitioners in the field of education.

*Guide to Implementing the Next Generation Science Standards* - National Research Council 2015-03-27

A Framework for K-12 Science Education and Next Generation Science Standards (NGSS) describe a new vision for science learning and

teaching that is catalyzing improvements in science classrooms across the United States. Achieving this new vision will require time, resources, and ongoing commitment from state, district, and school leaders, as well as classroom teachers. Successful implementation of the NGSS will ensure that all K-12 students have high-quality opportunities to learn science. *Guide to Implementing the Next Generation Science Standards* provides guidance to district and school leaders and teachers charged with developing a plan and implementing the NGSS as they change their curriculum, instruction, professional learning, policies, and assessment to align with the new standards. For each of these elements, this report lays out recommendations for action around key issues and cautions about potential pitfalls. Coordinating changes in these aspects of the education system is challenging. As a foundation for that process, *Guide to Implementing the Next Generation Science Standards* identifies some overarching principles that should guide the planning and implementation process. The new standards present a vision of science and engineering learning designed to bring these subjects alive for all students, emphasizing the satisfaction of pursuing compelling questions and the joy of discovery and invention. Achieving this vision in all science classrooms will be a major undertaking and will require changes to many aspects of science education. *Guide to Implementing the Next Generation Science Standards* will be a valuable resource for states, districts, and schools charged with planning and implementing changes, to help them achieve the goal of teaching science for the 21st century.

**The Leader in Me** - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible

change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

*St Augustine* - Ryan N. S. Topping 2014-10-23

After setting Augustine's thought firmly within the context of his life and times, Ryan Topping examines in turn the causes of education (the purposes, pedagogy, curriculum, and limits of learning) as Augustine understood them. Augustine's towering influence over Medieval and Renaissance theorists - from Hugh of St Victor, to Aquinas, to Erasmus - is traced. The book concludes by drawing Augustine into dialogue with contemporary philosophers, exploring the influence of his meditations on higher education and suggesting how his ideas can reinvigorate for our generation the project of liberal learning.

**Foundations of Education** - Allan C. Ornstein 2006-04-01

Foundations of Education incorporates relevant interdisciplinary perspectives and emphasizes coverage of key issues in education, with up-to-date research, primary resources, and documentation. This text provides comprehensive and substantive coverage of all "foundational" areas—including social, philosophical, historical, political, economic, curricular, and legal—for students who are preparing for a career in teaching and for those who simply wish to learn more about significant contemporary issues in education. The authors have included strong, thought-provoking pedagogy, and have emphasized the growing role of technology in education. This Teaching in Action Edition is packaged with a special guide that correlates text material with the HM Video Cases. In This Case boxed features contain brief, fictional case scenarios that describe situations in which new teachers might find themselves. Readers are asked to think critically about concepts discussed in each chapter. Expanded topical overview charts in each chapter summarize and compare key developments and topics in education. Information about standards addresses the growing emphasis on holding students, teachers, and schools accountable for performing at levels specified by local, state, and national standards. Legal issues, including the No Child Left Behind act, are addressed. Technology@School, a popular feature in every chapter, updates students on relevant developments in educational technology and provides information that may prove useful in their teaching careers. Additional features include Focus Questions at the beginning of each chapter, Refocus Questions after major text sections, and Taking issue charts, offering arguments on both sides of a question. Houghton Mifflin Video Cases, four- to six-minute video modules presenting real classroom scenarios, enable students to observe the day-to-day challenges and rewards of teaching from the convenience of their computers. Available on the Online Teaching and Study Centers, HM Video Cases are enhanced by classroom artifacts, Viewing Questions, Interview Transcripts, Key Terms, and bonus video footage.

**Leveraging Chaos** - John R. Shoup 2010-09-16

This book explores the rules and patterns that govern complex systems that, when properly understood and applied, result in more effective leadership than what is offered from traditional leadership models.

**Learning and Understanding** - National Research Council 2002-08-06

This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

Basic Principles of Curriculum and Instruction - Ralph W. Tyler  
2013-08-09

In 1949, a small book had a big impact on education. In just over one hundred pages, Ralph W. Tyler presented the concept that curriculum should be dynamic, a program under constant evaluation and revision. Curriculum had always been thought of as a static, set program, and in an era preoccupied with student testing, he offered the innovative idea that teachers and administrators should spend as much time evaluating

their plans as they do assessing their students. Since then, Basic Principles of Curriculum and Instruction has been a standard reference for anyone working with curriculum development. Although not a strict how-to guide, the book shows how educators can critically approach curriculum planning, studying progress and retooling when needed. Its four sections focus on setting objectives, selecting learning experiences, organizing instruction, and evaluating progress. Readers will come away with a firm understanding of how to formulate educational objectives and how to analyze and adjust their plans so that students meet the objectives. Tyler also explains that curriculum planning is a continuous, cyclical process, an instrument of education that needs to be fine-tuned. This emphasis on thoughtful evaluation has kept Basic Principles of Curriculum and Instruction a relevant, trusted companion for over sixty years. And with school districts across the nation working feverishly to align their curriculum with Common Core standards, Tyler's straightforward recommendations are sound and effective tools for educators working to create a curriculum that integrates national objectives with their students' needs.

**Curriculum Leadership** - Allan A. Glatthorn 2011-12-05

Curriculum Leadership: Strategies for Development and Implementation, Third Edition is a one-of-a-kind resource written for educational leaders, teachers, and administrators. when they feel a sense of belonging and inclusion. When their social identities are valued as assets rather than barriers to learning, they flourish. This guide provides evidence-based strategies that support you as a leader in creating an environment that promotes identity safe students, who experience a challenging curriculum that respects their diverse social identities. Features in the book include: Guiding principles for student voice, equalizing status and cultivating acceptance across race, ethnicity, gender and other differences Ideas and examples for anti-racist dialogue and activities for teachers and students that counter colorblind practices, stereotype threat and biases Vignettes, and examples of identity safe practices for students and adult learning for staff, families and the community Systems for student-centered assessment and data collection Resources for developing equitable school policies and a comprehensive identity safety plan for your school Educators fulfill the promise of an equitable education when students of all backgrounds know that who they are and what they think matters. Start the journey to become an identity safe school and see the results for yourself! "Belonging and Inclusion in Identity Safe Schools: A Guide for Educational Leaders is a timely and important book. For several years, the nation's schools have been asked to focus their energies on raising student achievement. However, too often educators have ignored the need to honor, support and affirm the identities of the students they serve. For educators who serve children of color, particularly Black, Native American and Latinx children who are often subject to overt and covert forms of forced assimilation, this book will be an invaluable resource on how to create learning opportunities that make it possible for such children to thrive." ~Pedro Noguera, Dean of Rossier School of Education, University of Southern California "Bravo to authors Cohn-Vargas, Gogolewski, Creer Kahn, and Epstein for their ground-breaking book on Identify Safe Schools for Administrators and Teacher and Staff Leaders! They provide much-needed evidence for educators to elevate and even inspire the equity, empowerment, and academic growth needed to wholly support all children to flourish in school and their lives." ~Debbie Zacarian, Director, Zacarian and Associates

Sustainable Leadership - Andy Hargreaves 2012-06-27

In Sustainable Leadership, Andy Hargreaves and Dean Fink address one of the most important and often neglected aspects of leadership: sustainability. The authors set out a compelling and original framework of seven principles for sustainable leadership characterized by Depth of learning and real achievement rather than superficially tested performance; Length of impact over the long haul, beyond individual leaders, through effectively managed succession; Breadth of influence,

where leadership becomes a distributed responsibility; Justice in ensuring that leadership actions do no harm to and actively benefit students in other schools; Diversity that replaces standardization and alignment with diversity and cohesion; Resourcefulness that conserves and renews leaders' energy and doesn't burn them out; and Conservation that builds on the best of the past to create an even better future. This book is a volume in the Jossey-Bass Leadership Library in Education—a series designed to meet the demand for new ideas and insights about leadership in schools.

**Understanding and Shaping Curriculum** - Thomas W. Hewitt

2006-02-13

Understanding and Shaping Curriculum: What We Teach and Why introduces readers to curriculum as knowledge, curriculum as work, and curriculum as professional practice. Author Thomas W. Hewitt discusses curriculum from theoretical and practical perspectives to not only acquaint readers with the study of curriculum, but also help them to become effective curriculum practitioners.
