Questions Asked - Jostein Gaarder 2017-05-09
A picture book with fundamental philosophical questions, posed in a way only Jostein Gaarder is capable of. The illustrator has made an independent visual narrative that underscores the existential aspect of Jostein Gaarder's philosophical questions. Questions Asked shows confidence in a child's capacity to think deeply

and read between the lines. The book follows a little boy traveling alone in an open landscape. Soon we realize he is on a journey of thoughts and dreams, asking questions about loss, myth, language, magic, and what it means to be a human being. Jostein Gaarder's philosophical questions merge with the beautiful illustrations of Akin Düzakin into a tale of friendship, love,

and grief - and about daring to think about life as you live it.

Think - Simon Blackburn 1999-08-05

This is a book about the big questions in life: knowledge, consciousness, fate, God, truth, goodness, justice. It is for anyone who believes there are big questions out there, but does not know how to approach them. *Think* sets out to explain what they are and why they are important. Simon Blackburn begins by putting forward a convincing case for the study of philosophy and goes on to give the reader a sense of how the great historical figures such as Descartes, Hume, Kant, and Wittgenstein have approached its central themes. Each chapter explains a major issue, and gives the reader a self-contained guide through the problems that philosophers have studied. The large scope of topics covered range from scepticism, the self, mind and body, and freedom to ethics and the arguments surrounding the existence of God. Lively and approachable, this book is ideal for all

those who want to learn how the basic techniques of thinking shape our existence. *Year of Wonders* - Geraldine Brooks 2002-04-30
“Plague stories remind us that we cannot manage without community . . . *Year of Wonders* is a testament to that very notion.” - The Washington Post
An unforgettable tale, set in 17th century England, of a village that quarantines itself to arrest the spread of the plague, from the author *The Secret Chord* and of *March*, winner of the Pulitzer Prize
When an infected bolt of cloth carries plague from London to an isolated village, a housemaid named Anna Frith emerges as an unlikely heroine and healer. Through Anna's eyes we follow the story of the fateful year of 1666, as she and her fellow villagers confront the spread of disease and superstition. As death reaches into every household and villagers turn from prayers to murderous witch-hunting, Anna must find the strength to confront the disintegration of her community and the lure of illicit love. As she

struggles to survive and grow, a year of catastrophe becomes instead *annus mirabilis*, a "year of wonders." Inspired by the true story of Eyam, a village in the rugged hill country of England, *Year of Wonders* is a richly detailed evocation of a singular moment in history. Written with stunning emotional intelligence and introducing "an inspiring heroine" (The Wall Street Journal), Brooks blends love and learning, loss and renewal into a spellbinding and unforgettable read.

Tsawalk - E. Richard Atleo 2007-10-01
In Tsawalk, hereditary chief Umeeek develops a theory of "Tsawalk," meaning "one," that views the nature of existence as an integrated and

orderly whole, and thereby recognizes the intrinsic relationship between the physical and spiritual. Umek demonstrates how Tsawalk provides a viable theoretical alternative that both complements and expands the view of reality presented by Western science. Tsawalk, he argues, allows both Western and indigenous views to be combined in order to advance our understanding of the universe. In addition, he shows how various fundamental aspects of Nuu-chah-nulth society are based upon Tsawalk, and what implications it has today for both Native and non-Native peoples.

As the action moves from Fiji to Spain, from the present to the past, unfolding further stories within the stories, the novel reveals an astonishing richness and complexity. What Is the What - Dave Eggers 2009-02-24

What Is the What is the story of Valentino Achak Deng, a refugee in war-ravaged southern Sudan who flees from his village in the mid-1980s and becomes one of the so-called Lost Boys.

Valentino's travels bring him in contact with enemy soldiers, with liberation rebels, with hyenas and lions, with disease and starvation, and with deadly murahaleen (militias on horseback)—the same sort who currently terrorize Darfur. Eventually Deng is resettled in the United States with almost 4000 other young Sudanese men, and a very different struggle begins. Based closely on true experiences, *What Is the What* is heartbreaking and arresting, filled with adventure, suspense, tragedy, and, finally,

triumph.

Distant Transit - Maja Haderlap 2022-03-22

From a groundbreaking Slovenian-Austrian poet comes an evocative, captivating collection on searching for home in a landscape burdened with violent history. At its core, *Distant Transit* is an ode to survival, building a monument to traditions and lives lost. Infused with movement, Maja Haderlap's *Distant Transit* traverses Slovenia's scenic landscape and violent history, searching for a sense of place within its ever-shifting boundaries. Avoiding traditional forms and pronounced rhythms, Haderlap unleashes a flow of evocative, captivating passages whose power lies in their associative richness and precision of expression, vividly conjuring Slovenia's natural world—its rolling meadows, snow-capped alps, and sparkling Adriatic coast. Belonging to the Slovene ethnic minority and its inherited, transgenerational trauma, Haderlap explores the burden of history and the prolonged aftershock of conflict—warm, lavish pastoral

passages conceal dark memories, and musings on the way language can create and dissolve borders reveal a deep longing for a sense of home.

The Socrates Express - Eric Weiner

2020-08-25

The New York Times bestselling author of *The Geography of Bliss* embarks on a rollicking intellectual journey, following in the footsteps of history's greatest thinkers and showing us how each—from Epicurus to Gandhi, Thoreau to Beauvoir—offers practical and spiritual lessons for today's unsettled times. We turn to philosophy for the same reasons we travel: to see the world from a different perspective, to

unearth hidden beauty, and to find new ways of being. We want to learn how to embrace wonder. Face regrets. Sustain hope. Eric Weiner combines his twin passions for philosophy and travel in a globe-trotting pilgrimage that uncovers surprising life lessons from great thinkers around the world, from Rousseau to Nietzsche, Confucius to Simone Weil. Traveling by train (the most thoughtful mode of transport), he journeys thousands of miles, making stops in Athens, Delhi, Wyoming, Coney Island, Frankfurt, and points in between to reconnect with philosophy's original purpose: teaching us how to lead wiser, more meaningful lives. From Socrates and ancient Athens to Beauvoir and 20th-century Paris, Weiner's chosen philosophers and places provide important practical and spiritual lessons as we navigate today's chaotic times. In a "delightful" odyssey that "will take you places intellectually and humorously" (San Francisco Book Review), Weiner invites us to voyage alongside him on his

life-changing pursuit of wisdom and discovery as he attempts to find answers to our most vital questions. The Socrates Express is “full of valuable lessons...a fun, sharp book that draws readers in with its apparent simplicity and bubble-gum philosophy approach and gradually pulls them in deeper and deeper” (NPR).

A History of Psychology in Western

Civilization - Bruce K. Alexander 2014-07-03
This book is a re-introduction to psychology. It focuses on great scholarly thinkers, beginning with Plato, Marcus Aurelius and St Augustine, who gave the field its foundational ideas long before better known 'founders', such as Galton, Fechner, Wundt and Watson, appeared on the scene. Psychology can only achieve its full breadth and potential when we fully appreciate its scholarly legacy. Bruce Alexander and Curtis Shelton also argue that the fundamental contradictions built into psychology's history have never been resolved, and that a truly pragmatic approach, as defined by William James, can produce a 'layered' psychology that will enable psychologists to face the fearsome challenges of the twenty-first century. A History of Psychology in Western Civilization claims that contemporary psychology has overemphasized the methods of physical science and that

psychology will need a broader scientific orientation alongside a scholarly focus in order to fully engage the future.
