

# Missing 411 Western United States And Canada David Paulides

Right here, we have countless book **Missing 411 Western United States And Canada David Paulides** and collections to check out. We additionally offer variant types and as a consequence type of the books to browse. The tolerable book, fiction, history, novel, scientific research, as without difficulty as various extra sorts of books are readily comprehensible here.

As this Missing 411 Western United States And Canada David Paulides , it ends up brute one of the favored book Missing 411 Western United States And Canada David Paulides collections that we have. This is why you remain in the best website to see the incredible ebook to have.

**Unsolved Disappearances in the Great Smoky Mountains** - Juanitta Baldwin 1998

The Track Record - Ray Crowe 2009-09-22

This is a CD containing over 3000 document pages that include photos, maps, research papers and much more. It also includes an 80 page word document that is a master index for the 16 years The Track Record was produced. This is the single greatest index in any cryptozoology book, CD, DVD, anything! You can spend weeks browsing the CD that we have produced. The accumulation of Track Records is truly a Bigfoot Encyclopedia with an extensive cross reference via the index. "The Track Record" was a monthly newsletter produced by Ray Crowe (Hillsboro, OR) over a 16-year time span, July 1991- August 2007. Ray did a fantastic job documenting various aspects of Bigfoot/ Sasquatch that will not appear anywhere else. Ray not only centered his work on Bigfoot/ Sasquatch, he also included stories on Yowie, Yeti, Almasti, Loch Ness Monster, UFO's, Chupacabras, etc. We know that you will find this as a centerpiece for all Bigfoot related research. In 2007 North America Bigfoot Search (NABS) purchased the research, documents, writings, copyrights and trademarks associated with Ray Crowe and his two organizations. We immediately made a decision that the Track Record was an extremely valuable document for Bigfoot Researchers and we

embarked on a path to put the newsletters on a CD for reference purposes. This project was completed in 2009. The greatest contribution that NABS made to the Track Record was the development of an index for all of the newsletters. The index is 95,000 words and 80 pages in length. There is no other index in all of Cryptozoology that comes close to what NABS has established. Every major category, state, country and crypto subject is in the index. The CD is PC and MAC compatible.

*Missing 411-North America and Beyond* - David Paulides 2013-02-28

([www.canammissing.com](http://www.canammissing.com)) This is the third "Missing 411" book researching facts of people who have vanished in remote locations of the world. "Missing 411-North America and Beyond" is the first edition that discusses missing people and relevant facts from five countries (Australia, England, France, Iceland and Indonesia) outside of North America and examines the parallels between the cases. The book also includes a multitude of new stories from North America. There is a continuing trend of clusters of missing people in United States National Parks. The National Park Service has continued with their policy of failing to keep ledgers, track or otherwise document lists of missing people inside their parks and monuments. This edition has cases from Florida, Texas, Hawaii and forty other states. There are new clusters of missing people from Sequoia and Mount Rainier National Park, Three Sisters Wilderness (OR) and Adirondacks (NY). Canada has missing cases

from six provinces that are documented. This new book brings further clarity to the missing person issue by examining multiple disappearances of people in small-confined areas and exposing the similarities of their case. David Paulides also exposes a series of coed disappearances that date back to the early 1900's, which have unusual facts surrounding their case. "Missing 411-North America and Beyond" is the largest and most comprehensive of the trilogy, 472 pages. The Missing 411 series builds upon itself. It is recommended that you read "Missing 411-Western United States" first, then the eastern version and then "North America and Beyond." There is a historical aspect to this issue and there are common elements that run through the disappearances.

\*\*\*\*\*One of the early reviews of "Missing 411-North America and Beyond" was written by New York Times Best Selling author Whitley Strieber: David Paulides has shined a light onto one of the greatest and most disturbing mysteries of our time: the simple and awful fact that people disappear, especially in our national parks, and little effort is made to find them, let alone inform the public about the danger. Even when massive searches are mounted, and people are found, the events surrounding their loss and recovery are often far beyond logical explanation. This is the most comprehensive and expertly presented series of books on the subject ever written, and the latest volume, which includes stories from five countries, is sobering, chilling and far too well researched to ignore. Essential reading. Whitley Strieber New York Times Best Selling

Author \*\*\*\*\*

*Tribal Bigfoot* - David Paulides 2017-10-13

Further research into Middle America bigfoot sightings indicates a strong connection between bigfoot and Native Americans, and witness descriptions show a strong human likeness. The latest research from the author of the groundbreaking *The Hoopa Project: Bigfoot Encounters in California* named 2008 Bigfoot Book of the Year by Cryptomundo.com. Dave Paulides brings his law-enforcement investigative and analytical skills to an expanded area of research: the counties in Northern California that have reported the greatest numbers of bigfoot

occurrences, and beyond to Minnesota and Oklahoma. Gaining access to many people who have never discussed their bigfoot experiences publicly before now, the author obtains intriguing details that broaden our perception of the elusive creature; and his subsequent analysis leads to the discovery of a strong and consistent link between bigfoot and the Native American community. The expert interview and artistic skills of forensic artist Harvey Pratt help to define the creatures described by the witnesses - - once again with astonishing and illuminating results. The presentation of startling new forensic evidence indicates that there truly is an as-yet-unidentified primate living in the wilds of North America, and the author hints at new data on the horizon that will finally provide the tantalizing truth about the existence of bigfoot in North America.

**Ranger Confidential** - Andrea Lankford 2010-04-02

For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. *Ranger Confidential* is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

*Hail to the Chin* - Bruce Campbell 2017-08-15

New York Times bestseller Introduction by New York Times bestselling author and famous minor television personality John Hodgman One of my dad's favorite jokes about getting older was: "I went out for coffee when I was twenty-one and when I got back I was fifty-eight!" I get what he

meant now. Time flies. My first book, *If Chins Could Kill: Confessions of a "B" Movie Actor*, was published back in 2001 and it chronicles the adventures of a "mid-grade, kind of hammy actor" (my words), cutting his teeth on exploitation movies far removed from mainstream Hollywood. This next book, an "Act II" if you will, could be considered my "maturing years" in show business, when I began to say "no" more often and gravitated toward self-generated material. Taking stock in the overall quality of my life, I fled Los Angeles and moved to a remote part of Oregon to renew, regroup and reload. If that sounds tame, the journey from *Evil Dead* to *Spider-Man* to *Burn Notice* was long, with plenty of adventures/mishaps along the way. I never pictured myself hovering above Baghdad in a Blackhawk helicopter, facing a pack of wild dogs in Bulgaria, or playing an aging Elvis Presley with cancer on his penis - how can you predict this stuff? The sheer lunacy of show business is part of the fun for me and I hope you'll come along for the ride. - Bruce "Don't Call Me Ash" Campbell

*Missing 411 LAW* - David Paulides 2018-09-30

A non-fiction book about people who are missing by way of land, air and water.

**People Missing in the Woods** - Steph Young 2018-12-13

People in the Woods are disappearing.... hikers missing in national parks, people lost to the woods never to return, people taken....never found again... Natural predators can lurk in the wilderness; bears, mountain lions, cougars, and occasionally a hiker will be victim to these wild animals. They feed where they kill or drag their bloody victim to a nearby lair; they leave a trail that is obvious to searchers. However, the victims in this book show no evidence of an animal attack. For these victims, there is no logical explanation.... only cryptic mysteries, enigma and many unanswered questions... Baffling, strange, and cryptic cases. Based on True Stories. Bestselling Author Steph Young has appeared on radio shows including Coast to Coast AM, telling creepy unexplained mysteries of stories that come from her books, and her Podcast; *Unexplained Mysteries with Steph Young*. **PEOPLE MISSING IN THE WOODS: People are disappearing in the Woods. True Stories of Unexplained**

*Disappearances, Unexplained Mysteries. Creepy Unexplained Disappearances. Strange vanishings of people. Missing hikers missing in national parks. Baffling, strange, creepy and cryptic cases.*

**Census of Medieval and Renaissance Manuscripts in the United States and Canada** - Seymour de Ricci 1935

*Bigfoot Casebook Updated* - Janet Bord 2006

Over 1000 Bigfoot sightings and encounters, updated through 2004. One of the most significant books in the field of Bigfoot research is now available again.

**Dead Mountain** - Donnie Eichar 2013-10-22

A New York Times and Wall Street Journal bestseller - What happened that night on Dead Mountain? The mystery of Dead Mountain: In February 1959, a group of nine experienced hikers in the Russian Ural Mountains died mysteriously on an elevation known as Dead Mountain. Eerie aspects of the incident—unexplained violent injuries, signs that they cut open and fled the tent without proper clothing or shoes, a strange final photograph taken by one of the hikers, and elevated levels of radiation found on some of their clothes—have led to decades of speculation over what really happened. As gripping and bizarre as *Hunt for the Skin Walker: This New York Times bestseller, Dead Mountain: The Untold True Story of the Dyatlov Pass Incident*, is a gripping work of literary nonfiction that delves into the mystery of Dead Mountain through unprecedented access to the hikers' own journals and photographs, rarely seen government records, dozens of interviews, and the author's retracing of the hikers' fateful journey in the Russian winter. You'll love this real-life tale: *Dead Mountain* is a fascinating portrait of young adventurers in the Soviet era, and a skillful interweaving of the hikers' narrative, the investigators' efforts, and the author's investigations. Here for the first time is the real story of what happened that night on Dead Mountain.

**Missing 411- Off the Grid** - David Paulides 2017-09-16

*Missing 411- Off The Grid* *Missing 411- Off The Grid* is the seventh book in the best selling series about missing people. The books are based on

actual law enforcement, search and rescue and archived reports of incidents. The author has based the narrative on delivering the facts and not making unsubstantiated claims. Thousands of case files were reviewed and what's presented are incidents that fit narrow criteria of established profile points. According to the Urban Dictionary, Off the Grid means, "untraceable through normal means." The individuals that are documented in this seventh book of the Missing 411 series fit this definition to perfection. The disappearances involve physicists, physicians, professors, hikers, hunters, children, and joggers. Cases from thirty states, six Canadian provinces and five countries are included. Each of these stories is new to the Missing 411 series. Disappearances from national parks, forests and open spaces that have never been discussed or compared to similar instances are included. Updated tables from past books assist the reader in understanding the vast numbers of missing that fit the established profile. Early reviewers of this book have called it the most intriguing and thought-provoking of the series. Author David Paulides is an investigative reporter, twenty-year police officer/detective and the director of the Canam Missing Project ([www.canammissing.com](http://www.canammissing.com)), the organization behind the search for understanding the missing person issue. He recently released a movie based on the books, Missing 411, which a former LA Magazine and NBC movie critic rated it the best documentary for 2017. He has presented his findings to the most attended annual search and rescue conference in the world, NASAR and has spoken at hundreds of seminars, symposiums, and meetings. Mr. Paulides has a bachelors and masters degree from the University of San Francisco and currently resides in Denver. Missing 411-Off The Grid Release Date: October 24, 2017 Paperback Pages: 401 Author: David Paulides Available: [www.canammissing.com](http://www.canammissing.com) Language: English\*\*Our books are not knowingly sold to resellers and are only distributed through our website for \$24.99 each.

**Live Pterosaurs in America** - Jonathan David Whitcomb 2011-11-02 Encounters with living pterosaurs Live "pterodactyls?" In the United States? Many scientists have long assumed all pterosaurs died millions of years ago. Now take a whirlwind tour of many years of investigations in

cryptozoology, and prepare for a shock: At least two species of pterosaurs have survived, uncommon, not so much rare as widely, thinly distributed. Nocturnal pterosaurs have always lived among us, but hidden by something. Enter now the realm of a new branch of cryptozoology, a branch overshadowed by the dogma of a "universal extinction." How did scientists miss living pterosaurs? Get the answers here, hidden secrets about how these amazing flying creatures of the night have gone mostly unreported: Until recently, almost nobody would listen to eyewitnesses; but for the past seven years many of them have been interviewed by the author of this book. Many modern pterosaurs are much larger than any bat, many with long tails, many with head crests. What about news headlines? How did these creatures avoid media attention? Get the answers from years of work by American cryptozoologists. The old "fruit bat" explanation for reports of pterosaurs in Papua New Guinea--that bat idea has now been shot down; the tail length of the larger creatures has been estimated at a minimum of ten feet and a maximum of over twenty feet. More shocking, these giant long-tailed flying creatures are not confined to the southwest Pacific: They are seen in the contiguous United States of America. Most pterosaurs in North America, however, are smaller, with many wingspan estimates at less than fifteen feet; nevertheless, how shocking! What amazing encounters! In California, New Mexico, Texas, Arkansas, Florida, South Carolina, Pennsylvania, Ohio, and many other states, eyewitnesses have seen strange featherless creatures flying overhead. These are not bats; most have long tails and are bigger than any bat. Dive into eyewitness testimonies; compare sightings through the author's detailed analysis. Third edition, nonfiction [SEAL Team 666](#) - Weston Ochse 2012-11-27 WINNER OF THE "FICTION - ADVENTURE OR DRAMA" AWARD FROM THE NEW MEXICO-ARIZONA BOOK AWARDS Weston Ochse's SEAL Team 666 follows Cadet Jack Walker. Halfway through SEAL training, he's still green but showing incredible promise when he's whisked away to join four SEALs—and their dog—for a special ops mission. Walker soon finds himself in a whirlwind of otherworldly creatures and events as he

finds out the true nature of this "special ops" team: SEAL Team 666. Battling demons, possessed humans, mass-murdering cults, and evil in its most dark and primeval form, SEAL Team 666 has their work cut out for them. And it's not long before they realize that the threat isn't just directed against the U.S.—an ancient and deadly cult has bigger plans, and Walker is at the center of a supernatural conflict with the entire world at stake.

### **Our National Forests** - 1951

### **Missing** - Arlyn Atadero 2017-02-07

Discover the bombshell cold case that rocked the state of Colorado for five years and changed the way many viewed their world forever. On October 2nd, 1999, 3 year-old Jaryd Atadero vanished on a group hike in the Comanche Peak Wilderness. As hours turned into days, and days into months, Jaryd's father Allyn goes through hell and high water to combat nightmarish circumstances hindering the search, threatening the very core of his existence - circumstances which would bring most ordinary people to the breaking point and beyond. Sound like fiction? It isn't. And it's only the very tip of the iceberg. But underlying the tragedy is an insurmountable hope that can only come from above, and a sustaining love that redefines what it means to be a follower of Christ in the throes of losing the most precious thing on earth to a parent. "Missing: When the Son Sets" lets you step into the heart and soul of Allyn and his family as they struggle to come to grips with a mystery that remains unsolved to this day . . . Including the real police reports and letters from those involved in the search. You get an unfiltered look at how emotionally exhausting it is to lose a child. How did Jaryd vanish? Who (or what) took him? The book will leave you with more questions than answers, but with a heightened sense of the reality we live in. This is the most emotionally challenging book I have ever read. There were parts that left me feeling drained, and others that left me downright angry. If I had been in Allyn's shoes when he had to confront some of the situations he was faced with, I'd still be on probation... Do yourself a favor and pick up this book. Despite the tragic nature of the story, the grating frustrations faced by

the Atadero family and those who fought for them, there is a strong inspirational foundation that will leave you strengthened in the end.

Zebulon Rogers

### British Columbia, Our Land - Paul St. Pierre 2017-09-15

This astounding work brings professional investigative abilities and forensic artistry to the field of Bigfoot studies. This astounding work brings professional investigative abilities and forensic artistry to the field of Bigfoot studies. David Paulides, a former police investigator, has applied his skills to questioning Bigfoot witnesses. The results he has achieved in gaining access to witnesses and getting detailed information from them is both remarkable and intriguing. Furthermore, he commissioned a forensic police artist to meet with witnesses and sketch the creatures they saw. These drawings provide insights into the creature's nature never before realized. The result of this team's work is by far one of the most convincing accounts ever written on Bigfoot. The conclusion reached - that this creature, long revered by the Hoopa people, definitely inhabits the forested regions of Humboldt County in Northern California - is so convincing that those people who doubt Bigfoot's existence will be forced to think again!

**Missing 411-The Devil's in the Detail** - David Paulides 2014-04-18 (www.canammissing.com) Missing 411-The Devil's in the Detail. This is the fourth book in the blockbuster "Missing 411" series that describes unusual incidents of people that have disappeared in National Parks and forests of the world. It is a significant step forward in the understanding of the missing phenomena that adds several new elements never before identified. This book describes additional victims, new locations and circumstances while outlining new geographical clusters. The number of people that fit the identified profile and the distances and elevations covered during their journeys will mesmerize you. The book ends with series of charts that expose specific elements that are identified in each of the other books, their frequency, location and timing. \*\*It is highly recommended that you read any of the other "Missing 411" books prior to this. The reader needs to have a background on the topic prior to reading this work to get the full understanding of what is revealed. This

book includes stories from the following areas: United States (33 States) Canada (7 Provinces) Australia (5 Territories) Borneo Ecuador United Kingdom New Zealand Switzerland Austria Sub Chapters: Cornerstone Cases Weather Conditions Criminal Allegations Last in Line Missing from Inside the Home Missing from Inside a Vehicle Locations Previously Searched Scholars/Intellectuals Disabled or Injured Elevation Gain Distance Traveled Aircraft Associated with Missing Person Cases List of Missing from this Book National parks 422 Pages

**Communities in Action** - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Trudeau - John Ivison 2019-08-06

National Bestseller From one of Canada's most popular and connected political journalists, an unblinkered warts-and-all look at Justin Trudeau and the Liberal government's record in power. A must-read as we head

into the 2019 federal election. Canadians are becoming increasingly skeptical about their chameleon prime minister. When he entered politics, Justin Trudeau came across as a person with no fixed principles. Now, he presents himself as a conviction politician. What motivated his metamorphosis—belief or opportunism? Either way, in 2019's election he will be judged on results—results that have so far been disappointing for many, even those in his own party. From the ballooning deficit to the Trans Mountain purchase to the fallout of his disastrous trip to India to the unpopular implementation of a carbon tax, Justin Trudeau has presided over his share of controversy. Most damaging, his egregious missteps during the SNC-Lavalin scandal and the subsequent resignation of two top ministers, his principal secretary, and the clerk of the Privy Council have raised serious questions about Trudeau's integrity. As a political columnist for the National Post since 2003 and Ottawa bureau chief for Postmedia for the past three years, John Ivison has watched Trudeau evolve as a politician and leader, a fascinating transition that has not been fully captured by any writer. Trudeau traces the complexities of the man himself, now barely visible beneath the talking points, virtue signalling, and polished trappings of office. Ivison concludes that while Trudeau led a moribund Liberal Party to victory in the 2015 election, the shine of his leadership has been worn off by a series of self-inflicted wounds, broken promises, and rookie mistakes. One of the central contentions of Trudeau is already apparent: the prime minister's greatest strengths are also his greatest weaknesses; the famous name, high-handedness, and impulsiveness are as liable to hurl him from office as they were to get him there in the first place. With unprecedented access and insight, John Ivison takes us inside one of the most contentious first terms of any prime minister in our history.

*Missing 411* - David Paulides 2012-02-02

([www.canammissing.com](http://www.canammissing.com)) *Missing-411* is the first comprehensive book about people who have disappeared in the wilds of North America. It's understood that people routinely get lost, some want to disappear but this story is about the unusual. Nobody has ever studied the archives for similarities, traits and geographical clusters of missing people, until

now. A tip from a national park ranger led to this three year, 7000+ hour investigative effort into understanding the stories behind people who have vanished. The book chronicles children, adults and the elderly who disappeared, sometimes in the presence of friends and relatives. As Search and Rescue personnel exhaust leads and places to search, relatives start to believe kidnappings and abductions have occurred. The belief by the relatives is not an isolated occurrence; it replicates itself time after time, case after case across North America. The research depicts 28 clusters of missing people across the continent, something that has never been exposed and was a shocking find to researchers. Topography does play a part into the age of the victims and certain clusters have specific age and sex consistency that is baffling. This is not a phenomenon that has been occurring in just the last few decades, clusters of missing people have been identified as far back as the 1800's. The manuscript for the research was extremely large so the story was split between two books, Missing 411 Western United States and Canada and Missing 411 Eastern United States. The Eastern version will be released in late March and will include a list of all missing people in each edition and a concluding chapter that draws both books together for conclusions. Some of the issues that are discussed in each edition: \* The National Park Service attitude toward missing people \* How specific factors in certain cases replicate themselves in different clusters \* Exposing cases involving missing children that aren't on any national database \* Unusual behavior by bloodhounds/canines involved in the search process \* How storms, berries, swamps, briar patches, boulder fields and victim disabilities play a role in the disappearance \* The strategies of Search and Rescue personnel need to change under specific circumstances Major news organizations do a deplorable job of covering stories and issues which are deemed too unusual or too far outside the box. Chances are, they will find a way to trivialize or ignore the disturbing evidence accumulated by David Paulides, a former lawman turned investigative journalist. The paper trail uncovered by Paulides through sheer doggedness is impressive, the evidence indisputable. People are vanishing without a trace from our national parks

and forests, yet government agencies are saying nothing. At a minimum, this story deserves space on the frontpage of every newspaper in the country, and it warrants a formal high level inquiry by the federal agencies whose files leave little doubt that something very strange is unfolding in our wilderness. George Knapp, Host, Coast to Coast AM After reading this book, you will forever walk in the woods with a different awareness.

**Missing 411** - David Paulides 2020-06-02

MISSING 411 - People missing in the WOODS David Paulides and Chris Williams Unexplained mysteries, thriller stories, detective missions, dogs strange behavior and more terrifying unsolved cases

**Where White Men Fear to Tread** - Russell Means 1995

The Native American activist recounts his struggle for Indian self-determination, his periods in prison, and his spiritual awakening

The Cold Vanish - Jon Billman 2020-07-07

Perfect for readers of Jon Krakauer and Douglas Preston, this "authentic and encyclopedic" book examines real-life cases of those who vanish in the wilderness without a trace (Roman Dial)—and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's

foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory—history—The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

**Missing 411- Hunters** - David Paulides 2016-06-21

(www.canammissing.com- missing person site) Author David Paulides has released the sixth installment in his best selling series, Missing 411. The books have revealed the names and facts behind people who have disappeared in the national parks and forests of the world. The identification of over 59 geographical clusters of missing people in North America is one of the mysterious, unsettling and unexplained elements in the Missing 411 series. Missing 411- Hunters explains a subset of the research and documents 148 cases of hunters who have vanished in four countries. The incidents parallel other disappearances documented in prior Missing 411 books. The vast majority of the cases in this edition are new and they don't appear in other books in the series. The mystery and stories of the victims will baffle and confound the avid outdoorsman and seasoned hunter. Countries Included: United States- 26 States Canada- 9 Provinces Australia Azerbaijan Disappearances Documented: 148348 Pages Other Books in the Series: Missing 411- Western United States Missing 411- Eastern United States Missing 411- North America and Beyond Missing 411- The Devil's in the Detail Missing 411- A Sobering Coincidence www.canammissing.com

**Hunt for the Skinwalker** - Colm A. Kelleher 2005-12-06

The author of the controversial bestseller Brain Trust brings his scientific expertise to the chilling true story of unexplained phenomena on Utah's Skinwalker Ranch -- and challenges us with a new vision of reality. For

more than fifty years, the bizarre events at a remote Utah ranch have ranged from the perplexing to the wholly terrifying. Vanishing and mutilated cattle. Unidentified Flying Objects. The appearance of huge, otherworldly creatures. Invisible objects emitting magnetic fields with the power to spark a cattle stampede. Flying orbs of light with dazzling maneuverability and lethal consequences. For one family, life on the Skinwalker Ranch had become a life under siege by an unknown enemy or enemies. Nothing else could explain the horrors that surrounded them -- perhaps science could. Leading a first-class team of research scientists on a disturbing odyssey into the unknown, Colm Kelleher spent hundreds of days and nights on the Skinwalker property and experienced firsthand many of its haunting mysteries. With investigative reporter George Knapp -- the only journalist allowed to witness and document the team's work -- Kelleher chronicles in superb detail the spectacular happenings the team observed personally, and the theories of modern physics behind the phenomena. Far from the coldly detached findings one might expect, their conclusions are utterly hair-raising in their implications. Opening a door to the unseen world around us, Hunt for the Skinwalker is a clarion call to expand our vision far beyond what we know.

**Sky People** - Ardy Sixkiller Clarke 2014-12-22

Dr. Ardy Sixkiller Clarke, author of Encounters With Star People, vowed as a teenager to follow in the footsteps of two 19th-century explorers, John L. Stephens and Frederick Catherwood, who brought the ancient Maya cities to the world's attention. Dr. Clarke set out on a seven-year adventure (from 2003 through 2010) through Belize, Honduras, Guatemala, and Mexico, collecting stories of encounters, sky gods, giants, little people, and aliens among the indigenous people. She drove more than 12,000 miles, visiting 89 archaeological sites (Stephens and Catherwood visited only 44) and conducting nearly 100 individual interviews. The result is an enthralling series of unique, original, true stories of encounters with space travelers, giants, little people, and UFOs. Sky People may very well change the way you perceive and experience the world.

*There's Something in the Woods* - Nick Redfern 2008-07-01

What's in the Woods? Bigfoot? Check. Phantom black dogs? Check. Werewolves? Check. Giant mystery birds? They're here, too. Toss in some haunted woods, spooky cemeteries, crop circles, and crashed UFOs and you've got Nick Redfern's latest road trip across two continents for all things cryptozoological or otherwise mysterious. This is the third in a series of excursions into the occult fringe for the indefatigable Redfern. It all started with "Three Men Seeking Monsters," which Booklist called "lively and entertaining," and was followed by "Memoirs of a Monster Hunter," which his colleagues have called "wild and wooly" and "fascinating." Now, in this latest volume, Redfern defies all the laws of self-preservation and offers himself as bait in the face of the unknown -- to learn, if indeed, "There's Something in the Woods."

Fight For Me - Corinne Michaels 2020-05-19

A second chance love story about a man who returns home after being gone for so many years, only to be reunited with his childhood love who he left, and now hates him.

Case Studies in Drowning Forensics - Kevin Gannon 2018-12-07

When a corpse is found in a body of water, authorities generally presume that the manner of death was either an accident or a suicide. They do not treat the recovery site as a potential crime scene or homicide, so many cases remain unsolved. Case Studies in Drowning Forensics investigates the cases of 13 bodies recovered from water in similar circums

Summer of the Apocalypse - James Van Pelt 2006

Set in Denver, Colorado, and the western foothills, Van Pelt's first novel is both a coming-of-age tale as 15-year-old Eric searches for his father, and a story of Eric's search 60 years later for hope in the midst of disaster in a world of blood bandits, feral children, and an insane militia.

**Bigfoot Wild Men and Giants** - David Paulides 2018-11

A collection of archived news articles describing reports of wild men and giants from 1680-1922.

Night of the Grizzlies - Jack Olsen 1969

True Crime Addict - James Renner 2016-05-24

As seen on the Oxygen mini-series The Disappearance of Maura Murray

When an eleven year old James Renner fell in love with Amy Mihaljevic, the missing girl seen on posters all over his neighborhood, it was the beginning of a lifelong obsession with true crime. That obsession leads James to a successful career as an investigative journalist. It also gave him PTSD. In 2011, James began researching the strange disappearance of Maura Murray, a UMass student who went missing after wrecking her car in rural New Hampshire in 2004. Over the course of his investigation, he uncovers numerous important and shocking new clues about what may have happened to Maura, but also finds himself in increasingly dangerous situations with little regard for his own well-being. As his quest to find Maura deepens, the case starts taking a toll on his personal life, which begins to spiral out of control. The result is an absorbing dual investigation of the complicated story of the All-American girl who went missing and James's own equally complicated true crime addiction.

James Renner's True Crime Addict is the story of his spellbinding investigation of the missing person's case of Maura Murray, which has taken on a life of its own for armchair sleuths across the web. In the spirit of David Fincher's Zodiac, it is a fascinating look at a case that has eluded authorities and one man's obsessive quest for the answers.

BIGFOOT NATION - David Childress 2018-04-11

Childress takes a deep look at Bigfoot Nation—the seemingly real world of bigfoot around us in the United States and Canada. Whether real or imagined, that bigfoot has made his way into the American psyche cannot be denied. He appears in television commercials, movies, and on roadside billboards. In fact, bigfoot is everywhere, with actors portraying him in variously believable performances and it has become the popular notion that bigfoot is both dangerous and horny. Indeed, bigfoot is out there stalking lover's lanes and is even more lonely than those frightened teenagers that he sometimes interrupts. Bigfoot, tall and strong as he is, makes a poor leading man in the movies with his awkward personality and typically anti-social behavior. He doesn't care a skunk's gland how many movies or commercials are made about him without any royalties whatsoever being paid. To him, Bigfoot Nation is all about style, a lifestyle—shall we say—that keeps bigfoot on the fringes of society,

gently creeping into our dreams. Join David on a wild ride from the very first bigfoot reports in the 1800s to right now. Chapters include: 1800 to 1899: The Wildmen of the Frontier; The Oldest Bigfoot Photo; 1900 to 1940: The Pre-War Years; 1950 to 1990: The Post-War Years; The Skunk Apes of Swamp Nation; Bigfoot in the Southwest; 2000 to 2020: Post-Millennial Bigfoot, more. Includes 16-pages of color photos that document Bigfoot Nation!

Strange Things In The Woods: A Collection of Terrifying Tales - Steve Stockton 2020-04-10

A collection of strange and terrifying tales.

**The Last Season** - Eric Blehm 2009-10-13

Destined to become a classic of adventure literature, *The Last Season* examines the extraordinary life of legendary backcountry ranger Randy Morgenson and his mysterious disappearance in California's unforgiving Sierra Nevada—mountains as perilous as they are beautiful. Eric Blehm's masterful work is a gripping detective story interwoven with the riveting biography of a complicated, original, and wholly fascinating man.

**Missing 411 Canada** - David Paulides 2019-10-17

**The Haunting of Alma Fielding** - Kate Summerscale 2021-04-27

Shortlisted for the 2020 Baillie Gifford Prize \* A New York Times Book Review Editors' Choice Named a Best Book of the Year by NPR • The Sunday Times • The New Statesman • The Times • The Spectator • The Telegraph "Prepare not to see much broad daylight, literal or

metaphorical, for days if you read this.... The atmosphere evoked is something I will never forget."—The Times (London) London, 1938. In the suburbs of the city, a young housewife has become the eye in a storm of chaos. In Alma Fielding's modest home, china flies off the shelves and eggs fly through the air; stolen jewelry appears on her fingers, white mice crawl out of her handbag, beetles appear from under her gloves; in the middle of a car journey, a turtle materializes on her lap. The culprit is incorporeal. As Alma cannot call the police, she calls the papers instead. After the sensational story headlines the news, Nandor Fodor, a Hungarian ghost hunter for the International Institute for Psychical Research, arrives to investigate the poltergeist. But when he embarks on his scrupulous investigation, he discovers that the case is even stranger than it seems. By unravelling Alma's peculiar history, Fodor finds a different and darker type of haunting, a tale of trauma, alienation, loss and revenge. He comes to believe that Alma's past has bled into her present, her mind into her body. There are no words for processing her experience, so it comes to possess her. As the threat of a world war looms, and as Fodor's obsession with the case deepens, Alma becomes ever more disturbed. With characteristic rigor and insight, Kate Summerscale brilliantly captures the rich atmosphere of a haunting that transforms into a very modern battle between the supernatural and the subconscious.

Missing 411- Montana - David Paulides 2020-11-15

A book about people who have gone missing in Montana.
