Is the Bible Good for Women? - Wendy Alsup 2017-03-21

Is it possible to embrace the inherent dignity of womanhood while still cherishing the Bible? Many people, both inside and outside the church, are concerned that an orthodox understanding of the Bible is threatening and even harmful to women. After all, the Bible has a number of passages regarding women that are deeply troubling and hard to read. But is that assessment accurate? In this fascinating look at God's work of redemption from Creation to today, Wendy Alsup explores questions such as: * How does God view justice and equal rights for women? * What does it mean to be made in the image of God? * How have the centuries distorted our interpretation of how God views women? * How did Jesus approach the Old Testament and how does that help us read difficult passages today? * What is the difference between a modern view of feminism and the feminism that Scripture models? * How does the Bible explain the Bible to us? Using a Jesus-centered understanding to look at both God's grand storyline and specific biblical passages, Alsup gives practical and accessible tools for understanding the noble ways God speaks to and about women in its pages and the dignity He places on His daughters.

It provides new perspectives on tourism as a form of international business, and the implications for firms, the state and individuals. Split into four separate sections, with introductions outlining the key themes in each, it examines important topics such as: the role of governance and regulation in tourism services the effects of increased global mobility on tourism entrepreneurship how tourism businesses are becoming internationalized why other business sectors are increasingly interested in tourism. issues, from developments in the aviation industry to the rise of working holidays. This book gets to the core of a crucial service industry, and is essential reading for any researcher or student of tourism or international business.

Vino Business - Isabelle Saporta 2015-11-10

"This sharp critique of French winemakers, and Bordeaux's Saint Emilion region in particular, caused quite a stir when it was published in France in 2014" (Publishers Weekly). Already provoking debate and garnering significant attention across France and within the wine world, *Vino Business* is a "truly eye-opening exposé" of the dark side of French wine by acclaimed investigative journalist Isabelle Saporta (Booklist). In recent decades, Bordeaux has come under the influence of large-scale international investors. Unafraid to name names, Saporta sheds a harsh light on how this influence has corrupted the region's centuries-old traditions of winemaking excellence. She uncovers how the classification system was manipulated in 2012 to ensure that the wines of Saint-Émilion—Bordeaux's most prestigious appellation—were certified premier grand cru classé A. Giving extra points to a chateaux for the size of its parking lot, the quality of the wine itself counts for only thirty percent of that coveted rank. In other chapters, Saporta investigates issues of wine labeling and pesticides, and draws comparisons to Champagne, Burgundy, and the rest of the wine world. "This fast-paced, provocative read" is a cri de coeur for the lost values of traditional winemaking (Dave DeSimone, Pittsburgh Tribune Review).

time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. [Marihuana](#) - E.L. Abel 2013-06-29

Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass—the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus,

marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.
Understanding Four Views on the Lord's Supper - Zondervan, 2009-05-26
The Lord's Supper has been the central and characteristic action of the church at worship. But there are still many ways of understanding it and many questions surrounding this meal... Who should participate in the Lord's Supper? How frequently should we observe it? What does this meal mean? What happens when we eat the bread and drink from the cup? What do Christians disagree about and what do they hold in common? These and other questions are explored in this volume of the fair-minded, informative Counterpoints series. Contributors make a case for one of the following views: Baptist view (memorialism) Reformed view (spiritual presence) Lutheran view (consubstantiation) Roman Catholic view (transubstantiation) All contributors use Scripture to present their views, and each responds to the others' essays. Included are resources for understanding the topic further, such as: A listing of statements on the Lord's Supper from creeds and confessions Quotations from noted Christians A resource listing of books on the Lord's Supper Discussion questions for each chapter to facilitate small group and classroom use The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

Liquid Intelligence: The Art and Science of the Perfect Cocktail - Dave Arnold 2014-11-10

Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With Liquid Intelligence, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous

experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, Liquid Intelligence begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. Liquid Intelligence is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, Liquid Intelligence is the ultimate standard—one that no bartender or drink enthusiast should be without.

Economic Development in Africa Report 2019 - United Nations Conference on Trade and Development (UNCTAD) 2019-06-26

The African Continental Free Trade Area (AfCFTA) represents a historic opportunity for the continent to boost intra-African trade and accelerate structural transformation. However, this relies on a critical policy instrument: the effective implementation of preferential trade liberalization among the AfCFTA members. Whether in practice African firms will utilize tariff preferences under the AfCFTA depends on a critical factor: rules of origin (RoO) and the net benefits of complying with them. This report argues for the adoption of flexible RoO and a strengthening of institutional capacities to ensure an impartial, transparent, predictable, consistent and neutral implementation of agreed RoO.

[The Religion Clauses](#) - Erwin Chemerinsky 2020-07-30

Throughout American history, views on the proper relationship between the state and religion have been deeply divided. And, with recent

changes in the composition of the Supreme Court, First Amendment law concerning religion is likely to change dramatically in the years ahead. In *The Religion Clauses*, Erwin Chemerinsky and Howard Gillman, two of America's leading constitutional scholars, begin by explaining how freedom of religion is enshrined in the First Amendment through two provisions. They defend a robust view of both clauses and work from the premise that that the establishment clause is best understood, in the words of Thomas Jefferson, as creating a wall separating church and state. After examining all the major approaches to the meaning of the Constitution's religion clauses, they contend that the best approaches are for the government to be strictly secular and for there to be no special exemptions for religious people from neutral and general laws that others must obey. In an America that is only becoming more diverse with respect to religion, this is not only the fairest approach, but the one most in tune with what the First Amendment actually prescribes. Both a pithy primer on the meaning of the religion clauses and a broad-ranging indictment of the Court's misinterpretation of them in recent years, *The Religion Clauses* shows how a separationist approach is most consistent with the concerns of the founders who drafted the Constitution and with the needs of a religiously pluralistic society in the 21st century.

Handbook of Spices, Seasonings, and Flavorings, Second Edition - Susheela Raghavan 2006-10-23

An A to Z Catalog of Innovative Spices and Flavorings Designed to be a practical tool for the many diverse professionals who develop and market foods, the *Handbook of Spices, Seasonings, and Flavorings* combines technical information about spices—forms, varieties, properties,

applications, and quality specifications — with information about trends, spice history, and the culture behind their cuisines. The book codifies the vast technical and culinary knowledge for the many professionals who develop and market foods. While many reference books on spices include alphabetized descriptions, the similarity between this book and others ends there. More than just a list of spices, this book covers each spice's varieties, forms, and the chemical components that typify its flavor and color. The author includes a description of spice properties, both chemical and sensory, and the culinary information that will aid in product development. She also explains how each spice is used around the world, lists the popular global spice blends that contain the spice, describes each spice's folklore and traditional medicine usage, and provides translations of each spice's name in global languages. New to this edition is coverage of spice labeling and a chapter on commercial seasoning formulas. Going beyond the scope of most spice books, this reference describes ingredients found among the world's cuisines that are essential in providing flavors, textures, colors, and nutritional value to foods. It explores how these ingredients are commonly used with spices to create authentic or new flavors. The author has created a complete reference book that includes traditionally popular spices and flavorings as well as those that are emerging in the US to create authentic or fusion products. Designed to help you meet the challenges and demands of today's dynamic marketplace, this book is a complete guide to developing and marketing successful products.
