**Stray Dog of Anime** - B. Ruh 2004-07-16

Upon its U.S. release in the mid 1990s *Ghost in the Shell*, directed by Mamoru Oshii, quickly became one of the most popular Japanese animated films, or anime, in the country. Despite these accolades, Oshii is known as a contrarian within anime, a self-proclaimed 'stray dog', avoiding the limelight in favour of his own personal cinematic vision. He cannot be pigeon-holed, working in both live-action film and animation, directing everything from absurdist comedy to thrillers to meditations on the nature of reality. *Stray Dog of Anime* is the first book to take an in-depth look at Oshii's major films, from his early days working on *Urusei Yatsura* to *Avalon*, his most recent feature. Ruh details Oshii's evolution as a director, paying special attention to his personal style and symbolism, resulting in a unique guide that will appeal to anime fans and cinestoes of all kinds.

*Savage Humans and Stray Dogs* - Hiranmay Karlekar 2008-09-16

The mass slaughter of stray dogs at Bangalore and elsewhere in Karnataka in 2007 outraged animal lovers throughout India. While the killing of two children, attributed to such animals, was profoundly tragic, the authorities' response was both cruel and counter-productive in terms of a strategy for controlling stray dog populations. *Savage Humans and Stray Dogs: A Study in Aggression* explores the entire gory train of events in detail and argues that there might have been more to it than met the eye. The book looks at human aggression and the entire range of relations between human and non-human living beings, and contends that the onslaught had its cultural/psychological roots in a mindset that has evolved in a universe of morality that humans have created and which excludes animals. This universe reflects the defining influence of the Judaeo-Christian and Renaissance-Humanist tradition on the

evolution of modernity in the West. In contrast, the major ancient Indian texts embody a very different tradition in which all creation, animate and inanimate, is seen to be a manifestation of the Universal Consciousness and, hence, deserving of justice and respect. The author explores the psychological roots of violence, showing that in some cases, demand for slaughter of animals reflects the transference of the genocidal impulse to it. This book is a stimulating read for people interested in the study of behavioural psychology, aggression, violence, human-animal relations and the environment. It would also be an invaluable resource for animal rights activists.

Stray Dogs, Saints, and Saviors - Alexander Russo 2011-03-29

The inside story of the most-watched attempt to transform a troubled high school Stray Dogs, Saints, and Saviors tells the real-life story of Locke High School. Locke High- originally known for its excellence-became one of the toughest, most dysfunctional schools in the nation. Then in 2007 teachers voted to bring in an upstart charter school organization called Green Dot to try and restore the Locke Saints' past glory. It was a brave and desperate move. Working in secrecy, the school principal, a small group of teachers, and Green Dot's charismatic founder, Steve Barr, convince Locke teachers to support a petition that will take the school away from the Los Angeles Unified School District. The "new" Locke opened in the fall of 2008. Offers an in-depth look at a

school "turnaround" effort that garnered a blizzard of publicity Russo's blog This Week in Education was named by The Washington Post as one of its best education blogs of 2010 Tells the gritty truth about the tough work of true school reform Locke's transformation shows that with hard work and sacrifice, broken schools can indeed be improved in meaningful ways. However, the process of school reform is one of the most vital, and least glamorous, projects that we can participate in.

### **Cat and Dog Fleas** - Harry Frederic Dietz 1923

### *Impressionist Cats & Dogs* - James Henry Rubin 2003-01-01

Many Impressionist paintings of modern life and leisure include images of household pets. Their appealing presence lends charm to such works while alluding to middle-class prosperity and the growing importance of animals as family members. In many cases, such domestic denizens significantly complement representations of their owners. In certain others, the devotion of individual artists to their pets symbolically enhances their expressions of artistic identity. This enjoyable and informative book focuses on the role of pets in Impressionist pictures and what this reveals about art, artists, and society of that era. James H. Rubin discusses works in which artists paint themselves or their friends in the company of their pets, including several paintings by Courbet (who was fond of dogs) and Manet (a notorious lover of cats). He points out that in some works by Degas, dogs contribute to the artist's commentary on psychological and social relationships, and that in paintings by Renoir, dogs and cats have playful and erotic overtones. He also offers a theory to explain why Monet almost never painted pets. Drawing on early pet handbooks and treatises on animal intelligence, Rubin explores nineteenth-century opinions on cats and dogs and compares handbook illustrations to the animals shown in Impressionist works. He also provides fascinating information on pet ownership and on the place of Impressionism in the long history of animal painting.

### *Craig & Fred* - Craig Grossi 2017-10-31

The uplifting and unforgettable true story of a US Marine, the stray dog he met on an Afghan battlefield, and how they saved each other and now travel America together, "spreading the message of stubborn positivity." In 2010, Sergeant Craig Grossi was doing intelligence work for Marine RECON—the most elite fighters in the Corps—in a remote part of Afghanistan. While on patrol, he spotted a young dog "with a big goofy head and little legs" who didn't seem vicious or run in a pack like most strays they'd encountered. After eating a piece of beef jerky Craig offered—against military regulations—the dog began to follow him. "Looks like you made a friend," another Marine yelled. Grossi heard, "Looks like a 'Fred.'" The name stuck, and a beautiful, life-changing

friendship was forged. Fred not only stole Craig's heart; he won over the RECON fighters, who helped Craig smuggle the dog into heavily fortified Camp Leatherneck in a duffel bag—risking jail and Fred's life. With the help of a crew of DHL workers, a sympathetic vet, and a military dog handler, Fred eventually made it to Craig's family in Virginia. Months later, when Craig returned to the U.S., it was Fred's turn to save the wounded Marine from Post-Traumatic Stress. Today, Craig and Fred are touching lives nationwide, from a swampy campground in a Louisiana State Park to the streets of Portland, Oregon, and everywhere in between. A poignant and inspiring tale of hope, resilience, and optimism, with a timeless message at its heart—"it is not what happens to us that matters, but how we respond to it"—Craig & Fred is a shining example of the power of love to transform our hearts and our lives.
