Luo Biological Dictionary - J. O. Kokwaro 1998

This highly illustrated and definitive dictionary, by two renowned biologists - one Kenyan, one Canadian - contains extensive coverage of the flora, fauna and animals of the Lake Victoria region of East Africa occupied by the Luo community, and is based on ten years of research by the authors. It is an expansion of the 1972 publication *Luo-English Botanical Dictionary of Plant Names and Their Uses* and now provides more botanical entries and an additional section consisting of a zoological dictionary. The individual entry comprises Luo terminology, its botanical/zoological equivalent, common name (when applicable), physical description, its prevalence, and its respective economic use.

Kamusi Ya Kiingereza-Kiswahili - Institute of Kiswahili Research 1996

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and

academics fourteen years to prepare, with the support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since 1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation.
