## Estimating Market Value and Establishing Market Rent at Small Airports

- Aviation Management Consulting Group, Inc 2020

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

## **The GMO Deception** - Sheldon Krinsky 2014-06-03

Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

## *Odes* - Sharon Olds 2016-09-20

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

## **The Book of L** - G. Rozenberg 2012-12-06

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Glenn Pray: The Man Who Brought Legends to Life - John B. Malks 2015-02-02

This book is the unique and factual biography of the life and times of automotive legend Glenn Pray. The book is for those who are interested in small scale automobile manufacturing, fans of Auburn, Cord and Duesenberg cars, or for those who would just like to read a fascinating true life yarn. As with Preston Tucker and Malcolm Bricklin, Glenn Pray was able to introduce a technically and visually innovative automobile to the world stage. Additionally this book describes his acquisition of the Auburn-Cord-Duesenberg Company and his later adventures at manufacturing Auburn replicars. Also recommended is another Josh B. Malks book, 'Cord 810/812 The Timeless Classic'. Many great pictures throughout adds life to the words of this book. "A well-written biography of a man who was obsessed, determined, gutsy, creative and sometimes desperate, but who never let the words 'no'. 'can't' or, impossible' interfere with his quest. very interesting reading." George Smith Past president, Auburn-Cord-Duesenberg Club

**Scorch** - A. D. Nauman 2001-11-20

In the future world of Scorch, America is run by a "corporacracy." Three conglomerates have taken control not by force but by manipulating common beliefs and values through the media, and particularly by playing on Americans' fears of Big Brother. Consumerism and privatization have run amok in this landscape of flashing screens and subtle brainwashing, a world where even city streets and public schools are run by big business. This is a darkly comic first novel of a dystopian future, with echoes of 1984 and Brave New World.

Protecting the Internally Displaced - Phil Orchard 2018-10-30

Today, there are some 28.8 million internally displaced persons (IDPs) in sixty-two states throughout the world. Refugees, outside of their own state and unable to count on its protection, are provided protection through an international refugee regime based in law and organizations such as the UNHCR. By contrast, IDPs, though displaced for similar reasons, do not have the same protections since they remain within their own state. While they continue to possess rights as citizens, the state may be unable or unwilling to protect these displaced persons, or it may even be the direct cause of their displacement. Orchard seeks to examine how the international response to the problem of IDP protection has changed over the past twenty years, and how concerns over IDPs have become fused with broader questions over humanitarian assistance, peacekeeping, and the responsibility to protect. IDPs are now a core concern of both practitioners and academics within the areas of forced migration and humanitarianism and this work explores the key questions that have been raised about how state practice has actually altered towards IDPs, and whether changes to humanitarian assistance and protection designed to include IDPs have been successful. The work then moves on to explore how the emergence of IDP protection as an international issue has challenged basic understandings around similar issues, including refugee protection, migration, humanitarianism, peacekeeping, the Responsibility to Protect, and international humanitarian and human rights law, illustrating that examining the IDP protection regime offers an important opportunity to see how a new regime interacts with a range of existing regimes around similar issues, and how new challenges are dealt with in this complicated set of structures. This work will be valuable to scholars and students of peacekeeping, international relations, R2P and regime theory, as well as to policymakers, governments, and the NGO community.

In Your Defence - Sarah Langford 2018-06-28

'As thrilling as a detective novel.' The Times 'Powerful, moving and often captivating.' Financial Times 'A compelling read for anyone who cares about fairness, justice and humanity.' Observer The Sunday Times bestseller \_\_\_ Sarah Langford is a barrister. Her job is to stand in court representing the mad and the bad, the vulnerable, the heartbroken and the hopeful. She must become their voice. Sarah weaves their story around the black and white of the law and tell it to the courtroom. These stories may not make headlines but they will change the lives of ordinary people in extraordinary ways. They are stories which, but for a twist of luck, might have been yours. With remarkable candour, Sarah describes eleven cases which reveal what goes on in our criminal and family courts: these are tales of domestic fall out, everyday burglary, sexual indiscretion, and children caught up in the law. They are sometimes shocking and they are often heart-stopping. She examines how she feels as she defends the person standing in the dock. She also shows us how

our attitudes and actions can shape not only the outcome of a case, but the legal system itself. \_\_\_ What readers are saying: \*\*\*\*\* 'Absolutely fascinating . . . thought provoking, powerful and a compelling read.' \*\*\*\*\* 'This book broke my heart at times but also contained humour and such poignant insights into the criminal justice system.' \*\*\*\*\* 'Sarah writes incredibly well - she's informative while maintaining suspense and tension, and conveys so much emotion in her writing

The Altman Close - Josh Altman 2019-04-09

Land the deals you want and develop your instincts with million-dollar negotiation techniques After selling over \$3 Billion in real estate, including the most expensive one-bedroom house in history, Josh Altman, co-star of the hit show Million-Dollar Listing Los Angeles, wants to teach you the real estate sales and negotiation tactics that have made him one of America's top agents. Buying or selling a house, whether for a client or yourself, is one of the most important (and most stressful) deals anyone can make, demanding emotional intelligence and a solid set of negotiating skills. But by mastering the same techniques that sell multi-million-dollar homes in Bel Air and Beverly Hills, you can attract buyers and close deals on any property. Josh breaks down the art of real estate into three simple parts. First, he'll help you get business in the door during the Opening. Then he takes you step-by-step through the Work: everything between the first handshake and the last. And finally, the Close, the last step that ensures all your hard work pays off as you seal the deal. Learn how to open with a prospect, work the deal, close, open, and repeat Build and market your reputation, creating more sales opportunities Develop the traits of a closer in you and your team Drive the deal forward and get the best price for your property by creating desire, scarcity, and demand Successful real estate sales are driven by the same principles, whether they happen in the Hollywood Hills or just down the street. Josh wants to put those principles, and the techniques for applying them, in your hands. Learn them and discover what you can achieve.

The Queen - Josh Levin 2019

"In the fall of 1974, the Chicago Tribune found a woman its readers were sure to hate. Linda Taylor had reported a phony burglary, concocting a lie about stolen furs and jewelry. The detective who checked it out soon discovered she was a scammer, a welfare cheat who drove a Cadillac to collect ill-gotten government checks. Taylor, it turned out, was also a kidnapper, and possibly a murderer. But nobody--not the journalists who touted her story, not the police, and not Ronald Reagan, who railed against Taylor during the 1976 presidential campaign--seemed to care about anything but her welfare thievery. Levin's mesmerizing book, the product of six years of reporting and research, is an empathetic work of true crime, an account of how Taylor destroyed both strangers and those close to her... Growing up in the Jim Crow South, Taylor was made an outcast because of the color of her skin. As she rose to infamy, the press and politicians manipulated her image to demonize poor black women.

This is the dazzling story of what was done to Linda Taylor, what she did to others, and what was done in her name."--Dust jacket.

**Lifelong Learning** - Jim Smith 1999

This book provides the first comprehensive picture of lifelong learning and the radical changes needed if it is to become the cultural norm. Clearly written and readily accessible, the book identifies the shifts in attitude and behaviour which are needed to establish a lifelong learning culture. Looking ahead over the next quarter of a century, Jim Smith and Andrea Spurling show how government and learning providers must fundamentally reassess their use of time, space and finance. But, more than that, they also offer a practical, comprehensive and robust strategy for lifelong learning. Through trenchant analysis based on research commissioned by The Lifelong Learning Foundation, this book shows ways of confronting difficult choices and realizing the aim of comprehensive lifelong learning.

**Why the Rites of Reconciliation Matter** - Gerard Moore 2008

How difficult it can be to forgive others or to accept forgiveness or to accept that someone who had offended the community has been reconciled and accepted back into it. For two millennia Christians have pondered the scope of the forgiveness Jesus taught and lived. They have celebrated practices and rites that have enabled the faithful to forgive, to be forgiven, and to accept that God brings reconciliation even when we find it almost impossible to forgive. This book traces that history to the present, offering a sense not only of how the rites of reconciliation matter to Catholics but how our struggles with forgiveness are a real contribution to reconciliation in our world.

**By Fire, By Water** - Mitchell James Kaplan 2010-05-18

Recipient of the Independent Publishers Award for Historical Fiction

(Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.
